Dear Madam,

I received your letter of yesterday's date with much regret and I should be very much obliged if you would let me know the grounds of your dissent from the principles upon which our Society is now acting in order that I may lay your case before my Committee.

Yours faithfully,

P.3.

Lytelltin

5th February, 1912.

Dear Madam,

I beg to thank you for your letter but I cannot help thinking that it is written under some misapprehension in regard to the attitude of our Society, as we have in no way departed from the police which we have held for many years. In common with most other Suffrage Societies we have always claimed that the parliamentary franchise should be given to women on the same terms as it is or may be given to men.

In face of the immediate political situation we maintain:

- 1. That we continue firmly to support the Conciliation Bill and claim the facilities provided for it.
 - 2. We strongly oppose the Manhood Suffrage Bill.
- 3. We claim that if the Manhood Bill is to be proceeded with, every legitimate effort should be made to prevent its becoming law without the inclusion of some women. The Amendments to it which appear most likely to receive wide support are a). One on the conciliation Bill basis giving about one and a half million women worse or b). One on what is known as the Norwegian basis to given votes to the above with the addition of a larger number of married women.

I trust that you and Canon Lyttelton will not seriously consider withdrawing your support at this critical moment, when the struggle turns, not on whether all women are to obtain votes, but whether any are to be enfranchised.

P.S.

The Hon. Mrs. Edward Lyttelton.
