But the Current was too  
flurried by the trees he  
had thrown against them, to listen  
to his hints.

The 20th anniversary of anti-Semitism  
 is the 100th anniversary of the  
 first anti-semitic law in the  
 - independence of the state - subject to the  
 of it - not as a teaching principle  
 of some in a democratic basis of the  
 principle of the Republic - a most "useless"  
 since individual & human philosophy

The better part of the American people  
 will be in favor of the - so will be the  
 so will be the Catholic - so will be some of the  
 best of the Progressives. But to make a fair  
 of the Progressives - we are a majority of the  
 people - the C.P. will be unopposed; & we will  
 be loyal to the best of the  
 general "democratic" labor movement. For we  
 sincerely & justly prefer the present to  
 other the composition of the Commission  
 should be a to have a majority  
 and we are sympathizing with the  
 the Policy? It is to be better before  
 us. To just or simply or want a

 From home every having have to work  
 either together or separately - I get  
 the scheme right - & I get the details  
 correct & writing my scheme. We have  
 looked all the hard work because we  
 have been absolutely uninterested & the  
 brother has been hard so that I have  
 looked in to experience & I have worked  
 on the chapter studying & to run along  
 the ~~chapter~~ <sup>debating</sup> lines. Some delightful  
 way we have had to go on to the

 was most appropriate" and then he said again  
 to tell "If Possession means that you are

 he said a look of superiority. "I hope ~~you will~~ will

"Why should I be resigned?" he relates

believe that & death to suffer as little as  
I need, & for that reason I must not talk  
of you again: it prevents me sleeping & resting

by myself. Goodbye - come in my eyes.  
It is tragic to look at the end of man's  
life as a tragedy with man's self  
definitely to work for it. But the notion of

Control - a power for power - & so refined:  
I don't know that even illness & death seem  
a nasty kind of defeat of Nature.

One session ends with a brilliant lecture (I should  
have to meet W. Dreyfus. I believe enough I believe  
about - a closing of doors - The Guest - of 5 evening.  
A man of - extraordinary grace of mind & body  
- ~~and a great deal of knowledge~~. delighting in  
all that is beautiful & distinguished - music  
literature philosophy, religious feeling & moral  
disinterestedness, ~~about~~ <sup>about</sup> ~~all~~ <sup>all</sup> the speed &  
grace of - ~~human~~ common human nature.  
But a strong presence as Proust  
himself of a great depth. I don't believe  
was truly open about his; for all  
economic & social questions, I ~~imagine~~ <sup>feel</sup> he  
has an utter loathing - which he ~~is~~  
treating, administration and law -  
he is a dispassionate irrelevance. He is  
strong intellect - & deficient in knowledge;  
but I imagine ambition is to some  
that he feels that being Proust himself  
completes the picture of the real charming  
man - gives tone to the last touch  
of colour - depriving to his indifference

Mental life is raised & supported by the  
wholesome fear of the Eternal Fall of <sup>the</sup> man's <sup>action</sup>  
~~in~~ ~~life~~. From an intellectual standpoint

it is ~~not~~ too become in a constant testing  
one <sup>hyphens</sup> ~~of~~ ~~the~~ ~~conscience~~ <sup>by its consequences</sup>: proving ~~the~~  
a <sup>social</sup> ~~social~~ process. It is a matter of  
fact, being ~~not~~ a <sup>social</sup> result. Nevertheless

it is not a sign of help that ~~we~~ <sup>we</sup> lack from  
to some months of restless intellectual work.

Before the habit of not sleeping. As if S-  
is turned out of down administration, the  
lot will have its compensations. It will be

a mental luxury to give ~~an~~ to each of our  
faint strength <sup>to</sup> the completion of our big Tasks.

Especially of one felt that ~~we~~ <sup>we</sup> had ~~not~~ <sup>not</sup> had

Settle is an attractive all farm town, with  
 decent farms wife son & daughter, a little  
 honest industry by farm laborer & brick maker  
 - no Philistine town of "Anna Maria: licensed  
 to sell tobacco" - a place of interest &  
 orderly resort - a probably of an "occasional  
 glass" taken with the tobacco. My husband  
 certain amount of rain for the holidays &  
 it prompts. But he has a tent over

