Dear Sir,

I have your letters, but it will be very difficult to raise this question unless you can get medical evidence that the other two women are ill now. That really is the crux of the whole case.

Mr. McKenna will say that the doctor has certified that it would be dangerous to your wife if left in prison & that he has certified that the other two women are all right.

How you are to get over this I cannot see. Best wishes.

Yours faithfully
