Dear Madam

I am much
interested in the prospectus
of the Woman's Hospital
which you have sent me.
From the prospectus itself
as well as from the fact that
a lady whose name is on
the Committee has told me
that she is uncertain whether
she shall belong to it, I
gather that the scheme is

at present in a hypothe-
tical state. When it is quite set
on foot we shall like very
much to be annual sub-
scribers.

I assure you, Mr. Lewis
& I are glad to be remem-
bered by you in connection
with good efforts.

Always, dear Madam,

Yours sincerely

W. Lewis