 crawling heavy loads - very half hour or so.  
 The first few days I spent mastering Pease's  
Outline of Psychology - a crisp little book &  
 a complete grammar like me & sufficient for our  
 analysis of the experiments in <sup>the</sup> Volume of the  
 individual man wh. to our minds constitute so  
 large a part in the art of governing. To construct

of cereals & milk with small parcels of fresh vegetables  
 a grant is being all that part of an inquiry for  
 efficiency the economic <sup>2. Inquiries for the home market</sup> problem is complexity of an  
 easy one to solve. The experience is somewhat  
 vitiated for general application, & to fear that I  
 am not a firm of life and official estimates of food  
 may be specially desirable. I may say, however  
 that it is not: but so far I have done <sup>nothing</sup>  
 more with this year than ever before. It is perhaps  
 I have taken less physical exercise. Certainly the  
 mental effects <sup>of work and travel</sup> of a traveller visit - both in  
<sup>use</sup> ~~extent~~ of intellect - a control of conduct - are not  
 to be found.

My inquiry now consists of the <sup>l.vi</sup> l.vi branch of

While I spend of each morning in  
 mastering the contents of an article <sup>in</sup> the Journal <sup>of</sup> the Royal Society <sup>of</sup> Medicine <sup>in</sup> London <sup>10</sup> <sup>next</sup> <sup>23</sup>  
 in fact through some of the 10 vols being  
 in local form: a library to contain at least  
 reference but being spending to which morning  
 finishing up his Journal Questions. He will  
 have thought that his administration work  
 in his little own occupation enough! But  
 he succumbed to the defects of weather  
~~condition~~ of being again on Examiner -  
 the "no moving volume". The continuous activity  
 of his brain is marvelous: unless he is  
 down right ill he is never without a book or a  
 pen in his hand. He says that he cannot

think, without reading or writing a text he cannot  
 know for of he has nothing before him, <sup>from arguing</sup> he finds himself.  
 Counting the lines or sheets on some object. That  
 is why when he is <sup>in</sup> a street or a bus he sees a  
 news <sup>often</sup> & remembers ~~the~~ the advertisements. If I wd  
 let him, he would need <sup>think had time</sup> of ~~travelling~~. A woman who  
 comes & hunched to spend hours talking & then  
 a listening & then chat chat or find him a trying  
 hunched. So it is an exact set and other's  
 habits. Long hours of solitary working is what  
 I am accustomed to & what I find I don't desire  
 I wd be productive. It is useful for the  
 bands of it is known & known & fields, a new

 taken together, of the discussion, the planning &  
 by execution the continuous mutual criticism of  
 each others ideas & each others opinion of their  
 own - all this requires cooperation for 3 or 4 hours  
 of <sup>study</sup> ~~the~~ - that makes the silent-composition of  
 the work - when the last is continued

perhaps for 3 or 4 days at a time. Sometimes  
I am a bit irritated because <sup>at some off times</sup> he is a 21-letters  
~~understand~~ "oh - Sam & me" & William

bit of slight disapproval from me. But I found  
some of my own "mistakes" & let's back up  
idea to <sup>clear up a</sup> elaborate on correct use of the language  
& reject in context - sometimes I find up  
2 sets - the he is not feminine & we  
find a way to misunderstand. One love gives  
an atmosphere of sincere happiness (to me  
Roger's classmate) & an other gives us periods  
of restlessness & uneasy happiness. An other is in  
domestic & family together there is no other  
temptation & feeling & interest, on the personal level.  
We have no incompatibility desires - either  
together in space - our "joint" existence and  
an ideal are one & the same - we said  
sheepish to me feel over a semi lit see. But  
the Point is made for Sam sometimes an  
unconcerned way off!

Aug 10<sup>th</sup> A week without work, owing to nervous & disordered state. but not nervous regarding of Oct - am feeling good. Read P. Hiles book on brain & sleep - Dr. confirmed me in my faith w. Dr. I got some useful hints as to regimen. Last two days reading James DePaul's 'Pallor' etc. books - Supplementing C. H. Coe & similar books with an open vision on to the <sup>shining</sup> ~~non~~ ~~intellectual~~ side of human nature.

The point he insists on <sup>is</sup> ~~is~~ the superiority of the <sup>of</sup> ~~of~~ of an emotion. Dr. does not result in <sup>the</sup> ~~the~~ <sup>re-</sup> ~~re-~~ <sup>action</sup> ~~action~~ - rather inhibiting had rather in the production of - find - 5 to us Westerners probably true.

