29, GROSVENOR PARK,
LONDON, S.E.

April 20th, 1911.

Friday before
Whitsun.

Dear Miss Bompas,

Thanks for your letter, dated April 18th.

I think your date of June 2nd for the Queen's Hall meeting would be a suitable one for most working women. Many working women, however, do their week's shopping on Friday; and that, as you know, with a thrifty housewife, takes precedence of everything else. That is the only objection to the Friday.

I would suggest that you get the addresses of all women's P.S.A.'s, etc., if you could, from Miss Towers (who is Secretary of X the London Federation of Women's P.S.A.'s), address: Settlement House, Cumberland Road, Plaistow; and then write to the Secretary, asking them to help with contingents.

I should hope that I could bring up from 150 to 300 women from this district, but I could not say definitely for some weeks yet.

I would suggest 8 o'clock as more suitable than 7.30.

If you can get Mrs. Bramwell Booth, that will be very good. But I doubt whether she will come.

Let me have literature, notices, or anything that you may have, and I will do my best to circulate them.

With kind regards, Sincerely yours,

Bessie M. Stead
