Dear Madam

With great regret I have read in the Morning Times that a public meeting led by W. Winslow Churchill at Manchester last night was "interrupted by a number of ruffians who created a great disturbance" -

As these most unseemly occurrences are alienating the sympathies of many of the

who have subscribed
to the cause of Women's Suffrage
may I venture to ask in the
interests of that cause that a
public official announcement
of them should be made
by the authorized heads of
the Women's Suffrage Soc^y -

It is particularly undesirable
to all political parties that
Mr. Winslow Churchill should
be justified in saying that

Only at Social Radical
meetings do such disrespectful
scenes take place.

If the names of the offending
suffragists could be made
known it would materially
help Women's Suffrage.

I am dear Madam
Yours faithfully
Sarah Beardsley