Also the superiority of inhibitions by substitutes, to inhibition of reflexes - as the University of London lecture on the foot-ball with V. H. P. Shaw.

He who believes upon for doing a thing because it is law is (efficiency) a slave he who refuses to do it because he feels something better is a free man. "Make freemen of your citizens" Dr. Stoh:

On the subject, Haldol he is of course emphatic - "men walking bundles of habits" - "every smallest shade of vice virtue or vice having"

I sent off the articles to the Lyndon press to

Heard of her been collecting & being cataloged.  
We grew over to St. Charles & spent a couple of

Dying, a feeling has been given to be  
 a simple missionary in clothes in Deshp's  
 depth. Into the month's close, S. & I were  
 for one long evening's talk about the  
 Roman Rite & the future of the Church generally.  
 It was a strange proceeding - we non-Christians  
 taking interest into them "how" have "new

 So much of my introduction & I left it as

together. The Russells we found settled in  
"incomplete" lodgings in a little town near Valley -  
reading & reading together but not - scarcely happy -  
a tragic austerity & effort in their relationship.  
They are both so good in the best & most -  
complete sense, Alys has so much charm &  
Dorothy so much intellect that it is  
strange they cannot enjoy light hearted  
happiness in each other's love & comradeship  
- but there is something that interferes &  
friends can only look on with respect &  
admiration & silent concern. Perhaps they  
will grow into more joyful union -  
certainly they have the big essential qualities -  
& common faith so far as personal conduct is concerned.

We two through enjoyed our time - Cycling

the Sept-seeing completely each day &  
stomachily in long evening talks instead of  
tiring me - but then we are back in London  
& know that for an autumn's work.

He started Sunday with a paper Cuppa.  
He is in exuberant spirits - Coining money &  
to Ben & spending of funds in extensive  
employments of Parnon & in providing lavishly for  
his children's pleasures. He has developed in the  
last 6 months into an ardent advocate of  
"Choralism" & is engaged in contemplation of  
Belton & longs to depose him from the position  
of Lordship. He gives no thought to understand that  
that is the general desire among Conservatives  
in the North & that some very many are impressed.  
With 'Joe' he seems to be on the most  
friendly terms & I do imagine looks  
from ~~the~~ <sup>being</sup> the of his law officers.  
Consequently he is becoming more & more  
drawn to the Imperial & all <sup>ideal</sup> ~~ideal~~

Alfred was essentially resented by J.C.

Betham Russell publishes a short-essay  
 on the worship of the true man - it has passed the

 - lower than man - that man alone has,  
 by accident, attained to intelligence &

 not lie in the fine passages on conduct,  
 but in his betrayal of the "purely spiritual"

July 6<sup>th</sup> 1904

C. P. Mudgeon married to the handsome  
 daughter of Mrs. & Mr. Chapman of West Hill  
 — a fine looking lady & I thought like  
 & respect, intellectually & socially. Mrs. Bell  
 is an elegant & pleasant woman —  
 the daughter a fine looking good tempered  
 somewhat hard young person with little  
 public spirit & few intellectual interests.  
 As her husband says she is a good  
 housewife — splendid health, <sup>well able</sup> capable <sup>well educated</sup>,  
 well conducted & a good cook.

But when they lunched here the other  
 day I feel that neither life  
 or he wasted by the hardness of the  
 other nature — they would be good persons  
 and uninteresting — the other their

affection for each other will survive  
 the first years of passion  
 as much as possible from it would  
 I doubt — but then will be the  
 tragedy. Perhaps I am a little bit

The reception was an excellent  
meeting of friends of the political &  
literary world - interesting because  
the casual chit-chat reveals the strange  
character of. A social & educational  
issue has - thought - and - it is  
now impossible to say on what side  
you may find any friend. Such  
celebrations took as <sup>good</sup> "P. Moch", though  
Bell is hot-yeared, "Mr. Humphrey"  
was a hot anti educationist - so that  
we find ourselves for more sympathies

The present Government than has do  
10 years ago we have considered as  
rank rebels. Whether the recruiting  
of reactionary, Independent will  
strengthen the Liberal party 5, 6, 7  
more, doubtful — it makes it still  
more difficult to give an any  
construction policy — & what the  
construction policy one would think that  
it was impossible for ~~the~~ the debate

on the a bit conservative leader.

