Hee wants blouses sent from home.

She also wants a towel & a bottle of floriline for her teeth.

Garth will ^{send} bump you patterns from the tailor & she wants you to bump them to her to choose a pattern.

Mrs Bennett is also very bright & jolly & cheers them up. I had to take the label off the soap & Nell was able to give it. She wants prisoners not to accept remission of sentence but ^{Nell} she thinks it is a mistake so do I.

She wants little Mark to go on at Miss Keatings till she comes out. He is not to go to the public school. Nell thinks her charge sheet is among the things she gave you. She wants you to keep it as it may be of interest to the children. It is 12.30 & I am still waiting to see Miss C & R. Nell cannot eat pastry she likes potted meat as much as anything. I am returning her money by Carter Paterson.

I thought Miss Roberts didn't look at all well. She says she is poor & cannot afford a barrister but I told her it would be all right. They none of them seem to want to be defended. Nell likes biscuits but she has plenty at present. She is very glad to be able to have things round. Miss Crocker & Miss Roberts would be glad to have potted meats in glasses which will keep as things go 'bad in the cells. Also they want some toilet soaps. Nell will like to see Miss Cash very much. She is very well. Miss Crocker says that ^{she} she is
