USE *OUR* STATISTICS TO HELP *YOUR* BUSINESS

The tables in this Summary Volume reflect a range of data available from the Census of Production. However, a large amount of information is collected in the Census and further data may be available. If you feel that the published data could usefully be extended (and would be of interest to a wide audience), or if you have any other suggestions for promoting the availability of Census data we would like to hear from you. Comments, preferably in writing, should be addressed to:-

EXPLANATORY NOTES AND DEFINITIONS**INTRODUCTION**

1. These notes give basic information to help with the interpretation of tables in this Summary Volume. More general information about the Census is given in a separate Business Monitor — Report on the Census of Production, Introductory Notes (PA1001).
2. Since 1980, Censuses have been conducted on the Standard Industrial Classification Revised 1980 (SIC(80)). The Standard Industrial Classification exists to promote uniformity and comparability in the official statistics of the United Kingdom. The SIC(80) is the result of an attempt to align the United Kingdom classification with the General Industrial Classification of Economic Activities within the European Communities (NACE). It is based on activity rather than commodities produced. A full description of SIC(80) is given in Standard Industrial Classification Revised 1980, obtainable from Her Majesty's Stationery Office, price £3.95. Figures for 'All manufacturing industries' on the 1968 classification can be calculated by adding information for Activity Headings 1115, 1200, 1401, 1402 and 1520 to, and deducting information for Activity Headings 2100, 2310, 2330 and 2396 from, information for Divisions 2 to 4 of SIC(80).

REPORTING UNIT

3. From the earliest censuses of production until that for 1986 the reporting unit to the census was the establishment. This was defined as the smallest unit which could provide the full range of data required for an economic census. Establishments were asked, where possible, to exclude from their returns to the census any non-production activity.
4. In 1987, for a number of administrative and statistical reasons, a new system of company based reporting was introduced. Under the new system the reporting unit to the census is, generally, the company, but there are some exceptions. These arise, for example, for large mixed activity companies which are asked to make separate returns to the census for each of their production activities on an establishment basis. Throughout this monitor this mixture of reporting units are referred to as "businesses". These businesses are no longer asked to exclude non-production activities.
5. In practice, since most businesses, both before and after the change, reported for the company as a whole, little difference to the main economic series has resulted from the change.
6. For most businesses the returned data are appropriate to a single activity heading of SIC(80) and fall within a single geographical region. Where information covers a mixture of activities, the business is classified according to the main activity. Where the business operates at a number of different addresses then, in order to enable regional data to be compiled, separate information on employment and capital expenditure is sought for each address.
7. For certain tables in the Summary Volume, related establishments are combined to enterprise level. An enterprise is defined as one or more businesses under common ownership or control. Information about relationships between businesses, the changing structure of groups of businesses and common ownership links is obtained from various, mainly published, sources.

THE REGISTER

8. A register of businesses throughout the United Kingdom is held on the BSO computer and provides the basis for BSO inquiries to the production sector. For each business the register contains identification particulars and information about its eligibility for inclusion in an inquiry, its relationship with other businesses in common ownership, its industrial classification, the nationality of its parent and location indicators for regional analyses. Regional and size analyses of manufacturing units are published in Business Monitor PA1003 — Size analyses of United Kingdom businesses. During 1984, for production inquiries, the BSO moved to an updated register which makes fuller use of information obtained from HM Customs and Excise VAT records.
9. The Annual Census and other inquiries provide a major source of information for updating and checking the register. For businesses on the register making returns to the Quarterly Sales Inquiry, industrial classification is reviewed annually and is derived from an analysis of their commodity sales. Employment data are provided by the Quarterly Sales Inquiry and the Census of Production. Where businesses on the register do not make returns to these inquiries, employment is based mainly on information provided by the Department of Employment from Censuses of Employment. New additions to the register are obtained from various sources including HM Customs and Excise VAT records and Censuses of Employment.
10. The register for construction units is created each year from the Department of the Environment's Builders' Address File of private sector undertakings in Great Britain engaged in construction activities. To this are added undertakings in the public sector (usually the direct labour departments of local authorities) and undertakings in Northern Ireland.

COVERAGE

11. The Census covers United Kingdom businesses engaged in industrial production, i.e. mining and quarrying, manufacturing, construction, and gas, electricity and water supply industries (Divisions 1 to 5 of SIC(80)). Businesses in the Channel Islands and the Isle of Man are excluded.

