# UNION OF SOUTH AFRICA.

## CENSUS OF POPULATION, 5th MAY, 1936.

### PRELIMINARY REPORT.

A census of the population of the Union of South Africa was taken on the night of 5th/6th May, 1936, in accordance with Proclamation No. 234 of the 5th November, 1935, made by His Honour the Officer Administering the Government under the Census Act, No. 2 of 1910.

Concurrently with the enumeration in the Union, censuses were taken in the Mandated Territory of South West Africa, the High Commission Territories of Basutoland, Swaziland, and Bechuanaland Protectorate; and also in Southern Rhodesia.

The first preliminary results of the Union Census, taken from roughly checked results in Enumerators' Summary Books, were available on the 15th June, less than six weeks after the Enumerators started on their itineraries. They were published in the *Union Government Gazette* of the 19th June.

The present publication is a revision of the results of the preliminary audit and shows the following increases:

Date Preliminary Results.	Europeans.	Natives. (Bantu.)	Asiatics.	Coloured.	All Races.
19th June, 1936.....	1,979,390	6,529,784	215,529	755,282	9,479,985
Revised October, 1936.....	2,003,512	6,597,241	219,928	767,984	9,588,665
Differences.....	24,122	67,457	4,399	12,702	108,680

#### SUMMARY OF POPULATION IN THE STATES AND TERRITORIES OF BRITISH SOUTH AFRICA.

CENSUS, 1936.

Country.	European.			Native.			Asiatic.			Coloured.			All Races.

\* Natives in employment only.

† Natives within the Police Zone only.

**Historical Survey.**—Table 1 gives a history of the censuses taken in the States now comprising the Union since the first enumeration in the Cape of Good Hope in 1865. Since that date, the area has increased by the following additions:

- (a) Between Censuses of 1865 and 1875, British Kaffraria was annexed to the old Cape Colony;
- (b) Between Censuses of 1875 and 1891, Griqualand West, and the Transkeian Native Territories (excluding Pondoland) were annexed to Cape Colony;
- (c) Between Censuses of 1891 and 1904, Pondoland and the area known as British Bechuanaland were added to Cape Colony.

The first simultaneous census of the area now comprising the Union was taken on the 17th April, 1904, while the first census of the Union was taken on the 7th May, 1911.

**Organization of the Census.**—The following table gives some idea of the field organization for the purpose of the enumeration.

The differences are mainly due to the late receipt of forms and books from many areas; and to errors in summation by enumerators. It was also found that many books and forms had not been included in the original summaries compiled by enumerators. After publication of the preliminary returns from supervisors, it was discovered that the figures relative to the Natives on one of the gold mines in Johannesburg had not been received.

The final results, which will be arrived at by machine tabulation, will be available about the middle of 1937, but it is not anticipated that they will vary to any appreciable extent from those now published. The principal difference will probably be due to adjustments between the European and Coloured community, between Bantu and Coloured, and to a lesser degree between males and females, according to the degree of care exercised by enumerators in compiling their summaries.

**British South Africa.**—The preliminary results of the censuses in the other territories of South Africa, available at the time of going to press were as given hereunder:

The unit of supervision is the magisterial district and, with certain exceptions, the Magistrate is the Supervisor of Census for his area. Excluding Supervisors and special clerical assistants there were 11,524 persons employed on active enumeration.

The Union was divided up into 8,445 sub-districts, 2,836 for the towns and villages, and 5,609 sub-divisions of the Native Reserves, Crown lands, farming areas, etc.

The persons engaged in field work numbered 7,797 European and 534 non-European Enumerators. In addition, 822 non-European interpreters and 2,371 Native chiefs and headmen were employed to ensure that the non-European elements of the populations were accounted for. An analysis of the 8,331 Enumerators shows that 191 were railway officials for the enumeration of passengers on trains and at stations, and of officials in restrooms, 495 were police officers, 1,607 were Government officials, 5,504 were farmers and other private individuals and 534 were non-Europeans.

