## Business Monitor

## Report on the <br> Census of Production

BRITISH LIBRAR
18 OF POLITICAL A ECONOMIC SCIEI

HMSO

Special Note for Purchasers
Commencing with the 1971 Census, the Census of Production reports are being numbered in a uniform series embracing all industrial inquiries in the Busines Monitor series. These Business Monitors have a code P (for production) followed first by A (indicating that it is an annual series) or O (quarterly) or M (monthly) and then by a number indicating the minimum list heading, or sub-division of a minimum list heading, of the Standard Industrial Classification (revised 1968)

The Census of Production (PA) reports are available on standing order (details on application to Her
on standing order (details on application to Her
Majesty's Stationery Office, P.O. Box 569, Lond SE1 9NH. Telephone 01-928 6977), although they are not included in the global subscription arrangements
for the Business Monitor series.
Government Statistical Service
A service of statistical information and advice is provided to the Government by specialist staffs employed in the statistics division of individual
Departsments. Statistics are made generally available dvice concerned.

399 at end June, 1976. In the 1976 Census of Production the employment of the Drop Forgings etc. industry represented 8 per 399 at end June, 1976. In the 1976 Census of Production the em-
cent of the employment of minimum list heading 399 as a whole.

These notes glve the main information needed for
interpreting the figures in the Industry Business interpreting the tigures in the Industry Business Monitors: more detalled information about the PA1001 (Introductory Notes) of the Report on the Cent
general information
Changes made for 1976
The Census for 1976 is in line with similar
inquir les beling conducted nquiries being conducted in other member countries small number of changes in the scope of the
Industry reports compared with 1975. These include Industry reports compare
separate headings for:
Sales of goods produced
Recelpts for work done and industrial services endered
Amounts pald for hire of plant and machinery
Amounts pald for rent of industrial and Amounts pald for
commercial buildings
Specific changes are explained in the introductions
to the industry reports or by footnotes to to the industry reports or by footnotes to the
tables.

Suppression of information relating to individual undertakings (b) of the Statistics of Trade Act 1947 Section $9(5)$ (b) of the Statistics of Trade Act 1947
states - "The following provisions shall have effect with respect to any report, summary or other communication to the public of information obtained
under the foregoing provisions of this Act in the foregoing provisions of this Act -
in complling any such report, summary or communication the competent authority shall so
arrange it as to prevent any particulars arrange it as to prevent any particulars
published therein from being identified as being particulars relating to any individual person or ndertaking except with the previous consent in writing of that person or the person carrying on provision shall not prevent the disclosure of the total quantity or value of any articles produced,
sold or delivered; so, however, that before sold or delivered; so, however, that before disclosing any such total the competent authority
shall have regard to any representations made to them by any person who alleges that the disclosure thereof would enable particulars relating to him or to an undertaking carried on
be deduced from the total disclosed."
If a figure involved disclosure the contributor
concerned was sometimes asked to give permission concerned was sometimes asked to give permission
for its publication. In the majority of case for its publication. In the majority of cases
permission was given. When it was refused and where contributors were not approached the figure has been suppressed, either by combining it with
other figures, or as in the regional tables, by other flgures, or as in the
omitting the figure altogether.

Symbols used
The following symbols are used throughout the PA eries of Business Monitors:

* nll or less than half the final digit shown
figures cannot be shown owing to the risk of prises
revised
Rounding of figures
Rounding of flgures
FIgures in the tables have, where necessary, been rounded to the nearest final digit. Where fl gures have been so rounded, the sum of the constituent tems may not always agree exactly with the total

