7 Apr 5. 12

Dear Tom

Mr Dankusier has  
telephoned that Millie had  
toothache so she is put  
in the Hospital in order  
to see a dentist. I expect  
the headaches she speaks  
of are really toothache.  
Dr G. A. has come out so  
now I shall not be able to  
communicate with her  
except thro' Mr. H.

W. H. will see her next  
on Tuesday, so have  
letter then in time. She is  
quite cheerful & very pleased  
to receive your letter - something  
about subjects which she  
likes very much. I feel  
nervous about the food as  
apparently she really may  
not have it. I hope to  
hear from you in the morning  
but probably you will not  
receive this till Sat'  
Horsell