UNION.....	246	8,445	2,836	5,609	256	8,331	495	7,836	822	2,371	209	5,108	1,484	3,624	212	5,192	1,405	3,787	436	1,326

**Railway Travellers.**—The South African Railways are divided into nine systems for administrative purposes. A Railway Supervisor of Census was appointed for each system and working under them were 191 Enumerators. They enumerated 12,044 persons, but not all of them were railway travellers. Persons on railway premises, train staffs in restrooms, and gangs in railway camps in Natal were also accounted for by these Enumerators. The numbers of each race were as follows:

	European.	Native.	Asiatics.	Coloured.	All Races.
Males.....	3,038	6,636	28	555	10,257
Females.....	1,107	578	19	83	1,787
TOTAL.....	4,145	7,214	47	638	12,044

These persons have all been transferred to their normal place of residence.

**Cost of Enumeration.**—At the time of writing all expenditure authorized for enumeration has not yet been made, but sufficient information is available to compute the approximate cost per head of the population enumerated. The cost per capita for the whole Union was 2·05 pence. The highest cost was 2·46 pence in the Orange Free State and the lowest in Natal, 1·11 pence.

**Tables Nos. 1 to 6.**—The chief table in this report is No. 6. This shows the population according to race in each magisterial district, and under each district, the population in each Municipality, Village Board Area, Health Committee, etc., compared with previous censuses.

Table No. 1 shows the progressive increase in the population since the first census of the Cape of Good Hope in 1865.

Table No. 2 is a comparative summary for 1921, 1931, and 1936 with numerical and percentage increases or decreases.

Table No. 3 gives in summary form the urban and rural populations according to race and sex in 1921 and 1936.

Table No. 4 gives a comparative statement of the European adults and minors in urban and rural areas in 1931 and 1936.

Table No. 5 gives in convenient form the populations of the largest urban centres and their suburbs.

**Co-operation.**—I would take this opportunity of expressing my appreciation of the services rendered by officers of various Government Departments in connection with the Census. Especially would I thank the Magistrates, and their staffs, of the Departments of Justice and Native Affairs and the Electoral Officers of the Department of the Interior. The additional burden of the Census placed upon them necessitated giving up many hours of their leisure, but the results from the several districts indicate the care with which the delimitations of the districts were made and the despatch with which the enumeration was carried out.

I appreciate the opportunity afforded me of discussing the peculiar local difficulties with many of the Magistrates and Native Commissioners personally during the early stages of the organization. I feel that their close co-operation with the Census Office has smoothed away many difficulties which might otherwise have arisen.

A. W. CARRUTHERS,  
Director.

Census and Statistics Office,  
Pretoria, October, 1936.

## UNIE VAN SUID-AFRIKA.

### BEVOLKINGSENSUS 5 MEI 1936.

#### VOORLOPIGE VERSLAG.

'n Bevolkingsensus van die Unie van Suid-Afrika is gehou gedurende die nag 5-6 Mei 1936, ingevolge Proklamasie No. 234 van 5 November 1935 uitgevaardig deur Sy Edelgabre die Amptenaar Belas met Uitvoerende Gesag kragtens die „Census Wet,” No. 2 van 1910.

Gelyktydig met die telling in die Unie is sensus gehou in die mandaatgebied van Suidwes-Afrika, die geweste onder die beheer van die Hoë Kommissaris, naamlik Basoetoland, Swaziland en die Betsjoeanaland-protektoraat en ook in Suid-Rhodesië.

Die eerste voorlopige resultate van die Unie-sensus geneem uit nie-presies gekontroleerde syfers in die opnemersopsommingboekie, was beskikbaar op 15 Junie, minder as ses weke na die opnemers met hul rondgang begin het. Die resultate is in die Staatskoerant van 19 Junie gepubliseer.

Hierdie publikasie is 'n hersiening van die resultate van die voorlopige telling en toon die volgende vermeerderings aan:

Datum van Voorlopige Resultate.	Euro- peane.	Naturelle. (Bantoe.)	Asiate.	Kleur- linge.	Alle Rasse.

