Housing Return for England and Wales as at 31st March, 1946

This return is the third of a series of monthly progress statements on housing in England and Wales. The figures in the present return show the position up to 31st March, 1946.

The *first issue included explanatory notes to the figures which have not been repeated in this return. It also includes an Appendix A giving general tables relating to England and Wales as a whole and to various subdivisions by types of authority and by geographical distribution.

A detailed statement for each of the 1,469 housing authorities will shortly be published as a separate document (Appendix B).

PROVISION OF OTHER HOUSING ACCOMMODATION

Apart from new building, additional accommodation for family units has also been provided by local authorities as shown in the summary on page 3.

The number of family units of accommodation provided by the repair of unoccupied war damaged dwellings and conversions and adaptations of existing premises undertaken by private builders to private contracts is not known.

A total of 25,244 flats and houses of less than 12 rooms were released from occupation by the Services and Government Departments over the period 1st May, 1945, to 28th February, 1946. Some of the dwellings on release were taken over by the local authorities.

The total number of requisitioned dwellings held by the local authorities for residential purposes was 87,645 at the end of March; of these 54,157 were situated in the London region.

PROGRESS OF INDIVIDUAL HOUSING AUTHORITIES

Of the total of 1,469 authorities there were at the 31st March, 1946, 105 authorities who had as yet no sites of which possession had been obtained. Of these authorities 63 were urban areas and 42 rural districts. The population in the area of these authorities represents 2.1 per cent. of the total population of England and Wales. There were 194 authorities who had not obtained authority to go to tender on a specific scheme. The population in the area of these authorities represents 5 per cent. of the total population of England and Wales.

See also Appendix A, Table 7

HOUSING LABOUR FORCE

The total number of operatives aged 16 and over, excluding prisoners of war, employed on the construction or repair of housing in England and Wales, whether on work for local authorities or on houses erected under licence, grew from 324,400 in July, 1945, to 445,300 at 31st March, 1946. At 28th February, 1946, the number so employed was 410,000. Within the total housing labour force, the number employed on war damage repairs decreased from 184,200 at 28th February, to 179,200 at 31st March, while the number employed on the construction of permanent houses grew from 44,100 to 62,200.

(a) Source—Ministry of Works (based on Census and Sample Returns).

(b) Source—Ministry of Labour. Owing to differences in classification it is not possible to relate the "number of insured workers" to the number of "operatives employed".

(c) A change has had to be made in the definition of the number of operatives employed on the construction and repair (including war damage repairs) of factories, public utilities, etc. The number of operatives employed at 31st January, 1946, and 28th February, 1946, on the present definition for item (8) were 263,450 and 266,000 respectively. The number employed at the same date on war damage repairs to such premises (item 7) were 19,000 and 25,000 respectively. The numbers shown above as employed at 31st July, 1945, for these two items are on the present definition and differ from the combined figure previously published.

(d) Operatives engaged on repair both of unoccupied (*i.e.*, severely damaged) war damaged houses and upon repair of war damaged occupied houses.

APPENDIX A
NOTES

The material contained in this return is derived from a census of the housing position at 31st December, 1945, and the reports of subsequent progress completed by the local authorities. At the 15th March, 1946, reports of progress in January and February had not been received from 4 authorities. Reports of progress in March were due to be received by the 5th April, 1946. Reports received after 12th April arrived too late to be included in the figures shown in this report relating to progress in March. By 12th April, 1946, 1,434 reports had been received.

Classification of Urban and Rural Authorities

The classification of Urban Authorities other than the L.C.C. and Metropolitan Boroughs into Large Towns and Cities, Medium Towns and Cities and Small Towns has been made in terms of population. The classification has been made as follows based on the estimated population at mid-1939 as returned by the Registrar General.

Large Towns and Cities	over 75,000
Medium Towns and Cities	over 25,000 and up to 75,000
Small Towns	25,000 and under

The Rural Authorities comprise all Rural District Councils.