12. Under the sampling arrangements agreed for the 1987 Census, forms were despatched to all businesses with 100 or more employed with, for most production industries, samples of 1 in 4 and 1 in 2 respectively being taken for businesses in the 20 to 49 and 50 to 99 employment size bands. It was necessary to increase the sample in those industries where there were few businesses in the sample size band or where response in earlier years was poor. In the construction industries forms were despatched to all undertakings with 50 or more and to a 1 in 2 sample of undertakings with 20 to 49 employed. The sampling scheme is reviewed each year in the light of experience in the previous year's Census.

PERIOD COVERED

13. Businesses were asked to make returns for the calendar year 1987 but, where this was not possible, returns for business years ending between 6 April 1987 and 5 April 1988 were accepted. Returns covering fewer than twelve months were accepted for businesses which had started or ceased trading during the year.

ESTIMATION

14. All published Census results include estimates for non-responders, unsatisfactory returns and businesses not selected for the Census. Estimates are also made for items not covered on the shorter form sent to smaller businesses.

15. Within employment size groups in each industry, the "average per head" is calculated for each census variable by dividing the total returned value for each variable by the total returned employment. This value is multiplied by the employment thought to exist in each non-responding or unselected business to yield an estimated value for that business. Estimates for items not collected on the shorter form are made in a similar way using returned employment.

16. The accuracy of the totals produced by adding together estimates and returned data is mainly dependent on two measures. The first of these is the extent to which businesses making satisfactory returns account for the overall total for any heading. In practice a measure of this is normally taken to be the employment of businesses making satisfactory returns expressed as a percentage of the total estimated employment (this is given in footnote (a) to Table 1 in each Industry Report). Thus the accuracy of data published in an Industry Report where 95 per cent of the employment in the industry is covered by returns made, will, in general, be better than that in a Industry Report where the coverage is only 70 per cent.

17. The second measure is the extent to which individual headings in an Industry Report are related to employment. Thus an estimate of total earnings which bears a close relationship to total employment is likely to be more accurate than an estimate of capital expenditure where the relationship to employment is not so clearly marked.

SUPPRESSION OF INFORMATION RELATING TO INDIVIDUAL UNDERTAKINGS

18. Sub-section 9(5)(b) of the Statistics of Trade Act 1947 states that:—

"The following provisions shall have effect with respect to any report, summary or other communication to the public of information obtained under the foregoing provisions of this Act—

in compiling any such report, summary or communication the competent authority shall so arrange it as to prevent any particulars published therein from being identified as being particulars relating to any individual person or undertaking except with the previous consent in writing of that person or the person carrying on that undertaking, as the case may be; but this provision shall not prevent the disclosure of the total quantity or value of any articles produced, sold or delivered; so, however, that before disclosing any such total the competent authority shall have regard to any representations made to them by any person who alleges that the disclosure thereof would enable particulars relating to him or to an undertaking carried on by him to be deduced from the total disclosed."

19. Figures which would be likely to disclose particulars relating to an individual undertaking are not published unless the contributor has given written consent for their publication.

CHANGES MADE FOR 1987

20. The 1987 Census, like that for 1986, was a slimline one. The questions relating to computers, included in the 1986 Census, were discontinued.

SYMBOLS USED

21. The following symbols are used throughout the PA series of Business Monitors:

- .. not available
- nil or less than half the final digit shown
- * information suppressed to avoid disclosure
- R revised

ROUNDING OF FIGURES

22. Figures in the tables have been rounded to the nearest final digit where necessary and, in these instances, the sum of the constituent items may not always agree exactly with the total shown.

EXPLANATION OF TERMS USED IN THE CENSUS REPORT

23. The notes and definitions given in this section are based on the instructions given to respondents as to the way in which returns were to be completed.

