# **Business Monitor**

Report on the Census of Production

Canvas goods and sacks and other made-up textiles

A publication of the Government Statistical Service

#### **Special Note for Purchasers**

Commencing with the 1971 Census, the Census of Production reports are being numbered in a uniform series embracing all industrial inquiries in the Business Monitor series. These Business Monitors have a code P (for production) followed first by A (indicating that it is an annual series) or Q (quarterly) or M (monthly): and then by a number indicating the minimum list heading, or sub-division of a minimum list heading, of the Standard Industrial Classification (revised 1968).

The Census of Production (PA) reports are available on standing order (details on application to Her Majesty's Stationery Office, P.O. Box 569, London SE1 9NH. Telephone 01-928 6977), although they are not included in the global subscription arrangements for the Business Monitor series.

#### **Government Statistical Service**

A service of statistical information and advice is provided to the Government by specialist staffs employed in the statistics division of individual Departments. Statistics are made generally available through their publications and further information and advice on them can be obtained from the Departments concerned.

## PA422.2 CANVAS GOODS AND SACKS AND OTHER MADE-UP TEXTILES

The information in this report relates to establishments classified to the Canvas goods and sacks and other made-up textiles industry, minimum list heading 422.2 in the Standard Industrial Classification (revised 1968). The activities of the industry include:-

1

Manufacturing sacks and bags, tents, awnings, tarpaulins, sails, made-up filter cloths, etc.

Notes

These notes give the main information needed for interpreting the figures in the industry Business Monitors: more detailed information about the census is given in a separate Business Monitor -PA1001 (Introductory Notes) of the Report on the Census of Production, 1976.

#### GENERAL INFORMATION

#### Changes made for 1976

The Census for 1976 is in line with similar inquiries being conducted in other member countries of the European Economic Communities. There was a small number of changes in the scope of the industry reports compared with 1975. These include separate headings for:

Sales of goods produced

Receipts for work done and industrial services rendered

Amounts paid for hire of plant and machinery Amounts paid for rent of industrial and

commercial buildings Specific changes are explained in the introductions to the industry reports or by footnotes to the tables.

Suppression of information relating to individual undertakings

Section 9(5)(b) of the Statistics of Trade Act 1947 states - "The following provisions shall have effect with respect to any report, summary or other communication to the public of information obtained under the foregoing provisions of this Act -

in compiling any such report, summary or communication the competent authority shall so arrange it as to prevent any particulars published therein from being identified as being particulars relating to any individual person or undertaking except with the previous consent in writing of that person or the person carrying on that undertaking, as the case may be; but this provision shall not prevent the disclosure of the total quantity or value of any articles produced, sold or delivered; so, however, that before disclosing any such total the competent authority shall have regard to any representations made to them by any person who alleges that the disclosure thereof would enable particulars relating to him or to an undertaking carried on by him to be deduced from the total disclosed."

If a figure involved disclosure the contributor concerned was sometimes asked to give permission for its publication. In the majority of cases permission was given. When it was refused and where contributors were not approached the figure has been suppressed, either by combining it with other figures, or as in the regional tables, by omitting the figure altogether.

#### Symbols used

The following symbols are used throughout the PA series of Business Monitors:

- .. not available
- nil or less than half the final digit shown figures cannot be shown owing to the risk of
- disclosing information about individual enterprises R revised

Rounding of figures Figures in the tables have, where necessary, been rounded to the nearest final digit. Where figures have been so rounded, the sum of the constituent items may not always agree exactly with the total shown.

was subsequently revised in the comparability in exists to promote uniformity and comparability in the official statistics of the United Kingdom the official statistics followed are those of the The general principles for loss a classification International Standard Industrial Classification of all Economic Activities of the United Nations Statistical Office but the United Kingdom St reflects the organisation and structure of industry and trade as it exists in the United Kingdom. The SIC is a classification by activit and is not a commodity classification. However, an index of all commodity headings for which sales data are provided in the Quarterly Business Monitors, is published in Business Monitor P01000

