My dear Lydia

As I find you have a taste
for History I have sent your
Tytlers work, which ranks
very high in this department
of literature, the plan of the
work is considered to be ad-
mirable as well as original
and the execution very faithful
I have never purchased Gibbon
La. Cropley says it is the most
delightful Book of Fiction
he ever read, with the excep-
tion of the Arabian Nights -
when you have finished Tytlers
I have a most interesting History
of Venice which I should like
you to read

Love to all -

Your affectionate Uncle
