My dear Pippa.

I've not written simply & cheerily for want of time - even now I'm trying to write this against a conversation with Julian & Pierre Savary leaning in at the silly studio window. Yesterday 14 people to tea - Bosham having become an incredible centre of culture - Elliott the American poet, Gilbert Cannan, Hope Johnstone the artist who stands in Persia & Goodness knows who, as it said in an adjective letter Pamela wrote we had a most delightful party. Amber B. White came for two days - she had two days leave &

implored a place her. She was very amusing but remains to me a great puzzle I can't put her together as one thing at all and my instinctive feelings are continually at cross purposes with my judgments.

On Sat. a thrilling sail with Pamela Miss Joy (her ex-governess) to Elmer. Fortunately we had ~~the~~ Amels aboard as he had to buy the boat back - otherwise I shd. have been too tempted - tho' as a matter of fact I managed it all right.

The old members of frames were pushed to time but only by work nearly 12 hrs. are by improving Pam & Amber into the service.

Please come back by sea to your

Roger.

Please find.