Industrial classification
The United Kingdom Standard Industri
Classification (SIC) was first Issued in 1948 was subsequently revised in 1958 and 1968 .
exists to promote uniformity exists to promote uniformity and comparability
the official statistics of the United King The general principles followed are those of the International Standard Industrial Classification of all Economic Activities of the United Natlons reflects the organisation and structure industry and trade as it exists in the Unit Kingdom. The SIC is a classification by activity
and is not a commodity classification. However an index of all commodity headings for whis sales data are provided in the Quarterly Busines
Monitors, is published in Business Monltor PQ1000 Statistical unit
The statistical unit for the purpose of the Census is the estabilishment which is detined in the sic as the smallest unit which can provide to census, for example, employment, expenses, turn-
over, capltal formation Usual over, capital formation. Usually the principa
activities carried on in an activities carried on in an establishment (e.g. steel making or sugar refining). Typically
the establishment embraces all the activitios the establishment embraces all the activitles
carried on at a single address e.g. a farm, a mine carried on at a single address e.g. a farm, a mine
or a factory, including those which are anclilary
to the pincilal activitles. or a factory, incipal activities. Frequently distinct
to the princtict
activitles characteristic oo different industris activities characteristic of different industries
are carried on at one address, but normally these are carried on at one address, but normally these
are not classifled separately and the whole establishment is classiffied according to the maln can be provided for each actlvity, each is taken to constitute a separate establishment. Sometimes activities which are conducted as a single
business are carried on at a number of addresses. business are carried on at a number of addresses.
Where this is so, businesses are asked to provide the full range of separate information in respect of each address; whether or not the activities different. Their activities may, however, integrated to such an extent that they constitut
a single establishment. In the latter case t a single establishment. in the latter case
establishment is defined to cover the combin activities at these addresses (termed loca units). Separate flgures are obtained
employment and net capital expenditure at act employment and net capital expendlure at
unit in order to complie regional tables. Efforts are made by the Business Statistics Office to ensure, by negotlating with respondents, that
the return from an establlishment does not cover the return from an establishment does not cover
local units or addresses in more than one of the countries of the United Kingdom.
Further information about the statistical un Further information about the statistical un
appeared in an article "The statistical unit appeared in an article "The statistical unit
business inquiries" in Statistical News No. 13 Mar 1971.

Establishments are asked to exclude from the returns particulars relating to any department in
engaged in production e.g. merchanting, transpor engaged in production e.g. merchanting, transpor
warehousing, for which they keep a separate set accounts. Transfers of goods produced to su departments are treated as sales and respondent are asked to value them as far as possible as
sold to an Independent purchaser. Where separa accounts are not kept they are asked to Include detalls of all these activities in their return.

For certain purposes in
production (especlally the enterprise analyses of
panitor PA1002) related establishment buse combined. For these purposes an enterprise group may be defined as a business consisting of either a single establishment or two or more
establishments under common ownership or control. Bringing together establishments into enterprise groups is also necessary for the purpose of
ensuring that there will be no disclosure of the ensuring that there will be no disclosure of the
 establishments, the changing structure of groups
of companies and about common ownership links is of companies and about common ownership inks is
obtained from many sources, including the stock Exchange Year Book, company reports, press reports
and information supplied by Individual establish-

THE REGISTER
The register permits a questionnaire to be sent direct to the reporting establishment on which latter can include information relating to all
manufacturing (or local) units ises.
Inquirles provide a major source of information
keeping the register continuously act as a check on its detall and up-to-dat act as a check on the detall and structure
the establishments on the register making returns to the quarterly inquiries, the industrial classification is derived from an analysis of their
sales of commodities and is reviewed annually. sales of commodities and is reviewed annually
Employment data are entered on the register from returns to the annual census of production. In
cases where an establlishment does not make a return to these Inquiries the employment data are based on information provided by the Department of Employ Establ ishments with 20 or more employees are lncluded in the censuses each year and the inform-
ation they supply to the census is supplemented by the returns that those with 25 or more emp loyees provide to the quarterly inquiries. information
about establishments with fewer than 20 employees
ans in most industries is less securely ${ }^{20}$ employeyees
in but
in thed Increasing use has been made of data on these Smal I establ Ishments surpl led by the Department of
Employment. One beneflit of using this information is an improvement in the estimates of the number of smaller establishments and enterprises, but there is little effect on other aggregates (e.g. employ-
overage
A roturn was required in the 1976 Census from each ostablishment with 20 or more employees. Each
ostablishment is classified to an industry, establishment is classified to an industry, as
defined in the SIC, whose principal products form the major part of the estabilishment's sales.
Regions
The regions defined in Table 5 take account of the
boundary changes arising out of the Local
Government Act 1972 and the Local Government Act overnment Act 1972 and the Local Government Act
(Scotland) 1973. These changes came into effect in (Scotland) 1973. These changes came in to effect in
April 1974 in England and Wales and May 1975 in cotland.
TERMS USED IN THE CENSUS REPORT
Average number employed
stablishments were required to state the number persons on the payroll on average during the ear of return, whether full-time or part-time
mployees. Separate flgures were required for:
(a) administrative, technical and clerical
(b) employees
verages could be calculated from the figures elating to the last week of each calendar month.
Establishments were also required to state the
number of working proprletors where approprlate
and these are included in toral and these are included in total emp oyment
figures. Outworkers ( 1. .e. persons employed by tigures. Outworkers ( 1 . $\theta$. persons employed by
establishments who worked in the Ir own homes etc.
on materlals supplied by the establishment) are on materlals supplled by the establishment) are merchanting or factoring and canteen workers wher merchanting or factoring and canteen workers where
particulars in respect of these activities could not be excluded from the return.

