Ridge Cap, Shottermill, Haslemere,

Dear Miss Bompas,

I am complimented by your kind request that I should speak at a Women's Suffrage Meeting in Kensington, but as I have already wired you, I am unable to do so at present. I regret that your letter was delayed in reaching me as I am at Shottermill.

It happens that at this juncture I am at a critical point in the work of the above Organization, whose object is to find a land for the rescue of Russian Jews, and so I do not feel inclined to interrupt this work except for a really vital occasion.

The Kensington meeting seems to me a matter of local spade work, but should there be any great central demonstration to influence the public at large I shall make an effort to take part in it.

Believe me,

Yours sympathetically,

Israel Zangwill
