# REPORT

ON THE

Third Census of the Population of the Union, 3rd May, 1921.

## PART VII.—RELIGIONS. (EUROPEANS.)

### INTRODUCTION.

The question in regard to the Religions of the People appeared as follows on the Census Schedule for Europeans:—

#### RELIGION.

State the Name of the Particular Denomination or Sect, e.g.—

“DUTCH REFORMED CHURCH,”  
“ENGLISH CHURCH,”  
“ROMAN CATHOLIC,”  
“WESLEYAN,”  
“PRESBYTERIAN,” etc.

Write opposite the Names of Children the Religions in which they are being brought up.

18

Section 15 (1) of the *Census Act*, 1910, provides that no person shall be compelled to declare his religious persuasion or denomination if he states that he objects and enters the word “Object” or its equivalent on the Schedule. Nevertheless it is a noteworthy fact that at this census only 24 persons, 18 men and 6 women, availed themselves of their objection to declare their form of religious belief. In 1911 the number of objectors was 3,613.

The four tables included in this Part have been arranged in a form which experience shows to be the most convenient. The first table gives a comparison for the whole Union with 1911, and gives also the sex proportions. Where, as in the case of the

Dutch Churches, the male sex predominates, it has been suggested that the explanation will be found at least partly in the number of intermarriages of women with members of other Churches, the wife adopting her husband's denomination. It is not to be supposed that the masculinity of a section of the people which predominates numerically (54 per cent. of the whole European population in 1911 and 55 per cent. in 1921) over all other churches combined and is little affected by migration is of the character denoted by these figures.

The largest percentage increase amongst the chief denominations is in the proportion of those professing the Hebrew religion. The numerical and percentage increases were respectively 15,184 and 32 per cent.

Table 2 distinguishes the returns according to urban and rural areas. Viewed from this aspect there is considerable significance in many of the figures relating to the sections numerically more important.

Table 3 supplies information which experience shows to be increasingly sought after, viz., the analysis of religions in certain principal urban areas of the Union, while Table 4 gives a condensed summary for each magisterial district.

The subject of the religions of the non-European population is dealt with in Part VIII of the Report.

# VERSLAG

VAN DE

Derde Volkstelling van de Unie, 3 Mei 1921.

## DEEL VII.—GODSDIENSTEN (EUROPEANEN).

### INLEIDING.

De vraag in verband met de Godsdienst van de bevolking verscheen als volgt op de Census Schedule voor Europeanen:—

#### GODSDIENS.

Meld die Besondere Denominasie of Sekte, byvoer-  
beelde—  
“NEDERDUITS GEREFORMEerde Kerk,”  
“ENGELSE KERK,”  
“WESLEYAANS,”  
“PRESBITERIAANS,” ens.

Skryf teenoor die Name van Kinders die Godsdienst waarin dit bedoel word dat hulle opgebring sal word.

Artikel 15 (1) van de *Census Wet*, 1910, bepaalt dat niemand zal gedwongen zijn om zijn godsdienstige overtuiging of gezindheid op te geven, indien hij verklaart bezwaar daartegen te hebben en het woord “Bezwaar” of een synoniem op de schedule invult. Niettemin is het een opmerkelijk feit dat bij deze volkstelling slechts 24 personen, 18 mannen en 6 vrouwen, van deze bepaling gebruik maakten om hun bezwaar tegen het verklaren van hun godsdienstige overtuiging kenbaar te maken. In 1911 bedroeg het aantal dat bezwaar maakte, 3,613.

De vier tabellen in dit Deel opgenomen, zijn gerangschikt in een vorm, welke de ervaring geleerd heeft het meest gemakkelijk te zijn. De eerste tabel geeft een vergelijking voor de gehele Unie met 1911, en eveneens de geslachtsverhoudingen. Waar,

als in het geval van de Hollandse Kerken, het mannelijk geslacht predomineert, veronderstelt men de verklaring te liggen, tenminste gedeeltelijk, in het aantal huwelijken van vrouwen met leden van andere kerkgenootschappen, waarbij de vrouw tot de gezindheid van haar echtgenoot overgaat. Het kan niet aangenomen worden dat het mannegehalte van een afdeling van de bevolking, welke in getalsterkte de overhand heeft (54 percent van de gehele Europeesche bevolking in 1911 en 55 percent in 1921) over alle andere kerken tezamen en weinig door volkstrek beïnvloed wordt, van het karakter is als aangeduid door deze cijfers.

De grootste percentageverhoging onder de voornaamste gezindheden wordt in de belijders van de Hebreeuwse godsdienst gevonden. De absolute en percentageverhoging waren respectievelijk 15,184 en 32 percent.

Tabel 2 maakt onderscheid tussen steden en buitendistrikten. Uit dit oogpunt beschouwd zijn vele opgaven in verband met de meer talrijke afdelingen van grote betekenis.

Tabel 3 bevat informatie, welke de ervaring geleerd heeft steeds meer gezocht te worden, nl., de ontleding van gezindheden in zekere voorname Stedelijke-streken, terwijl Tabel 4 van ieder Magistraatsdistrict een beknopt overzicht verschaft.

Het onderwerp van de godsdiensten van de non-Europeesche bevolking wordt in Deel VIII van dit Verslag behandeld.