CAPITAL EXPENDITURE

24. This represents the value charged to capital account together with any other amounts which ranked as capital items for taxation purposes during the year to which each return related. The value is inclusive of any amounts received or expected to be received in grants and/or allowances from government sources, statutory bodies or local authorities. Where expenditure is spread over more than one Census year, payments are included in the years in which they were made. Capital expenditure during the year in respect of production units where production had not started before the end of the year and the value of CAPITAL GOODS PRODUCED FOR USE WITHIN THE BUSINESS by its own staff are included. The value of any assets acquired in taking over an existing business are excluded. The figures include non-deductible VAT but exclude deductible VAT. No allowance is made for depreciation, amortisation or obsolescence.

a. on LAND AND EXISTING BUILDINGS

25. This represents the value of freeholds and the value or premium payable or receivable for leaseholds acquired or disposed of. The figures for acquisitions include architects' and surveyors' fees, legal fees, stamp duties, agents' commissions and Land Registry fees. The figures for disposals are net of any such professional fees payable.

b. on NEW BUILDING WORK

26. This represents the value of new building and other constructional work such as the extension and reconstruction of old buildings, and the value of any newly constructed buildings acquired. The figures include architects' and surveyors' fees, legal fees, stamp duties, agents' commissions and Land Registry fees.

c. on PLANT AND MACHINERY, VEHICLES

27. This represents the value of new and second-hand plant and machinery and vehicles acquired or disposed of. The figures for acquisitions are net of any discounts received but include the cost of transport and installation and Customs and Excise car tax. The figures for disposals exclude amounts written off for capital assets which are scrapped.

CAPITAL GOODS PRODUCED FOR USE WITHIN THE BUSINESS

28. This represents the value of all work of a capital nature carried out during the year by the staff of, and for use in, the businesses covered by the returns.

COST OF INDUSTRIAL SERVICES RECEIVED

29. This includes amounts payable to other organisations for work done on materials supplied by the business completing the return, for repairs and maintenance including those in respect of rented buildings, and for contracts which have been sublet. Direct payments to outworkers and amounts charged to capital account are excluded.

COST OF NON-INDUSTRIAL SERVICES RECEIVED

30. This includes commercial insurance premiums, bank charges and amounts payable to other organisations for the hire of vehicles, plant and machinery, for the rent of industrial and commercial buildings, for the services of accountants, auditors, agents, solicitors and surveyors other than in connection with the acquisition or disposal of capital assets, for postal and telecommunications services, for carriage by all forms of transport within the United Kingdom, for advertising, market research etc., for the right to use patents, trade marks, copyrights etc., for manufacturing and quarrying rights and technical know-how. Interest payments and amounts payable for sea and air freight on goods exported and materials and fuel imported are excluded.

EMPLOYERS' NATIONAL INSURANCE CONTRIBUTIONS ETC.

31. This includes employers' national insurance contributions under the Social Security Pensions Act 1975, commercial insurance premiums for policies providing pensions, superannuation or other retirement benefits, sickness benefits, personal accident benefits, disability benefits or death benefits for employees, former employees or their dependants. Also included are contributions to canteens, social centres, children's and holiday homes etc. and the cost of supplying luncheon vouchers.

EMPLOYMENT

32. This is the average number of ADMINISTRATIVE, TECHNICAL AND CLERICAL EMPLOYEES and OPERATIVES on the payroll and the number of WORKING PROPRIETORS employed during the year of return. Full-time and part-time employees are included but outworkers (i.e. people who worked in their own homes on materials supplied by the business) and casual employees such as jobbers are excluded. The average number of employees returned by individual businesses may have been calculated by, for example, the average of the number of employees on the payroll for the last week of each calendar month.

a. ADMINISTRATIVE, TECHNICAL AND CLERICAL EMPLOYEES

33. This includes directors who received a definite wage, salary or commission, managers, foremen, draughtsmen, editorial and advertising staff, travellers, all office employees and research and design employees except operatives.

b. OPERATIVES

34. This includes all manual wage earners including operatives in power stations, operatives engaged in outside work of erecting, fitting etc., inspectors, maintenance workers and cleaners. Staff engaged in transport (including roundsmen) and employed in warehouses, stores, shops and canteens are included.

c. WORKING PROPRIETORS

35. These are people who are regarded as self-employed for national insurance purposes, members of their families who worked in the business without receiving a definite wage or salary for at least half the normal working hours and directors who worked in the business but did not receive a definite wage, salary or commission. Part-time directors paid by fee only and directors who received a definite wage, salary or commission are excluded.

GROSS OUTPUT

36. This is calculated by adjusting the value of TOTAL SALES AND WORK DONE by the change during the year of WORK IN PROGRESS and GOODS ON HAND FOR SALE.

GROSS VALUE ADDED AT FACTOR COST

37. This is calculated by deducting from NET OUTPUT the COST OF NON-INDUSTRIAL SERVICES RECEIVED, RATES and the cost of LICENSING OF MOTOR VEHICLES. This estimate of gross value added approaches more closely than NET OUTPUT the definition of net output or value added in national accounts statistics.

