Dear Mr. Roberts

I am not now officially connected with
the 'Guardian' but I have sent the statement
to the Editor & I hope he may print some
part of it in view that the facts may be
known. This is required by fairness, and
in view to check a mischievous scare
which certain people are raising - As
bearing on the general question, I write that

really able women would avail themselves
of the ministry of the diaconate which
is open to them.

Yours sincerely

Arthur C. Johnson
