18th August 1909

Madam

You must have seen many statements about the women in the daily press of the most derogatory kind written by irresponsible witnesses of the various deputations. Have you written to question the statements made by these anonymous scribbles that women like to scratch policemen? If not why do you write to me to challenge a responsible statement made by a woman whose name is well known & who has worked for better moral conditions for her sex for many years? Dr Kate Bushnell has written of what she saw and although being arrested early in the proceedings I did not myself

Scottish Civil-Organisation for Demonstration: Mrs DRUMMOND

see what she described I believe it is
true because on other occasions I
have see similar occurrences myself.

I should advise you not to believe all
you read in the daily papers but to try
to get information as to the English agitation
for the suffrage at first hand.
If possible see for yourself

Faithfully yours

E. Pankhurst
