Very poor & low ~~class~~; some of the worst in Bethnal Green. Most of them keep Saint Monday most religiously. Semi-criminal ~~population~~

Many of the houses are small and in a disgraceful unsanitary condition. Nos 35 & 63 were originally sheds but were converted into dwellings. It was found that the lower rooms were not 6 ft. high & did not comply with the Building Act. The owner was served with a notice to comply with the Act & he had the floor removed & the earth dug out a few inches & the boards put down again.-

Has a large brick fishcuring establishment at back. Built this year. He built one of galvanized iron in the first instance but the sanitary authorities compelled him to pull it down & build with brick. This now the best in the neighbourhood & is regarded as a model of what such places should be. Quite a contrast to the old wooden erections

This man buys up the sweepings of Tea Warehouses, rubbish etc & sorts out the lead & the small pieces of cane. The lead is sold & the pieces of cane split up & sold to brushmakers for their work. The whole family work at it & make a good living. Have a large shed at the back of the house

The people living in these houses are a low type of water side population. No idea of decency or order. Drink largely, & homes are very dirty & without any comforts. Works is irregular. Many of them will earn good money in the summer; cocoa-nut shyers etc. spending it as fast as they get it & then get into debt in the winter and live by imposing on charitable people. who come into the district

This is all a new, or comparatively new, neighbourhood, mostly inhabited by middle class people.								
Old roads (like High Rd, Clapton) are having the biggest & the smallest houses pulled down, & middle class dwellings erected instead; the whole tendency being to increase an already large middle-class population.
