Dear Miss Garrett

Mr. James & her
daughter hope to
come to your lecture
on Tuesday afternoon
They are very much
obliged by the tickets
which I sent them.
I mean to make my
appearance also -
and wish I was able

to attend regularly
for I never passed on
more pleasant and
instruction home
than in listening to
you - Will you think
of my friend Madame
Noceidi - whose prospectus
I enclose - Supposing
you know of any
land writing to her

her daughters education
finished in Paris
It is an unexceptionable
home for a girl - with
thorough training

Yours very truly
Susan D. Durand

Sunday morning.
