My dear Pippa

Things being rather  
slack at present I am  
meditating a three days  
excursion to Allahabad  
the excuse being to view  
the John Huddlestons who  
will be there this week.

I shall also try to get  
a fortnight in August  
and shall probably go to  
Mussorie -

many thanks to all for kind congratulations - Sir Edward Williams was always most surprisingly polite to me. No further news about S.F.R. The rumour about only half being constructed evidently was started by a letter from Sir Alexander to the Board recommending this course - The old Govt of India will probably greedily snap at the idea.

Geake collector of Arrah and Ross Assistant Magistrate do have been here for a few days - The extraordinary thing about the latter is that in appearance except that he has red hair, he is the twin brother of Mr. Albert Ross of Synton Court.

Nothing fresh in these quarters - The rain it raineth every day - I have not written yet to Fauthe to thank her for her tie-

Case and every week I  
put it off the fatality  
grows worse.

No more at present  
from yours

HA.
