# The Report on the Censuses of Production for 1952 and 1953

VOLUME 3 TEXTILES, LEATHER AND CLOTHING: FOOD, DRINK AND TOBACCO

1. The figures in the tables relate to the United Kingdom of Great Britain and Northern Ireland unless otherwise stated.

2. Sampling methods were employed in the censuses for Great Britain (but not Northern Ireland) for 1952 and 1953. The use of sampling methods inevitably means that precise figures cannot be obtained, and that a margin of uncertainty attaches to most of the figures published for individual industries.

3. The figures in this report cannot be regarded as accurate to the last digit shown, though for convenience of presentation most of the values are given to the nearest £ thousand. As the figures have been rounded to the nearest final digit, there may be in some tables apparent slight discrepancies between the sums of the constituent items and the tables shown.

4. The following symbols are used throughout the reports:

5. In interpreting the data in the following tables it is essential to bear in mind not only the qualifications mentioned in this volume, but also the general explanations and qualifications contained in the separate booklet published in this series entitled 'The Report on the Censuses of Production for 1952 and 1953: Introductory Notes', price 1s. 6d. net.

GENERAL NOTES

The figures are not therefore strictly compar-<br>able. It is estimated that the net effect of these changes in<br>classification was to reduce the number of persons shown as employ<br>ed in larger establishments in the trade in 1951 by about 1,350. |

(b) For the years 1950 and 1949 gross output excludes payments for transport services outwards on finished goods sold. For subsequent years gross output includes payments to other firms and undertakings and to firms own separate transport organisations for transport services.

(c) Amounts paid for delivery services are included for the years 1950 and 1949 but excluded for subsequent years. (d) Payments to other firms and undertakings and to firms' own separate transport organisations. For the years

1950 and 1949 payments cover only transport outwards of finished goods sold. For subsequent years they cover payments for transport of both finished goods sold and materials and fuel purchased.

(e) Excluding outworkers.

(f) Excluding outworkers but including working proprietors.

(g) Any capital expenditure on new establishments in Great Britain which had not commenced production in the year is included for 1953, 1952 and 1951.

(h) Small firms in Northern Ireland are included for 1949 only.

(i) The total figures for 1951, 1950 and 1949 include an estimate for firms not making satisfactory returns, and

(i) The values for 1951 also include an estimate for small firms in Northern Ireland.
(j) The values estimated for the individual items of stocks were not considered to be reliable and are therefore omitted: the value of stocks of products on hand for sale, work in progress and materials and fuel is estimated to have been £22,443,000 higher at the end of the year than at the beginning.
(k) In calculating net output in the Woollen and Worsted Trade in 1949 subsidies of £101,000 have been taken into

account.

(1) The values estimated were not considered to be reliable and are therefore omitted; the value of stocks of products on hand for sale and work in progress is estimated to have been £22,000 lower at the end of the year

than at the beginning. (m) Establishments in the Tailoring, Dressmaking, etc., Trade in Great Britain mainly engaged in retail bespoke tailoring and dressmaking, and the workrooms of retail shops engaged in altering garments for sale were covered by the Census of Distribution for 1950 and excluded from the Census of Production. The figures for 1950 are, therefore, not comparable with those for other years.

(n) In calculating the cost of materials and fuel purchased and the value of net output in the Grain Milling Trade, rebates and allowances received from the Ministry of Food in respect of price differences have been taken into account as follows:

| 1953   | 1952   | 1951   | 1950   | 1949   |
|--------|--------|--------|--------|--------|
| £'000  | £'000  | £'000  | £'000  | £'000  |
| 11.002 | 49,694 | 74,689 | 64,733 | 76,732 |

(o) Comparable information for the Bread and Flour Confectionery, Wholesale Bottling, Tea Blending and Coffee Roasting, Fish Curing, Cattle, Dog and Poultry Foods and Milk Products Trades was not collected in 1950.

and no allowance for these trades has been included in the Order totals for that year. (p) In calculating net output, subsidies, rebates, amounts payable to the Ministry of Food and Customs and Excise duties, drawback and allowances have been taken into account as follows:
