

Working Women

AL/2822

25th May, 1911.

Dear Miss Bolton,

Please accept the warmest thanks of our Committee for the exceedingly kind and generous way in which you have responded to our request for opportunities for approaching young women. I had hoped to write sooner but we have been so very busy making the necessary arrangements <sup>with the ladies</sup> ~~out for~~ such an opportunity.

I hear from Mrs. Richardson that you welcomed her so courteously and that the women were so nice that she is quite looking forward to this afternoon.

Miss Ransom is coming to-morrow night. I believe she has written to ask the way which you will wonder at after your full instructions to us, but it was a little mistake, as I fully understood her to tell me on the telephone that she knew the way.

We shall be delighted to send more speakers if you have more meetings between now and June? You will let us know, and also in regard to all the practical arrangements.

AL/2822  
CO-V

We guarantee all fares where they are any difficultly to the women, with the one condition that a responsible person undertakes to see that all is in order in regard to the money. The fares can be sent beforehand if desired or paid afterwards when it is known exactly how many go. In all cases when the women are reasonably sure of being able to go reserved seats are provided, where there is any uncertainty unreserved.

Again offering our cordial thanks.
