Dear Mrs. B.G.

I must answer your first letter with regret and say untill I can put the finances of M.W.A. on a firmer basis, I cannot contribute to another organization.

Next about speaking on the 28th. )) I find it hard to refuse you anything--can I have a word with you-- Ken. 3098 (early is my number) how long must I speak--shoud I say "Why I became a feminist" and bring out two points nearest to my heart that of equal education when needed for girls as well as boys as many women do not see the need of this to-day, and we are wasting good brain-power, and also of course the economic status of thw married woman--I am not saying yes, till I talk to you. Yours in haste,