Working proprletors
These include all persons regarded as "self-
employed" for employed" for natlonal Insurance purposes and
members of their families who worked in the business without recelving a wage or salary; but
such persons who worked less than half the normal number of working hours are excluded. Directors working in the business but not in receipt of a
definite wage, salary or commission are included definite wage, salary or cormission are included
under this heading: directors paid by fee only are not included.

## Emp loyees Administra

Adclude trative, technical and clerical employees salary or commission, managers, superintendents and works foremen; research and design employees
(other than operatives): draughtsmen, editorlal staff, than operatives); draughtsmen, editorial office employees. Operatives include all other classes of employees,
that is, broadly speaking, all manual wage earners. They include operatives employed in power stations, transport (including roundsmen),
warehouses, stores, shops and canteans,
 Operatives engaged in outside work of erecting,
fitting etc. are also included, but outworkers fitting etc.
are excluded.

Capital expenditure
Capital expenditure during the year in respect of
manufacturing .units where production had not manufacturing . units where production had not
started before the end of the year is included Establishments were asked not to deduct from the value of capital expenditure amounts recelved or expected to be received in grants or allowances
from the Government or any statutory body or authority. Establishments, with 100 or more
matal employes were asked to include a total net
capital expenditure figure for each calendar year. (a) New building work

This represents the cost incurred during the year
of new building and other constructional work to of new bulling and other constructional work to
be used in connection with the business covered by
the return. The value is that charged to capital aco return. The value is that charged to capital expenditure on new bulldings and onn the includes
oxtension or reconstruction of old bullings, the value of
works of a capltal nature carried works of a capital nature carried out by the
ostablishment's own staft and the cost of any
newly constructed buildings purchased. Figures shown include legal charges, stamp duties, agents'
(b) Land and existing buildings
The Items shown are the capital cost of freeholds purchased and the capital cost or premium payable purchased and the caplal cost or premlum payable
for leaseholds acquired (excluding the value of assets acquired in taking over an existing
business), and the amounts recelvable for freebusiness), and the amounts recelvable for freeholds or leaseholds disposed of The The value is
that charged to capital account during the year of that char
return.
(c) Plant, machinery and vehicles
The items shown are the value of plant and machinery and of vehicles acquired, both new and
second-hand, and the amount recelved for items dsposed of during the year. The value of plant
dand machinery acguired includes plant, etc. which
firms produced for their own use in connection with plant, etc. acoulied by the return. The value of capital account during the year of return less any transport and instailation. Deductible value added tax is excluded but non-deductible value added tax
on motor cars acquired is included. No deduction on motor cars acquired is included. No deduction
is made for deprectation, amortization or obsolescence. The proceeds of amortization or obsoles-
the year exclude amounts written-off of during
for tems the year
tcrapped.