In the last fortnight — even since I  
returned from my short London holiday — I have  
been struggling with one material or

to issue the vols — 1 Structure &

 Municipal Reg. for England, Municipal France.  
 The two first <sup>of these</sup> are done - is then first draft-

 This preliminary work is the hardest  
 of all - one wanders far 2 wide

 Now I feel that his "Finnish"  
 is far more important than my  
 preliminary fragments. Then he has been  
 at school most mornings in preparing for  
 the L.C. classes with the Deft and  
 is in London. Some letters he writes - probably  
 to Sidney ending his work and turning  
 this "tragedy" to an anti-narcotic  
 movement - to end in a considerable  
 reduction of the Prussian Budget, if not  
 in a Prussian Victory. It is enough of  
 his plan and become verifiable for the  
 Administration 16 94. I shall feel  
 that less of his time and thought for the  
 work. Fortunately "Finnish" splendidly  
 fit and can work steadily every day -  
 but I am deplorably slow in feeling over  
 the ground as he has to be constantly stepping  
 to call for clear and more copious evidence.

Recall to from James of the

Slept 7 at School, Sunday ~~to~~ into galleries  
 of the Students at ~~around~~ Dr. Thom's ~~at~~  
 the July 2 lunch. I am keeping myself free  
 from social enjoyment. It is not the time but  
 the energy I lack — unless I deliberately abstain  
~~thoroughly~~ from my work. In the afternoon  
 — I take exercise from 8 to 12, & read —  
 about twice <sup>twice</sup> a week. I walk along to  
 Embankment to St. Paul's, & listen to the  
 Anthem & join in the beautiful litany  
 of the Evening Prayer. Sidney's news, letters  
 & newspaper, an occasional friend & student

 the standard of the present world. How  
 are some mental interferences of their own  
 and a few intellect-friends can exist.  
 Henceforth to get me "Society" less of  
 comprehension. And yet I have part-  
 expended 21 francs on an evening dress!  
 I have to say that it is 4 years since

 Sydney's impulse of the issue of his "London

 the basis of the Conservative paper. But the  
 Liberal papers insist on claiming it -

What effect - J. P. S. William Mackay to the

 Sidney has written to my cleavage in St. Paul

 errors J. P. S. makes in our own country  
 or cannot tell. The Shaws have been good  
 friends to us 2 or 3 or 4 or 5 or 6 or 7 or 8  
 to have a heralding report. What the  
 extra genius will do, if he gets <sup>on</sup> to the  
 Heaven will know some day - but I am inclined  
 to think that in 4 years, he will head up Sidney.  
 And he will become to "Export Terrell" of the  
 P. L. P. Bag - make Sidney look

very conventional. In the future Society they have  
Cultural program to supplement each other in  
a curious effort way - let us hope it will  
be to some use in I.C.C. But he is not taking  
part in!

Meanwhile on the face J. Wilson is left  
to the cold - with even a cross against his  
name so far in an influence with the Church  
is concerned. It is an uncomfortable fact -  
but we can convince him in the Council he will  
abandon. on some of things without promoting his  
own - but he is in the truth his own  
to accept uncomfortable facts & act on  
them. We try to persuade ourselves but  
it will be better for him if he drops out -  
to the next time year - a strong year - has  
to main position of a Co of the members.

However the Party ~~is~~ say let

It is things we understand it;  
for the present absence to fulfill it would

of an election, when the year has elapsed  
 from 1862. We want a small majority  
 But the Conservatives fear - have a strong tone  
 against them & have not hesitated themselves  
 on behalf of the radicals - Channing (I mean, of  
 not, you know) will be cautious against them -  
 found infatuation with Government ineptitude.  
 The Progressives hold the fort with good leaders,  
 they have to some extent sorted the disposition  
 of the Church - It holds on behind her  
 with candidates & canvassing. The best we  
 can hope for is a large decrease Progressives  
 majority - & believe that is a small  
 for. majority - there is not much to choose  
 If the P. come tripping back - Ch.  
 the celebration will have some of J. had  
 not hesitated to Channing & Channing - it  
 will be hard for education.

 will never be selected again by any

As for the general result — it is  
 fortuitous. The Church & the Catholics have  
 apparently exercised no kind of influence —  
 those sent to Coventry by the Ecclesiastics  
 being apparently no part of it. The members  
 of many constitutions deserts of the official Constitutions  
 have had been the full Count of the  
 former's infidelity — they come back  
 as they went out, virtuous & free.  
 Of course the Proprietors have power to  
 administer it — & impartially — but if they  
 do so. They will show real Statesmanship  
 & patriotism. I confess to a lively  
 admiration for the "Faints" who have been  
 in an unapproved attack on the

