Dear Lady Frances,

I can't help feeling that it is ^{right to be} possible

to get a better understanding among

the best members of the Swanley

Board, and that the present state

of things arises, in part at any

rate, from the two sides in which

the board is divided, taking a

different view as to matters of

fact. This at any rate may

be put straight, as between candid &
straightforward people, who have the
same object in view namely the
welfare of Swansea College and
the improvement of the industrial
position of women.

Now after this preamble
would you consent to meet Miss

Wilkinson and Miss Cans here
some day soon if we can find me
whenever suits us all. I would be
present or not just as you
(If I were present it would be as an old friend of you all
at the college, and as a member of the advisory council)

all wish; but I would suggest
that the talk be arranged with
a view to arriving at a common
understanding as to matters of
fact.

Friday afternoon or
Saturday morning next would
suit me & Miss Wilkinson

^{neither}
If it should ~~not~~ suit you would you

kindly suggest me in two days or

when you ^{meet the Misses} could ~~come~~ I will find

out about Misses Cars after hearing from

You.

Ever yours affectionately

—