Statistical units THE REGISTER The statistical unit for the purpose of the Censume register permits a questionnaire to be sent is the establishment which is defined in the Stiturect to the reporting establishment on which as the smallest unit which can provide the he latter can include information relating to all information normally required for an economic he manufacturing (or local) units which it census, for example, employment, expenses, turn comprises. over, capital formation. Usually the princips the inquiries provide a major source of information activities carried on in an establishment fai be keeping the register continuously up-to-date within a single heading of the classification at as a check on its detail and structure. (e.g. steel making or sugar refining). Typical for the establishments on the register making the establishment embraces all the activitie forms to the quarterly inquiries, the industrial carried on at a single address e.g. a farm, a mid dasification is derived from an analysis of their or a factory, including those which are ancillar bles of commodities and is reviewed annually. to the principal activities. Frequently distinguishing the main dasification provide by the Department of Employ-activities characteristic of different industrie form the annual census of production. In are carried on at one address, but normally the pass where an establishment does not make a return are ont classified separately and the who these inquiries the employment data are based on establishment is classified according to the mainformation provided by the Department of Employ-activities which are conducted as a singuing the densuses of employees are to constitute a separate establishment. Sometim included in the censuses each year and the inform-activities which are conducted as a singuino they supply to the census is supplemented by business are carried on at a number of addresse me returns that those with 25 or more employees where this is so, businesses are asked to provinvide to the quarteriy different. Their activities may, however, integrated to such an extent that they constitute a single establishment. In the latter case t establishment is defined to cover the combin activities at these addresses (termed loo units). Separate figures are obtained employment and net capital expenditure at e unit in order to compile regional tables. Efforts are made by the Business Statistics Offi

to ensure, by negotiating with respondents, the return from an establishment does not con local units or addresses in more than one of countries of the United Kingdom.

Further information about the statistical appeared in an article "The statistical unit business inquiries" in Statistical News No.13 1971.

Establishments are asked to exclude from returns particulars relating to any department engaged in production e.g. merchanting, transpo warehousing, for which they keep a separate set accounts. Transfers of goods produced to s departments are treated as sales and responde are asked to value them as far as possible as sold to an independent purchaser. Where separaccounts are not kept they are asked to incl details of all these activities in their retu Particulars relating to head offices mail engaged in the administration of the product units within the scope of the census included. Where more than one return was made information in respect of the head office apportioned among them.

For certain purposes in the annual censuses

Industrial classification production (especially the enterprise analyses of The United Kingdom Standard Industrial Business Monitor PA1002) related establishments Classification (SIC) was first issued in 1948 and are combined. For these purposes an enterprise was subsequently revised in 1958 and 1968. It group may be defined as a business consisting of exists to promote uniformity and comparability in other a single establishment on the stablishments under common ownership or control. ringing together establishments into enterprise is also necessary for the purpose of aroups answring that there will be no disclosure of the activities of any one enterprise group. Aformation about the relationship of nformation about the relationship of establishments, the changing structure of groups of companies and about common ownership links is obtained from many sources, including the Stock exchange Year Book, company reports, press reports and information supplied by individual establish-ents.

### E REGISTER

ncreasing use has been made of data on these mall establishments supplied by the Department of ployment. One benefit of using this information s an improvement in the estimates of the number of aller establishments and enterprises, but there slittle effect on other aggregates (e.g. employnt, output, net capital expenditure).

#### verade

eturn was required in the 1976 Census from each stablishment with 20 or more employees. Each stablishment is classified to an industry, as ined in the SIC, whose principal products form major part of the establishment's sales.

#### ions

regions defined in Table 5 take account of the <sup>ndary</sup> changes arising out of the Local ernment Act 1972 and the Local Government Act cotland) 1973. These changes came into effect in il 1974 in England and Wales and May 1975 in

## MS USED IN THE CENSUS REPORT

### age number employed

ablishments were required to state the number persons on the payroll on average during the of return, whether full-time or part-time loyees. Separate figures were required for:

(a) administrative, technical and clerical employees

(b) all other employees (operatives)

ages could be calculated from the figures ting to the last week of each calendar month. ablishments were also required to state the not be excluded from the return.

Working proprietors These include all persons regarded as "selfemployed" for national insurance purposes and members of their families who worked in the business without receiving a wage or salary; but such persons who worked less than half the normal number of working hours are excluded. Directors working in the business but not in receipt of a definite wage, salary or commission are included under this heading: directors paid by fee only are not included.

