My dear Melley

I postponed writing to you
 from day to day wishing
 to give you the news ~~you~~
 about Alt-Heidelberg - the
 expected answer never came
 and now Trmelis is in
 Berlin for a fortnight with
 Alice, besides I am sure
 Frau v. Bremer will write
 that she is "delighted just

to mind the warm water
she often did not get.
Please excuse my hurried
handwriting but I have

been making hay and
digging (Pöcete hacken) all
day long and that quite
spoils its usual elegance.

I suppose you are quite
dignified Directorin again
and we would all be
very much snowstruck, if
we could see you in your
stateliness, the naughty words
with which we used to tease
you, would die upon our
lips. I shall remain new for
the rest of this month, because
toward the middle of it an
aunt is coming, whom I must
help to entertain and keep