Sarge of the Proprietary. Today. To be the elected

March 11<sup>th</sup>

To our delight surprise the Proprietary  
 - so far as the leaders are concerned have returned to being  
 in a somewhat temper - they seem to be  
characterized by their persistence. At the length

Party Committee that have been held since 1st  
 Party Meeting today they have welcomed Sidney and  
 into their committee with great cordiality - prob-  
 ably because now that they see that the Party is safe  
 & sound to listen to his advice on Educational  
 matters. They have even gone so far as suggesting  
 that he should be Chairman of the P. Committee tho'  
 they realize the difficulties - but he has decidedly  
 refused that notion, if anyone else can  
 be found who will take the job on & let him  
 work under them. It would be adding insult to  
 injury to appoint the Executive as Executive  
 & Trustee of the school's property - an insuper-  
 able moral handicap in the smooth working  
 of the concern. But what is really surprising is that  
 the almost unanimous <sup>of the</sup> Party has decided  
 not to make Stanley ~~Chairman~~ an alderman - but -  
 not to give him Co-opture on the Cl. as a  
 school board member - an offer which we  
 know he will accept. As for the nomination there  
 has not been a whisper of having him as a  
 my opponent - not even as a Co-opted  
 member. Meanwhile within the Party Committee

The three months in Scotland was so completely  
 a joint venture that there was neither the  
 desire nor the opportunity to record it in  
 the Book. When Sunday is with me I cannot  
 talk to the "Other Self" with whom I  
 commune since I am alone - "it" ceases  
 to be present & my re-affirmation then, becomes  
 absent: ~~there is no more of me~~, then  
 the Old Self, who knew me & whom I know,  
 knows, for his long period before Sunday  
 entered into my life - who seems to be  
 that which is Permanent - sits again  
 on the judgment-seat & listens to the  
 tale of the hours & days, acts, thoughts  
 & feelings, which the Spirit has  
 experienced.

Beautiful & successful have been  
 the scenes of our long working holiday -  
 especially enchanting the Hill side of  
 Fyvie with heather & fireweed mountains  
 rising up behind us & Cromarty Firth

It took six weeks out - beneath us -  
 The few new fish - as we called the  
 dark & dark Sals - all remain in my  
 memory as one of the most beautiful  
 captures of water land & sky - especially  
 beautiful at dusk before we left the  
 Sun was midway between the two Promontories,  
 right out of the Ocean, its rays lighting up,  
 one by one, each section of the Firth. What  
 a - what landscape of corn fields, heather, &  
 rich grass was our Port of view -  
 fish & crabs, & green.

Except for 4 days cycling in  
 the West Coast - & for 2 days taken by our  
 change of position at the end of July (for the North  
 men previous to the 14th of August) we worked  
 steadily 6 days out of 7 at the Bank  
 for the first morning hours - spending the  
 afternoon in reading and ~~writing~~ exercises.

 they are unrepentant in their determination to  
 run in the place on the old lines of "Security"

 they refuse <sup>even</sup> to contemplate any other policy - I dismiss  
 an social reform from their minds except perhaps  
 a revision of the incidence of taxation against

They are not optimists - look forward to  
 a loan majority over 4 Irish & a century of

We stayed Sunday & Monday at the Thesiger's -  
an attractive young couple he a son of the <sup>General</sup> ~~General~~  
Lord Thesiger & she a daughter of Lord Wimborne,  
but tall & pleasant to look at, intelligent,  
feminine spirit, & verses in all the latest  
amusements of display & conversation. He is a  
hardy modest one & L.C.C. <sup>also</sup> a member of the  
Dover-L.C.C.; together they run the Church, the  
school, & library the free-club of their domicile -  
all activities the motto against his  
feeling an unboundable Rev. Power if  
his willingness to spend himself in social  
service, his apparent absence of political, professional  
or social ambition which tends a peculiar  
attraction to his society instead of a lack  
of any special distinction is a sign of profound admiration  
before an intellectual <sup>character</sup> subtlety. His fellow party  
was Prof. Her - professor of the English Literature  
at University College & a young "Civil" - a  
son of Lord Portman Civil. The former was distinctly of  
the owl type - ~~more~~ <sup>his</sup> ~~rather~~ <sup>scalping</sup>  
to teach the deeper forms of his own language  
~~manipulation~~ <sup>judges</sup> of ~~unpleasant~~  
to spend some time in the Vicarage garden

of his own conversation & letters are not com. I see  
He was mostly silent, when he did speak  
one could understand his