Employees Administrative, technical and clerical employees include directors in receipt of a definite wage, salary or commission, managers, superintendents and works foremen; research and design employees (other than operatives); draughtsmen, editorial staff, advertising staff, travellers and all office employees. Operatives include all other classes of employees, that is, broadly speaking, all manual wage earners. They include operatives employed in power stations, transport (including roundsmen), warehouses, stores, shops and canteens, inspectors, maintenance workers and cleaners. Operatives engaged in outside work of erecting, fitting etc. are also included, but outworkers are excluded.

Capital expenditure Capital expenditure during the year in respect of manufacturing units where production had not started before the end of the year is included. Establishments were asked not to deduct from the value of capital expenditure amounts received or expected to be received in grants or allowances from the Government or any statutory body or local authority. Establishments with 100 or more employees were asked to include a total net capital expenditure figure for each calendar year.

(a) New building work This represents the cost incurred during the year of new building and other constructional work to be used in connection with the business covered by the return. The value is that charged to capital account during the year of return; it includes expenditure on new buildings and on the extension or reconstruction of old buildings, the value of works of a capital nature carried out by the establishment's own staff and the cost of any newly constructed buildings purchased. Figures shown include legal charges, stamp duties, agents! commissions, etc.

(b) Land and existing buildings The items shown are the capital cost of freeholds purchased and the capital cost or premium payable for leaseholds acquired (excluding the value of assets acquired in taking over an existing business), and the amounts receivable for freeholds or leaseholds disposed of. The value is that charged to capital account during the year of return.

(c) Plant, machinery and vehicles

The items shown are the value of plant and machinery and of vehicles acquired, both new and second-hand, and the amount received for items disposed of during the year. The value of plant and machinery acquired includes plant, etc. which

number of working proprietors where appropriate and these are included in total employment figures. Outworkers (i.e. persons employed by establishments who worked in their own homes etc. on materials supplied by the establishment) are excluded. The figures include persons engaged on merchanting or factoring and canteen workers where particulars in respect of these activities could

firms produced for their own use in connection with the business covered by the return. The value of plant, etc. acquired is the expenditure charged to capital account during the year of return less any discounts received, but including the cost of transport and installation. Deductible value added tax is excluded but non-deductible value added tax on motor cars acquired is included. No deduction is made for depreciation, amortization or obsoles-cence. The proceeds of items disposed of during the year exclude amounts written-off for items scrapped.

#### Cost of industrial services

This includes amounts payable to other firms for work done on materials supplied by the establishpayments for repairs and maintenance (including those in respect of rented buildings) and amounts paid to other firms for contracts which have been sublet. Payments to outworkers are excluded.

### Cost of non-industrial services

This includes rent of industrial and commercial buildings, hire of plant and machinery, commercial insurance premiums, bank charges and amounts paid for professional services, post office services, transport, advertising etc. Amounts payable on royalties for the right to use patents, trademarks, copyrights etc., manufacturing and quarrying rights and technical "know-how" are also included.

#### Gross output

In the calculation of gross output the value of total sales and work done is increased by the rise (or reduced by the fall) during the year in the value of work in progress and goods on hand for sale.

#### Net output

Net output, a customary census measure, is calculated by deducting from gross output the cost of purchases (reduced by the rise, or increased by the fall, during the year of stocks of materials etc.) and the cost of industrial services received. and where applicable, duties etc.

#### Net output per head

The figures of net output per head are derived by dividing the net output by the average number of persons employed (full and part-time) on all activities covered by the returns, including operatives, administrative, technical and clerical employees and working proprietors, but excluding outworkers.

#### Gross value added at factor cost

Gross value added at factor cost is calculated by deducting from net output the cost of nonindustrial services (e.g. rent of buildings, hire of plant and machinery, commercial insurance premiums, bank charges and amounts paid for professional services, post office services, transport and advertising), rates (excluding water rates) and the cost of licensing motor vehicles. This estimate of gross value added approaches more closely than census net output to the definition of net output or value added in national accounts statistics.

#### Gross value added at factor cost per head

The figures of gross value added at factor cost per head are derived by dividing the gross value added by the average number of persons employed (full and part-time) on all activities covered by the returns, including operatives, administrative, technical and clerical employees and working proprietors, but excluding outworkers.