Cost of industrial services
This includes amounts payable to other firms for
work done on materials supplied by the establishwork done on materials supplied by the establish-
ment, payments for repairs and maintenance and amounts pald in respect of rented buildings) and amounts pald to other firms for contracts which
have been sublet. Payments to outworkers are
excluded.

Cost of non-industrial services
This includes rent of industrial and commercial
buildings, hire of plant and machinery, buildings, hire of plant and machinery, commercial
Insurance premlums, bank charges and ames Insurance premlums, bank charges and amounts paid
for professional services, post office services, transport, advertising etc. Amounts payable on
royalties for the right to ise royalties for the right to use patents, trademarks,
copyrights etc., manufacturing and quarrying rights copyrights etc., manufacturing and quarrying
and technical "know-how" are also included.
Gross output
In the calculation of gross output the value of (or reduced by work done is increased by the rise
(hall) during the year in the value of work in progress and goods on hand for
sale. Net output
Net output, a customary census measure, is
calculated by deducting from gross output the cost af curchases (reducted by from gross output the cost
of pure, or increased by the fall during the year of stocks of materials etc.) and the cost of industrial services received,
and where applicable, duties etc.

Net output per head
The fligures of net output per head are derived by
dividing the net output by the average number of persons employed (full and part-time) on all activities covered by the returns, including
peratives, administrative, technical and clerical employees, and working proprietors, but excluding
outworkers. outworkers.

Gross value added at factor cost
Gross value added at factor cos
Gross value added at factor cost is calculated by
deducting from net output the deducting from net output the cost of nonof plant and machinery, commercial insurance premlums, bank charger and amounts paid for
professional services, post office services, professional services, post office services,
transport and advertising), rates (excluding water -ates) and the cost of licensing motor vehicles. This estimate of gross value added approaches more closely than census net output to the definition of net output
statistics.
Gross value added at factor cost per head head are derlved by dividing the gross valust per head are derived by dividing the gross value added
by the average number of persons employed (full and part-time) on all activities covered by the returns, including operatives, administrative,
technical and clerical employees and working technical and clerical employees and working
proprietors, but excluding outworkers. Purchases
Purchases Include the cost of raw materials,
components, semi-manufactured goods and workshop
materials; of replacement parts and tools not charged to capital account; of consumab materials of all types; of stationery and print
matter; matter;
materlals to be used by the establishment ofer
out out to other establishments for the productlon machinery or other capltal items for the est IIshment's own use; of materials for use by the establishment when working on goods supplied by covered by the establishment's return. any canteen of goods to the ostablishment from another depars
ment of the same firm not covered by establishment's return are included at by the corresponding to the estimated recorded by the other estimated selling val
to transport firms ont. Amounts payab transport department for dellivery of materlals own excluded, as are all purchases of machinery and plant charged to capital account. Purchases of goods for merchanting or factoring have been col lected separately since 1973. The values shown
exclude VAT. They include, in addition to the actual purchase price, the value of packaglin material charged to the establishment. The value
of returned goods or packaging material return of returned goods or packaging materlal returned
to suppliters and any trade discounts are excluded, Materials purchased duty-pald are included at their duty-paid value, less any drawback, rebate, The cost of transport is included only if
included with the purchase price in the Imported goods are included at their
full delivered cost. If in the firm's accounts full delivered cost. If in the firm's accounts the transport from docks or alrport is not included in
the cost of goods purchased, the cost is entered at the cost of goods purchased, the cost is entered at
c.i.f. plus duty (if applicable). Leasing, renting and hire purchase charges are excluded.
Sales of goods produced
Sales for the purposes of the annual censuses
means deliveries on sale of goods made by estabmeans deliveriles on sale of goods made by estab-
lishments in the United Kingdom covered by the inquiry. Sales of goods made for these estabHshments by outworkers or by other establishments
from materials given out to them and sales of aste products are included. New building wo and machinery or other capital items produced
establishments for hiring out or leasing a egarded as sales, the value included in return being that adopted in the establishments'
capital asset accounts. Forward sales and canten takings are excluded. Al! sales in the period of the inquiry are inclu
goods were manufactured.
irrespective of when
Goods produce stablishment and transferred el ther to ancillary
epartments not engaged in med epartments not engaged in production for which establishment of the same firm, or to another turn, are treated as sales by covered by the establishment and valued as far as the producing
they had been sold to if oods transferred to an independent purchaser. organisations, for wholesale or retall selling kept are valued on which separate accounts are The value shown for sales is the "net selling value" defined as the amount cexcluding value added tax) charged to customers whether on an ex-works or delivered basis, after any trade
discounts and agents' commissions have deducted. The cost of packing materials le allowance for returnable cases is included. industries where products attract Exclise Duty
value stated is usually inclusive of duty if so valye stated is usually inclusive of duty it sol
dutported.