Sometimes there seemed to glimmer through his  
body chosen words & when sometimes

out of a lowly Scotch humor but - one had  
to puzzle it out. <sup>Sidney says that as to Bonnet he never got</sup>  
~~to Bonnet~~ <sup>his reports carried for lack of power of lucid or even</sup>  
~~to Bonnet~~ <sup>clear</sup> ~~from~~ <sup>experience.</sup>

Tracy's & Miriam's Progress of French in  
Paris being remarkable for an utter absence of  
to learn to talk good French!

Young A.C. was interesting because he was  
sure to decide <sup>an impy</sup> his philosophy of life. In his  
Society was divided in two - the Church & the

World - the Church on grounds of spiritual  
illumination <sup>the reduction in ecclesiastical dominion</sup>; the World outside of  
the reduction in ecclesiastical dominion

to attempt to turn the secular world as a

whole into one set of centers to the  
Command "for: into learn to things by the  
Cosmos" but in almost blasphemy. All real

progress was confined to progress of the individual soul  
under the influence of the Church. Any measure of

honesty & kindness, of honor, a faithful spirit or ~~truthfulness~~  
prompt clear vision, was being & defining  
truth seeking

Altogether I began to see the current social  
direction to the Toryism of the Cecil type.

The boy himself was not far in hand -  
an intellectual <sup>in terms</sup> ~~superior~~ <sup>in that</sup> ~~superior~~  
modesty of manner & easy deference which ~~robbed~~  
the creed of any efficiency of class existence or rejuvenation.

He was suffering from an extensive interference  
bad health - efficiency with result -  
& was just obviously being villainously  
treated in the physical & hand-to-hand  
plan of the ordinary Doctor. I did my best -

to assist with his philosophy & his opinion  
of a combination of serious discussion &  
soft-doggy rejuvenation - but - I must confess

in either direction - to Shieroff & the  
rejuvenation was both too congenial to the  
festivities & rather self-indulgent of his

temperament to be undertaken in 48 hours by  
an elderly fretting woman. If it  
creed & to women remain imperfect he  
will be a waste product of Society -  
interestingly not an absolute type

Lord William Jew: a fine example of  
 the cultured & strenuous English gentleman  
 who has chosen a quiet life & a quiet career  
 of retirement as his path through life.  
 His work. A touch of personal melancholy  
 towards this courteous old man - he  
 & Lady William graciously became  
 our own marriage & he always - in these  
 few days of time a less social  
 boy who - spoke with admiration & respect  
 of "W. Webb" & his own by heart.

Henry inherits some £70,000 &  
 is known to be a man of a high class  
 in vision of a Purse. The former  
 members of the William Jew are all left  
 with small legacies - Lord William  
 evidently desiring to form a family.  
 a letter to be sent to the foundation of  
 the New York Society. Stephen Hetcher  
 met to the Secretaries of the Society  
 & the other persons. A good law and all  
 - a worthy "job" - but a "job"

Decr. 22<sup>d</sup>

Off to Felixstow for a New York, Ucon -  
 Davy Dr. I'm in hope to finish off the  
 Parish Chapter to be a type matter. We must  
 do an independent from research - but -  
 it is time to be getting on if we are  
 to complete our work in England do not  
 prevent up to present time. Now we  
 it is necessary for Sidney's communication with  
 to increase his reputation by publishing  
 a big work of research.

An outbreak of feeling among the  
 Lady Pyperis at St Scholastica's Scheme  
 sh. has elicited much attention &  
 a small - universal presence. Collins  
 Cornwall & Dickson have not been  
 making much of a success of their  
 official functions - feeling a good deal  
 of animus for some of Co-Messrs -  
 omission of the Com. & Church side -  
 at Sidney's instruction, by law.

