Dearest Amy,

I don't know how to thank you for your most kind letter. You know how I have loved my work for W.S. and the uplift of women in all directions: how wonderful it has all been. During the war, instead of our work crumbling in our hands, it has been taken out of our hands by the tremendous world movement for Democracy.

We are delighted & touched by what you say of your dear Jack. It has been very wonderful and beautiful.

Agnes has had a satisfactory letter about the young McKeon who seemed to have dropped out of sight. She has had a new address sent - I have per his former officer.

With dear love in which we all join

Ever your lovingly

M. S. Jewett
