Nursing Sisters of the Poor.

Interview with two sisters of the Assumption
Title. "Little Sisters of the Assumption
Nursing Sisters of the Poor."
14. Wellington Road.
Bromley Bow. E.

Objects.

THE LITTLE SISTERS of the ASSUMPTION
devote themselves exclusively and gratuitously to
nursing the Sick Poor in their own homes both
day and night. They take charge of the homes
and of the children, and make themselves
practically the servants of the poor and of their
families.

They will not receive any payment from their
patients, not even their food; and the poorer the
cases appealing to their charity, the more certain
are they to have immediate attention, whatever
may be their religion.

Foundation.

Founded 30 years ago in France by one of the Fathers of
the Assumption Père Perret. 22 houses altogether.

Other Branches.

Have been in Bow 17 years.
Have another branch in London at St James Sq.
Notting Hill. Siège social. Grenelle Paris.

Propaganda work - nil

Much Catholicism in Bow.

Character of the population

But little shifting

Gentle poverty

Two cases described.

No active religious propaganda. Nurse irrespective of creed: only answers questions asked.

Great many Catholics in Bow. "Great many Catholics among all poor people." Many Irish but not so many as in Notting Hill.

Population less degraded than in Notting Hill or Spital Fields those districts which the elders of the Sisters knew well: nor are the people so dirty. As a whole the Bow population is respectable & not so poor as the districts surrounding it. As a pop. it is a very steady one, loth to shift. Remaining the same houses for years. Some gentle poverty.

Of this more perhaps than the average. Two special cases lately under their notice. One that of a deceased solicitor's wife & daughter living in two rooms - very respectable, room well furnished - daughter gave music lessons. No outside appearance of poverty - were called in by the down stairs lodgers - found both wife & daughter dying of starvation - had been too proud to confess their poverty to down stairs neighbours - confessed to not having eaten meat

meat for years - lived on bread & vegetables - at last these failed.

The other the ex of an artist's wife & daughter family who applied to them for help. Found all children ill from positive want of food.

They find so many people unable to read especially parents. Notice few or no books. Of newspapers they could say 'Lloyd's Newspaper' was the most popular. Mothers complain to them that girls & boys waste their time & candles over reading. "Novel reading makes girls lazy" the dictum of one mother. Have themselves remarked that a girl who had got hold of a novel would seldom put it down before it was finished.

Chief industries in the district or in wh the poorest are employed as

match works

Rope works

Tailresses

Docks

Soap works.

The poorest & roughest are the dock labourers. Great number of Bryant & May's match girls.

Ignorance in Bow.

Novel reading for girls

Chief industries

Match-girls - their character

13

"A wild, giddy & very ignorant lot" of whom a great many are Catholics. "more wild than wicked." Have often nursed for phosy jaw. Less of this disease now than formerly. B & H may tried to do good to these girls: admit preachers to their works.

Saving & Burial clubs.

Few of the poor here save except for Burial Clubs. Most do that. The Prudential Clubs have special collectors for funeral insurance.

Police
Police a very steady lot. Some black sheep as in all large bodies. But they spoke very highly of the many are R.C.s. about six ^{out} of the Bow force being so.

Doctors: more than enough of them. Can't think how they all live. Are found not at in the main streets but in the back streets as well.

Crowding chiefly in the streets of Devon Road. three or 4 families in each house containing only 3 or 4 rooms.

Franklyn Street especially crowded.

Catholicism making great way in Bow. Two or 3 houses

hundred conversions in the last two years.

"All the most ignorant are Roman Catholics" slipped out from one of the sisters

"Romanist Catholics said to be more self-sacrificing than Protestant". sister put their greater success down to this fact.

Out-relief granted freely in Bow. Sisters approve of it. keeps the lame together. Work house disliked intensely by the poor chiefly owing to their loss of independence consequent on going into it Infirmary not much liked but people actually like to go into the hospital.

Nursing - There are district nurses but the sisters do not often see them. District nurses come for an hour or two at most. Sisters on the contrary sit all day over all night with their patients they send the ch^s to school, cook the husband's dinner etc. No protestant ^{young} sisters in Bow except Guinroo'

There are only 12 sisters in the home now.

Sisters are trained for a year in Paris under certificated English nurses.

On entering the order they are generally below

18 and 26 years of age. They are Postulants for a period of 3 months to a year.

Novices, for 2 years, & make yearly vows.
These vows to remain at least for a year.

Then they make 3 year vows & later 5 year
vows. After that they become Professed sisters
& make a perpetual vow.

Sister wondered how many people would marry if
they had so long to think and consider about it
before hand, yet they all became Professed sisters
who had once begun.

Marriage. - the girls in the neighbourhood marry
between 18 & 20 years of age & the men
between 20 - 22.

Not much rice in Bow.

Father Thompson & Sister Edmund at the Catholic house
in Bow Common - corner of Gale Street
Franciscans - should be seen. So shd. Dr. Sullivan
of 30 Campbell Rd.

Drunkiness - 'The one bane of the East' has not got worse
in Bow. 'Cagney of the Cross' has been started for
children and is successful.

The Distribution of Charity
by Home for working girls.

On the 15th of February the Sisters were unexpectedly honoured by a visit from Cardinal Vaughan. Being a Thursday His Eminence paid a visit to the Mothers assembled at the weekly meeting and said a few kind words to them all. Before his departure our Cardinal, combining as he well knows how, dignity with genial simplicity and paternal affection for those of his flock, placed a £5 note in Rev. Mother's hand, saying "I received this money to-day, take it and buy something for those who are starving." Then blessing us he departed, leaving a ray of sunshine in the hearts of all. With this money Rev. Mother bought 30 pounds of tea in half-pound packets, bread, sugar, meat, etc., and for at least two nights many a family in the district was (thanks to the Cardinal's charity), prevented from going supperless to bed.

