Dear Edith-

I had news of you from Friday yesterday. & it does not seem too good to me. I am sorry you are still so ill. I don't expect you will be able to celebrate Monday 13<sup>th</sup>? We here, with Mrs Davison, will think of you & many others as we take our cups of tea in afternoon.

Miss Garner has gone to live quite near you in Onslow Avenue. Sharing a flat. & I shall ask her to go in & see you one day. she is thinking of returning to England, as she is not too happy here. She has not been treated kindly by her own folk out here. She loves to spend a week end with us, but we are not well enough to have her here all the time. John had a fall off the step ladder in the house a couple of

weeks ago - quite a lot of minor  
damage to hands, knees & shin - but  
the most severe & painful is a cracked  
rib & internal bruises. Dr. told him  
not to disturb the dust again or if he  
wanted to climb up any where to send  
for him first: John must be tough. He  
told John he thought I suffered more  
than he did - I saw it all & tried to  
soothe him - He did say he thought he  
could paint the outside of the house  
himself. He knows now he could it.

I have lead in my shoes & under the  
bed legs. Hoping it will make the  
arthritis ease up. So far not much  
effect to me. But Mrs. Fileen seem  
to be gaining benefit from it.

With love to you both from  
Louie C. Cullen

Have you had letters from Mayo, Baldoch,  
Donal & Ara Cahly?