#### Purchases

Purchases include the cost of raw materials,

materials; of replacement parts and consumable tools not charged to capital account; of packaging materials of all types; of stationery and printed materials to be used by the establishment or given materials to be used by the establishment or given materials to other establishments for the production of machinery or other capital items for the estab-lishment's own use; of materials for use by the establishment when working on goods supplied by customers; and of food, etc. for any canteen covered by the establishment's return. Transfers of goods to the establishment from another depart. components, semi-manufactured goods and workshop materials; of replacement parts and consumable of goods to the establishment from another depart. establishment's return are included at a cost recorded by the other department. Amounts payable to transport firms or credited to the firm's cor corresponding to the estimated selling value recorded by the other department. Amounts payable to transport firms or credited to the firm's own transport department for delivery of materials are excluded, as are all purchases of machinery are plant charged to capital account. Purchases of goods for merchanting or factoring have been exclude VAT. They include, in addition to the actual purchase price, the value of packaging material charged to the establishments. The values shown of returned goods or packaging material returned to suppliers and any trade discounts are excluded, the restance of the asta of the process of the right to use patents, trademarks, copyrights The cost of transport is included and their included with the purchase price in the firm's accounts. Imported goods are included at their transport form docks or alroort is not included the firm's full delivered cost. If in the firm's accounts the transport from docks or alroort is ont included the full delivered cost. If in the firm's accounts the transport from docks or alroort is ont included in the cost of goods purchased, the cost is entered the c.i.f. plus duty (if applicable). Leasing, renting and hire purchase charges are excluded.

#### Sales of goods produced

Sales of goods produced Sales for the purposes of the annual censuses means deliveries on sale of goods made by estab-lishments in the United Kingdom covered by the inquiry. Sales of goods made for these estab-lishments by outworkers or by other establishments from materials given out to them and sales of waste products are included. New building work and machinery or other capital items produced by establishments for hiring out or leasing are regarded as sales, the value included in the return being that adopted in the establishments capital asset accounts. Forward sales and canten takings are excluded. All sales in the period of the inquiry are included irrespective of when the goods were manufactured. Goods produced in one establishment and transferred either to ancillar departments not engaged in production for whick Wages and salaries establishment and transferred either to ancillar departments not engaged in production for which there are separate accounts, or to another establishment of the same firm not covered by the operatives and to administrative, technical and return, are treated as sales by the producing clerical employees. Payments to working establishment and valued as far as possible as if proprietors, whether called salaries or not, are they had been sold to an independent purchase. Goods transferred to wholesale or retail selling organisations, for which separate accounts are kept are valued on the same basis. kept are valued on the same basis. The value shown for sales is the "net selling

The value shown for sales is the "net selfing value" defined as the amount (excluding value added tax) charged to customers whether on a ex-works or delivered basis, after any trade discounts and agents' commissions have been deducted. The cost of packing materials less allowance for returnable cases is included. In industries where products attract Excise Duty the value stated is usually inclusion of dety if sold value stated is usually inclusive of duty if sold duty-paid and exclusive of duty if sold in bond of exported.

Work done and industrial services rendered Figures for work done represent the amount charge for work carried out on materials supplied by customer and include repair work. Within certain

(v)

### Stocks and work in progress

The value of redundancy payments less any amounts reimbursed from Government sources is included. The value of any payments in kind, travelling expenses etc. is excluded.

## emuneration paid to outworkers

The remuneration paid to outworkers (i.e. persons employed by the establishment who do their work in their own homes) is generally on a piece-work basis. Only amounts paid to outworkers whose names ppear on the establishment's payroll are included. nounts paid to outworkers by sub-contractors are .bebuloxe

mployers' insurance and welfare contributions his item includes employers! contributions to ational insurance and graduated pensions (and/or Parnings related basic contributions under the included.

(vi)

Social Security Act, 1973) as well as commercial insurance premiums to provide pensions, superannuation or other retirement benefits, sickness benefits, personal accident benefits, disability or death benefits for employees or former employees or their dependants. Contributions to the running costs of canteens, social centres, children's and holiday homes, etc. for employees, former employees and their dependants are also
