Dear Miss Lowndes,

I hear from Miss Lenn that you looked over the emblems when they were returned, and that a few special things want doing up. I could ask Miss Craies to go in and do what she could in this matter, or, perhaps, you would rather arrange yourself to have them done and let us pay something towards the time and trouble. Miss Lenn thought that you considered the things rather the worse for wear. We were as careful as possible not to let them be touched, but I suppose each time they are used, they cannot help looking a little less fresh afterwards. They made a great impression at the Exhibition, and we were exceedingly grateful to you for lending them, and are glad that no serious damage has been done, and hope that you will not feel that the wear and tear was wasted. I believe there is some hat that wants re-cutting. Will you arrange about this and charge us, or shall I see to it?

With many thanks for all your kindness,
Yours sincerely,

M. Ramsay MacDonald
