Dear Sir,

While thanking you for your letter of Jan. 3rd I must point out that this Society steadfastly adheres to the object for which it was originally formed, i.e. to secure for women political rights. It is not within the power of the Committee to go outside this programme although no doubt many individual members fully sympathise with you in your crusade. Our membership being so wide and scattered, it would be impossible to consult the Society as a whole as to taking up any particular work for which the Society has not been originally started. I would also point out to you that the object you have in view would best be forwarded by Church people. Why not approach prominent women who are connected with Church work?

Yours faithfully,
