first Coalition Govt.*

Dear Mrs. Fawcett,

Very many thanks for your excellent letter of congratulations. It is an inspiration in view of the fact that some of our close friends in the Labour Movement take such a strangely different view to that held by yourself. Personally I am quite satisfied to rely upon your judgment, which is in strict harmony with my own. At any rate I am convinced that, had we followed the minority during the past 10 months, the Labour Party would be now in a most unfortunate position indeed. I appreciate your congratulations very much.

Kind regards,

Yours sincerely,

Arthur Henderson