GROSS VALUE ADDED AT FACTOR COST PER HEAD

38. This is calculated by dividing GROSS VALUE ADDED AT FACTOR COST by total EMPLOYMENT.

NET CAPITAL EXPENDITURE

39. This is calculated by adding to the value of NEW BUILDING WORK acquisitions less disposals of LAND AND EXISTING BUILDINGS, VEHICLES and PLANT AND MACHINERY.

NET OUTPUT

40. This is calculated by deducting from GROSS OUTPUT the cost of PURCHASES OF MATERIALS FOR USE IN PRODUCTION AND PACKAGING AND FUEL and PURCHASES OF GOODS FOR MERCHANTING OR FACTORING, the COST OF INDUSTRIAL SERVICES RECEIVED and is adjusted for net duties and levies etc. where applicable. Purchases are adjusted for changes during the year of STOCKS OF MATERIALS, STORES AND FUEL.

NET OUTPUT PER HEAD

41. This is calculated by dividing NET OUTPUT by total EMPLOYMENT.

NON-INDUSTRIAL SERVICES RENDERED

42. This includes amounts charged for the hire of vehicles, plant and machinery, for the rent of industrial and commercial buildings, for the right to use patents, trade marks, copyrights etc., for manufacturing and quarrying rights, for technical know-how and for the provision of transport to other organisations. It also includes revenue from staff facilities such as canteens.

OPERATING RATIOS

43. These ratios are calculated using industry totals, i.e. including the estimates for businesses not responding to or not selected for the Census. Respondents are able to compare the ratios for their own businesses with those for the industry as a whole.

**PURCHASES OF MATERIALS FOR USE IN PRODUCTION, AND PACKAGING AND FUEL.
PURCHASES OF GOODS FOR MERCHANTING OR FACTORING**

44. These include the cost of raw materials, components, semi-manufactured goods and workshop materials, replacement parts and consumable tools not charged to capital account, packaging materials of all types, stationery and printed matter, fuel, electricity and water, materials of all types used by the businesses or given out to others, for the production of machinery or other capital items used in the business, and materials used when working on goods supplied by customers. The figures exclude VAT, purchases of machinery and plant, which are included in CAPITAL EXPENDITURE, and amounts payable to transport firms or credited to the business's own transport departments for delivery of materials. The figures are net of the value of goods or packaging materials returned to suppliers and trade discounts receivable. Materials purchased duty-paid are included at their duty-paid value less drawbacks, rebates etc. Imported goods are included at their full delivered cost. If the transport from docks or airport of imported goods is not included in the cost of goods purchased, the cost is entered at cif plus duty, if applicable. Transfers of goods from other departments of the business not covered by the return are included at the estimated selling value recorded by the other departments.

REMUNERATION PAID TO OUTWORKERS

45. This represents amounts paid to outworkers, i.e. people who do work in their own homes generally on a piece-work basis, whose names appear on the payroll. Amounts paid to outworkers by subcontractors are included in the COST OF INDUSTRIAL SERVICES RECEIVED. Estimates are not made for remuneration of outworkers for businesses not completing Census returns.

SALES OF GOODS PRODUCED

46. This represents sales of goods during the year, irrespective of whether or not they were produced in the year of the return. It also includes sales of goods made from materials given out to other firms or to outworkers and sales of waste products and residues. The value of sales is the 'net selling value', i.e. the amount charged to customers whether valued 'ex-works' or 'delivered' less VAT, trade discounts, agents' commissions etc. and allowances on returned goods. Where products attract Excise duty, the value includes duty if the goods are sold duty-paid, but excludes it if they are sold in bond or exported. The cost of packaging materials less allowances for returnable containers is included. Sales of fixed assets and exceptional receipts are excluded. Transfers of goods produced by a business to departments not covered by the return (including other businesses in the same enterprise group) are treated as sales, valued as if sold to an independent purchaser.

STOCKS

47. This represents the value of goods on hand for sale, including goods for merchanting or factoring and of materials, stores and fuel held by businesses, whether held in the United Kingdom or abroad. Values include any duty payable but exclude VAT.

