

## SUFFRAGE,

QUEEN'S CHAMBERS, 5, JOHN DALTON STREET, MANCHESTER.

Sept: 1890.

Dear

The lamented death of our valued friend, Miss Becker, to whose unceasing work the existence of the Society for so many years has been due, necessitates an early consideration of the position and prospects of the Manchester Society.

The most fitting tribute which the Society could pay to the memory of Miss Becker and the most worthy acknowledgment of her great and unceasing efforts would be to continue and prosecute to its final issue the work in which they have for so many years been fellow labourers.

The Committee feels, however, that before the Society determines a definite course of action for the future, it is essential that all its present liabilities (some of them of long standing) should be discharged. A summary statement of these liabilities is annexed, and the Committee earnestly - by hopes that you will give your assistance by making a donation.

As the Committee can only appeal to a few of our best friends and as the occasion is urgent, may we ask for your kind consideration of our request as early as possible.

For the Committee  
Robert Adamson  
(Treasurer)