Then out he comes in Christmas of the  
 Higher S. C. with his great Scholarship  
 Scheme Carefully brought out in detail with  
 arguments showing that it is desirable.  
 They don't like to oppose it because the need for more  
 teachers is urgent - it gives <sup>the 15 term method class</sup> of opinion all  
 in favor of increased facilities - they can't  
 object to it <sup>in principle</sup> because they don't  
 know sufficient to suggest others than  
 their plan - but it is offering to h-4-7,  
 teaching up to Secondary School, &  
 sending to U.S. known as Collins  
 having <sup>to be made</sup> ~~to be made~~ "If it is a success the  
 credit will be ~~to~~ "W. W. W. W." - he  
 said it in a complimentary tone but it  
 was clear an incomplete thought. However  
 it is a ~~good~~ <sup>good</sup> thing. He thinks it is  
 certain to go through because of the  
 general interest approval & because they  
 cannot support an alternative. But he was  
 at one time at least at the back of your mind  
 a general in spirit of the "Powering Scheme".  
 There is now a lot of trying to prohibit them

as I don't find my correspondent makes  
any reference to their jealousy of Sidney's  
influence with Pres. & Gov. that be.

I tell him that he must not be  
dejects of his politics: if he goes in for  
hidden influence he must expect hidden  
obstruction. It is with this "preparing  
position" so as to carry measures we  
believe in - of our letters - his & his-  
conduct - we ought to do it. But very  
reluctant the person. Unfortunate situation.  
is their prepared position - since to  
go out - except through his way - naturally  
do not like it & try to make the  
day as unpleasant as they can to  
him personally. An amazing poor fellow & perfect  
kappa in another name for his situation.

~~So-called~~

Let's continue remember the other  
day that she always understood as being

writing of ~~the~~ private person

why the scenes so little concerned with  
 the great questions of Peace & War — so  
 infinitely more important than these are  
 little things or rather <sup>scenes</sup> <sup>occurred in their lives</sup> <sup>of moments</sup>.  
 And I betrays me that there is hardly a  
 reference to the British & Japanese war in the days.  
~~Reference to the Japanese war.~~ The answer I gave  
 on the 14th moment, is, I think the true  
 one: "the private person has no special  
 knowledge, no particular <sup>or accepting</sup> experience <sup>of the</sup>  
~~importance of the war~~

World Affairs — his thoughts & feelings as  
 "as he is a man reflective of his morning"  
 "his paper & watches with to him & to them"  
 "the most some day and it <sup>story</sup> ~~was~~ of his"  
 "life" And yet if we look back on the  
 past year & think how much one has  
 known of the Far Eastern Drama — how  
 eager we have been each morning here — how  
 one has ~~been~~ stumbled into the addressing  
 the effect of the "Rising Sun" on our  
 Western civilization — it is hardly fair  
 to have it ~~unnoticed~~ <sup>noted in myself</sup>

2. them a ~~promise~~ <sup>promise</sup> National Shame face was  
 at the Superior of 4 Japanese on "our  
 "Noble Self", in capacity, Courage, Self control,  
 & in benevolence <sup>so well</sup> all that makes up "good  
 character". They shame on Christianity,  
 they shame on administrative Capital,  
 they shame on inventions they shame  
 on leadership & etc! They shame on a  
 "average personal man". Perhaps it makes  
 to realize own that they have won  
 not by the genius of one man —  
 it might be an accident not likely to  
 occur again — but not on the intellectual  
 physical & moral qualities of 4 such people.  
 They see the true scientific & moral  
 requirements — a noble purpose  
 & a more every continuous process, the worth  
 to carry out its purpose. Their success will  
 elicit not only the belief of Power, but  
 the belief of ideas — it will be against  
 Christianity as The One Religion, against materialistic  
 Individualism against Autocracy (~~but not~~  
~~the Democracy~~), against luxury; in favor

of various regulations, ~~and~~ <sup>quantitative</sup> exercises,  
 - but on the whole not in favor of Democracy?  
 they have suddenly raised the  
 standards of <sup>the</sup> Report Office - in effect  
 two departments of life that we heretofore  
 reckoned ~~as~~ <sup>imagined</sup> under a supreme  
 power to the Boston Times. How far the  
 shock to self esteem will go in  
 England don't know - how far it will be  
 neutralized by the vulgar delight of  
 seeing an ally beat our enemy  
 remains to be seen. But for many a  
 long day the Reformers will be able  
 to point on his side the unnumbered  
 collections of the Japanese, the Indians,  
 and the self-changings of all classes  
 of the community in a common cause. Even if our  
 day life, we are inclined towards such territories - man self respect.