Work done and industrial services rendered
Figures for work done represent the amount charged for work carrled out on materlals supplled by a
customer and include repair work. Within certain

Industries this heading covers a wide varlety of
in activities, for example, within the food sector-
butter packed on commission; within the textlie butter packed on commission; within the textile
industries - making up of garments, fur dressing ind textlie finishing; within printing and pub-
and tining - preparatory work on type-setting block
ilsher lishing - preparatory work on type-setting, block
naking and binding. Work done is also significant naking and
in the electrical machinery and heavy engineering industries, covering erection, installation and
repalr and jobbing work. Other activities within repalr and jobbing work, other activities within
this heading include exploration work, research and this heading include exploration work, research and
development, glass cutting and dressing and planing diev Imber.
of timustr lai Industrlai services rendered include repairs and naintenance, Installation work, and technical
research and studies for other organisations.
Capital goods produced for establishments' own use This includes all work of a caplital nature carried
out during the year by the establishments' own staff for their own use.
Von-Industrial services rendered
This includes rents received for commercial and ut plant, machingery amounts charged for hiring charged to other organisations for the provision of ransport. It also includes amounts recelved for right to use patents, trademarks, copyrights
, manufacturing and quarrying rights and techcal "know-how" and quarrying rights and techfacillities as canteens.
soods merchanted or factored
Merchanted goods are those (excluding canteen
soles) sold without having been subjected to any ranufacturing process by the seller.
stocks and work in progress
values are given of stocks
values are given of stocks of goods on hand for
sale and of materials, stores and fuel, at the end of the of materials, stores and fuel, at the end
of turn and of the change during the year, Including any stocks of goods held for
nerchanting or factoring. Work in progress is perchanting or factoring. Work in progress is
defined as materials which have been partially
processed by the establishment but which are not processed by the establishment but which are not
ussally sold or transferred to another estab-
ishlu usually sold or transferred to another estab-
lishment without further processing. The values include the cost of materials consumed and labour used, together with a margin of overhead costs and
profits. Progress payments made to sub-
 received.
deducted.
lages and salarles
These are amounts paid during the year to operatives amo to administrative, the year to
cechnical and
clerical employees. Payments to working clerlical employees. Payments to working
proprlators, whether called salarlies or not, are gayments, bonuses and commissilude all overtime egularly or not, and no deduction is made for
income tax, insurances, contributory pensions etc ncome tax, insurances, contributory pensions etc.
the value of redundancy payments less any amounts eimbursed from Government sources is included. the value of any payments in kind, travelling
emuneration pald to outworkers
The remuneration paid to outworkers (1.e. persons
employed by the establishment who do their work in
 lasis. Only amounts pald to outworkers whese names
ppear on the establishment's payroll are included. mounts pald to outworkers by sub-contractors are cluded
ls loyers' insurance and welfare contributions
Item includes employers
tlonal in includes employers contrlbutions to atlonal insurance and graduated penslons (and/or
arnings related basic contributions under the

Soclal Security Act, 1973) as well as commercial insuration or and puper benefits, personal accident benefits, disability or death beneflts for employees or former
employees or their dependants. Contributions employees or their dependants. Contributions to
the runing costs of canteens, social centres
childrents the running costs of canteens, social centres
childrents and hollday homes, etc. for employees former employees and their dependants are also
included.