Conversions

St Anthony's Bread.

At the beginning of 1896 Cardinal Vaughan most graciously consented to preach a charity sermon in aid of our Home; the day was fixed for the 26th of January at The Oratory, Brompton, the Oratorian Fathers having most kindly lent their beautiful Church for the occasion. The congregation was very large and the sum of £45 5s. was collected at the High Mass; we consider it a great act of charity on the part of our beloved Cardinal to condescend to plead the cause of us the smallest and most unworthy of his flock, and we are deeply touched by his great delicacy; it encourages us even more than ever to work to the utmost of our power to help him by spreading the faith as far as we can amongst his poor and bringing fresh members into the One True Fold of Christ. Last year we had 22 conversions; most of these converts continue to practice their religion very faithfully and conscientiously, and others are now being prepared for baptism. His Eminence has designed to visit our little Home several times in the course of the year and has shown much kindness and given us many proofs of his paternal protection.

We do not know if our benefactors are aware that the distribution of St. Anthony's bread takes place at our Home; we shall thankfully receive all offerings in the way of money which are then distributed in bread, etc., to the Saint's clients; this good work has found great encouragement in France from its commencement. St. Anthony's clients have discovered therein a most efficacious means of rendering favorable unto themselves this heavenly wonder-worker. May England also experience, before long, similar blessings derived by the same means, and may the bread charitably given to the poor, obtain for everyone who gives it, through St. Anthony's powerful intercession, the True Bread of Life, Jesus Christ, our Lord. There is a large statue of St. Anthony in the Convent parlour, and a box to receive alms on one side, with a lamp constantly burning on the other, or prayers said and Novenas made according to the intentions of the sender.

Among those of our benefactors who helped us this year in a very

He has lived in the neighbourhood 14 years & thinks that if anything it is on the increase.

The very worst people who come over here are the Irish Catholics & their families. Police do much good among them. Those who go to mass & confession are all right but those who do not are far worse, oh far far worse than the protestants who don't attend to their religious ^{latter} districts. Elandon Nursing Association has done an enormous amount of good. without them he does not know what the District would have done. long ago he cost 1/- per visit & not mind taking it. now people expect medicine & daily attendance for 3/- Elandon Assoc distributes charity even & will give just what the Doctor orders.

Opium, scrofula, measles, whooping cough, bronchitis esp. chy, pneumonia are the chief diseases.

Great deal of stomach liver & kidney disease of which beer is the main cause.

Great many doctors here - He has been as assistant in Poplar Forest late, Bowery - has another surgery there.

Marriages are pretty well all early. Boys of 18 open 3/- lot at all women. are a fearful evil. crowds of children - the man strikes after a time & leaves the woman.

Great many arrests from drunken women overlaying their children on Saturday nights. Very often not even examined by the coroner.

Much immorality. ladies always cohabit before marriage. it is the rule - the other is the exception. Most my

young men are forced into marriage by their parents when they find their daughters as in the family way. There is some little sense of shame at it - if the young couple always moves to a diff neighborhood to become parents. A diff parish is an unknown country.

Father Ryan a splendid man done much good work. Martin Mrs Sullivan names. 26. Campbell Rd. so is Father Correry.

Religion splendid for the people - no matter what it is as long as they attend to it.

Catholicism on the increase. The Little Sisters convert people merely for admiration for their selfsacrifice. RC priests far more energetic than the ~~poor~~ poor than the Protestants.

Rev Hall a protestant curate at All Hallows used to do a deal among the poor - a splendid worker anyone does a deal of good who will do constantly to people when they are bad. Often influence the whole of later lives of drunkards in this way.

See a good deal of the Police work. Say it is very good!

They are a thrifty good lot. don't stop treason with fighters. Wear them shorth' & run them.

Out-door relief.

Good deal of abd deal of out door relief. Generally 3/- per week. people too fond to go into the house though often it'd be much the better if they did. Must get a recommendation from Doctor before being relieved. Relief not given easily.

Instructions given

She gave instructions to all the nurses in her districts saying they w^t know almost more than anyone about the character & life of the people

Character of Bow pop.

Great many poor Romanists in Bow. Great many doctors too who are almost all Irishmen - a notable fact. As nurses they don't attempt to convert but they do work in with the church of England. Very seldom have any Recs nurses.

Ordinary doctors fee is 1/6 including medicine: though there are some who will give advice & medicine for 6d. all poor like beg give medicine & expect one bottle of it & leave them. For long cases with one visit say the charge is 3/- to 5/- per week -

Patriot failure

Institute's supporters.

People come now from Forest Gate, Leytonstone, & Hackney
class now attend the classes here. The Institute has been
meant especially for those in the Bow shops of the North
London Railway. But they don't somehow seem to care for it.

Institute is self supporting except for some assistance from
the City Parochial Association & they receive grants
from the Science and Department. It is in a poor
way financially just now.

Majority of the men in the classes are working men. It is
a condition in the agreement that 50 of the NLR
apprentices join the classes here.

Entertainments.

Entertainments during the season given 26 times ~~beginning~~ on
Saturdays & Mondays - the season being from
^{End of September to April.} There is an organ in
the large hall which cost upward of £1200 by
Brindley & Foster of Sheffield. This was paid for
by subscription. In 1874 Organ recitals were
started for the working classes at which a charge
of 3⁰ & 6^d was made per seat. It is claimed that
the Institute is the "Father of Organ Recitals" in