\* Alleen Naturelle wat in werk is.

† Alleen Naturelle wat in die Poelsiegebiede is.

**Geskiedkundige Oorsig.**—Tabel 1 gee 'n geskiedkundige oorsig van die sensus wat gehou is in die gebiede wat nou die vorm, sedert die eerste telling in die Kaap die Goeie Hoop in 1855. Sedert daardie datum is die gebied vergroot deur die volgende toevoegings:

- (a) Tussen die sensus van 1865 en 1875 is Brits-Kaffaria by die ou Kaapkolonie ingelyf;
- (b) Tussen die sensus van 1875 en 1891 is Griekwaland-Wes en die Transkei-naturellegebiede (met uitsondering van Pondoland) by die Kaapkolonie ingelyf;
- (c) Tussen die sensus van 1891 en 1904 is Pondoland en die streek bekend as Brits-Betsjoeanaland, by die Kaapkolonie ingelyf.

Die eerste gelyktydige census van die gebied wat nou die Unie vorm, is op 17 April 1904 gehou, terwyl die eerste census van die Unie op die 7 Mei 1911 gehou is.

**Organisasie van die Sensus.**—Die volgende tabel gee 'n idee van die veldorganisasie vir doeleindes van die telling. Die kontrole-

eenheid is die magistraatsdistrik en, met sekere uitsonderings, is die magistraat die Kontroleur van Sensus vir sy streek. Met uitsondering van kontroleurs en spesiale klerklike assistente, was daar 11,524 persone werksaam in verband met telling.

Die Unie was verdeel in 8,445 sub-distrikte, 2,836 vir die dorpe, en 5,609 sub-adelings van die naturellereserves, kroongrond, boerderystreke, ens.

Die persone met veldwerk belas het 7,797 blanke en 534 nie-blanke opnemers beloop. Behalwe dit was daar 822 nie-blanke tolke en 2,371 naturelle-kapteins en hoofmanne werksaam ten einde te verseker dat die nie-blanke gedeeltes van die bevolking behoorlik getel word. 'n Analise van die 8

**Spoorwegreisigers.**—Die Suid-Afrikaanse Spoorweë is vir administratiewe doeleindes in nege afdelings verdeel. 'n Spoorwegkontroleur van Sensus is vir elke afdeling benoem, en onder hulle was daar 191 opnemers werkzaam. Hulle het 12,044 persone opgeneem maar nie almal van die was Spoorwegreisigers nie. Persone in spoorweggeboue, treinpersoneel in ruskamers, en ploëe in spoorwegkampe in Natal is ook deur hierdie opnemers neergeskryf. Die getalle van elke ras was soos volg:

	Europeane.	Naturelle.	Asiate.	Kleurlinge.	Alle Rasse.
Mans.....	3,038	6,636	28	555	10,257
Vrouens.....	1,107	578	19	83	1,787
TOTAAL....	4,145	7,214	47	638	12,044

Hierdie persone is almal oorgeskryf na hulle gewone woonplekke.

**Koste van Telling.**—By die samestelling van hierdie verslag is alle gemagtigde uitgawes ten aansien van die telling nog nie bestee nie, dog daar is voldoende informasie beskikbaar om 'n berekening van die koste per hoof van die bevolking by benadering te kan maak. Die koste per hoof vir die Unie as 'n geheel beloop 2·05d. Die hoogste koste is 2·46d. in die Oranje-Vrystaat, en die laagste in Natal, 1·11d.

**Tabelle Nos. 1 tot 6.**—Die vernaamste tabel in hierdie verslag is No. 6. Dit toon aan die bevolking in elke magistratsdistrik volgens ras, en onder elke distrik, die bevolking in elke munisipaliteit, dorpsbestuur en gesondheidskomitee, ens., vergeleke met vorige sensusse.

Tabel No. 1 toon aan die progressiewe vermeerdering van die bevolking sedert 1865.