WAGES AND SALARIES

48. This represents amounts paid during the year to ADMINISTRATIVE, TECHNICAL AND CLERICAL EMPLOYEES and to OPERATIVES. All overtime payments, bonuses, commissions, holiday pay and redundancy payments less any amounts reimbursed for this purpose from government sources are included. No deduction is made for income tax or employees' national insurance contributions etc. Payments to WORKING PROPRIETORS, payments in kind, travelling expenses, lodging allowances etc. and EMPLOYERS' NATIONAL INSURANCE CONTRIBUTIONS ETC. are excluded.

WORK DONE AND INDUSTRIAL SERVICES RENDERED

49. This includes amounts charged for work carried out including that done by sub-contractors on customers' materials including amounts charged for materials supplied in the course of such work. Industrial services such as repairs and maintenance, installation work and technical research and studies rendered to other organisations are also included. For certain industries this heading covers a wide variety of activities, for example, butter packed on commission in the food industries, making up of garments, fur dressing and textile finishing in the textile industries, and preparatory work on typesetting, block making and binding in the printing and publishing industries. Work done is an important part of the activities of the electrical machinery and heavy engineering industries, and includes erection, installation and repair and jobbing work.

WORK IN PROGRESS

50. This represents materials which have been partially processed and are awaiting further processing before being sold or transferred. Progress payments made to sub-contractors are excluded and progress payments received from other organisations are not deducted.

GROUP 130 EXTRACTION OF MINERAL OIL AND NATURAL GAS

51. Most of the information published for Group 130 is provided by the Department of Energy, derived from data collected by the Business Statistics Office from contractors and holders of petroleum exploration and production licences in quarterly inquiries conducted under the Statistics of Trade Act 1947. Additional information is collected by the Department of Energy from holders of seaward and landward licences in an administrative inquiry conducted under the Petroleum and Submarine Pipelines Act 1975.

STANDARD REGIONS

52. The list below gives the definitions of the standard regions used in tables in the Summary Volume. Metropolitan counties are marked by an *.

South East

Greater London, Bedfordshire, Berkshire, Buckinghamshire, East Sussex, Essex, Hampshire, Hertfordshire, Isle of Wight, Kent, Oxfordshire, Surrey, West Sussex.

East Anglia

Cambridgeshire, Norfolk, Suffolk.

South West

Avon, Cornwall, Devon, Dorset, Gloucestershire, Somerset, Wiltshire.

West Midlands

West Midlands*, Hereford and Worcester, Shropshire, Staffordshire, Warwickshire.

East Midlands

Derbyshire, Leicestershire, Lincolnshire, Northamptonshire, Nottinghamshire.

Yorkshire and Humberside

South Yorkshire*, West Yorkshire*, Humberside, North Yorkshire.

North West

Greater Manchester*, Merseyside*, Cheshire, Lancashire.

North

Tyne and Wear*, Cleveland, Cumbria, Durham, Northumberland.

Wales

Clwyd, Dyfed, Gwent, Gwynedd, Mid Glamorgan, Powys, South Glamorgan, West Glamorgan.

Scotland

Borders, Central, Dumfries and Galloway, Fife, Grampian, Highland, Lothian, Strathclyde, Tayside, and the Orkney Islands, Shetland Islands and the Western Isles.

Northern Ireland

Antrim, Armagh, Belfast CB, Down, Fermanagh, Londonderry, Londonderry CB, Tyrone.

ASSISTED AREAS

53. Assisted areas are areas for which government grants and other help are available. There are two classes of assisted areas: development and intermediate.

BUSINESS MONITORS MAKING UP THE COMPLETE CENSUS REPORT

The following is the list of Business Monitors making up the complete census report.

Shown alongside each title, where appropriate, is an indication of the change in the estimated employment in that industry that has arisen, between 1983 and 1984, from the introduction of a new, more up to date, register of businesses. The change shown reflects the increase or decrease between the old and new registers at a fixed point in time and does not in itself give any indication of the growth or contraction within any industry between 1983 and 1984. Over all manufacturing industry there was an increase between the two registers of 1.3%. Changes for individual industries have arisen not only from the addition of extra, mainly small, businesses but also from the reclassification of some small businesses from one industry to another.

Since estimates of census variables, based on register employment, are made for small businesses which are not required to complete census forms, the change will affect much of the data contained in the reports. This should be taken into account in interpreting the figures.

- (a) The count of enterprises shown in each row represents the number of enterprises owning the businesses in the Group. Because an enterprise may own businesses in more than one Group, the sum of the enterprise counts for all Groups within a Class and all Classes within a Division may exceed the enterprise count at the higher level.
- (b) For this table only, motor vehicle licences and rates have been included in the cost of non-industrial services. More detailed figures are provided in Table 3.
- (c) Figures for Group 130 - Extraction of mineral oil and natural gas - are excluded.
- (d) Figures for the number of undertakings engaged in Group 130 - Extraction of mineral oil and gas - and Group 162 - Public gas supply - are excluded.
- (e) For Class 50 - Construction - figures for the cost of industrial and non-industrial services are generally not available separately and with the exception of 1984 are shown combined.
- (f) Licensed small mines, estimated to account for less than 1% of output, are excluded throughout.
- (g) Figures for Activity Heading 1114 - Opencast coal working - are excluded throughout. See Table 11.
- (h) This is the number of colliery units for administrative and accounting purposes which are in active production. Units can comprise more than one mine.

(j) Excise payments, duties, levies, etc. paid net of amounts received are included.

(k) Sales are valued at ex-quarry, ex-mine or ex-works prices.

(l) The cost of outward transport on goods sold is included.

(m) Figures for 1984 exclude estimates for establishments employing fewer than 20 persons for:-

i. Capital goods produced by establishment's own staff for use in the businesses covered by the returns, and new buildings constructed (total sales and work done).

ii. Change in year in goods on hand for sale (gross output).

iii. Motor vehicle licences, rates, change in year in stocks of materials, stores and fuel (gross value added at factor cost).

(n) All manufacturing industries SIC (Revised 1968) is calculated as follows:-

Divisions 2-4 plus Activity Headings 1115, 1200, 1401, 1402 and 1520, less 2100, 2310, 2330 and 2396.

(a) Figures for Group 130 - Extraction of mineral oil and natural gas - are excluded.

(b) Figures for Activity Heading 1114 - Opencast coal working - are excluded throughout. See Table 11.

(c) Figures for wages and salaries in the Construction industry are not available separately. Figures shown under wages and salaries - operatives - are for total wages and salaries and with the exception of 1984 include the cost of employer's national insurance contributions.

(a) Figures for Group 130 - Extraction of mineral oil and natural gas - are excluded.

(b) Figures for Activity Heading 1114 - Opencast coal working - are excluded throughout. See Table 11.

(c) Figures for rates, excluding water rates, are included with figures for rents, hire of plant, machinery and vehicles.

(d) All manufacturing industries SIC (Revised 1968) is calculated as follows:-

Divisions 2-4 plus Activity Headings 1115, 1200, 1401, 1402 and 1520, less 2100, 2310, 2330 and 2396.

(a) The index of specialisation for an industry is obtained by expressing the sales of principal products of that industry, produced by businesses classified to that industry, as a percentage of the total sales of those businesses. The indices are based on data collected in the Quarterly Inquiries into Manufacturers' Sales, the results of which are published in the PQ series of Business Monitors.

(b) This information refers to AH 4213 - Ice cream - only.

(a) Where a business covered addresses in more than one region, estimates of the wages and salaries, net output and gross value added attributable to each address were made based on employment at each address. Information on employment and net capital expenditure was collected for each address. Figures for each variable for each region were obtained by adding estimates for addresses located in each region.

- (a) Figures for 1984 exclude estimates for establishments employing fewer than 20 persons for:-
- i. Capital goods produced by establishment's own staff for use in the businesses covered by the returns, and new buildings constructed (total sales and work done).
 - ii. Change in year in goods on hand for sale (gross output).
 - iii. Motor vehicle licences, rates, change in year in stocks of materials, stores and fuel (gross value added at factor cost).

- (a) The count of enterprises shown in each row represents the number of enterprises owning the businesses in the Group. Because an enterprise may own businesses in more than one Group, the sum of the enterprise counts for all Groups within a Class and all Classes within a Division may exceed the enterprise count at the higher level.
- (b) Businesses employing fewer than 20 persons are not required to complete Census returns. Because of this, data for these businesses should be regarded merely as the best estimates available and used with caution.
- (c) Gross value added data for size group 1-99 is included in the following size group.
- (d) Figures for Group 130 - Extraction of mineral oil and natural gas - are excluded.

(a) Foreign enterprises are defined as those controlled by companies incorporated overseas. Where a business covered addresses in more than one region, estimates of the net output and gross value added attributable to each address were made based on employment at each address. Information on employment and net capital expenditure was collected for each address. Figures for each variable for each region were obtained by adding estimates for addresses located in each region.