The total population of England and Wales as at mid-1939 is divided between the various groups of cities and towns and Rural Authorities as follows:—

	<i>Number of Housing Authorities</i>	<i>Estimated Population</i>	<i>Percentage of total in England and Wales</i>
Urban Areas			
Large Towns and Cities ...	81	14,655,000	35.3
Medium Towns and Cities ...	218	9,116,000	22.0
Small Towns ...	665	6,399,000	15.4
L.C.C. and Metropolitan Boroughs ...	30	4,013,000	9.7
Rural Authorities ...	475	7,277,000	17.6
Total ...	1,469	41,460,000	100.0

Regions

The Regions used for the purpose of classification are identical with the Civil Defence Regions. Their composition is as follows:—

<i>Northern</i>	Counties of Northumberland, Durham, Yorks (North Riding).
<i>North Eastern</i>	Counties of Yorks (East Riding), Yorks (West Riding).
<i>North Midlands</i>	Counties of Derby, Leicester, Lincoln, Northampton, Nottingham, Rutland, Soke of Peterborough.

<i>Midlands</i>	Counties of Hereford, Shropshire, Stafford, Warwick, Worcester.
<i>North Western</i>	Counties of Cheshire, Cumberland, Lancashire, Westmorland.
<i>South Eastern</i>	Counties of Kent (part), Sussex, Surrey (part).

The total population of England and Wales as at mid-1939 was divided between the various Regions as follows:—

	<i>Number of Housing Authorities</i>	<i>Population at Mid-1939</i>	<i>Percentage of total in England and Wales</i>
<i>Northern</i> ...	103	2,684,400	6.5

Tables 8 and 9

Table 8 shows the number of sites at different stages from the initial stage of selection to the stage when the site is available for construction.

Between the selection of the site and the completion of houses ready for occupation there is a long chain of events equivalent to the "pipeline" of materials and components of mass production in the engineering industry.

In general the use of the site for housing requires consideration from the point of view of regional and town planning, local transport facilities and so on. Sites have then to be acquired, a layout agreed, and roads, sewers and other services provided generally in advance of beginning the actual erection of houses. The actual construction of the houses themselves is the final process in the chain of production, which also, of course, comprises the fabrication of building materials and components ready for use.

During the early stages of expanding the volume of house building, the number of house sites under development and the number of houses under construction and so on will continue to rise in advance of a corresponding increase in the number of houses completed. As the production of houses by Local Authorities evolves into a smooth and continuous cycle of operations, the number of houses or house sites at the various stages in the chain of production will tend to be roughly equal.

Table 9 shows the number of houses at different stages towards completion beginning with the preparation of house plans.

Many of the initial stages in the erection of houses such as the preparation of house plans, bills of quantities and the chain of events leading to the acceptance of a tender are, in many cases, undertaken concurrently with the work of developing the corresponding sites.

Sites the use of which has been agreed or of which possession has been obtained and originally intended for the erection of temporary houses are in some instances now to be used for the erection of permanent houses. For this reason strict comparison with the corresponding figures shown in previous returns is not possible.

The greater part of the housing provision for the County of London area is made by the London County Council and the fact that no tenders have yet been approved for a number of Metropolitan Borough Councils does not mean that provision is not being made for the needs of those Boroughs.

APPENDIX B
TO THE
HOUSING RETURN FOR ENGLAND AND WALES
31st MARCH, 1946

TABULAR STATEMENT FOR EACH HOUSING AUTHORITY

NOTES

1. An alphabetical index of Regions and Counties is shown on page 76.
2. The data shown in this Appendix has been based on Appendix B to the Housing Return for England and Wales for the 31st January, 1946, and includes additions and alterations notified in the Progress Reports for February and March, 1946, received from Local Authorities. In cases where entries in the Progress Reports were incomplete or inconsistent the information contained in this Appendix has been compiled in the light of evidence contained in the Census Return and in the Progress Reports as a whole. The tabular statement shows the position as at the 31st March, 1946. In certain instances Progress Reports have not been received in time for inclusion. Those local authorities in respect of whom no information from Progress Reports have been included are marked with *; those in respect of whom information from the Progress Report for January only have been included are marked with †; those in respect of whom information from the Progress Reports for January and February have been included are marked with §. The data in respect of permanent housing shown for such authorities relates to the position as at the 31st December, 1945, 31st January, 1946 and 28th February, 1946, respectively.
3. Information has been included in this Appendix from some Progress Reports received too late for inclusion in Appendix A of the Housing Return.
4. Data relating to the rebuilding of war destroyed houses by local authorities are not at present available in sufficient detail to be included in this Appendix. This particularly affects the London County Council where 92 war destroyed dwellings have been rebuilt, 813 are under construction and contracts have been let for a further 572. Other cities that have suffered severely from bombing, such as Coventry and Birmingham, are similarly affected.
5. The term "under construction" in Column (4) means that the contractor has actually begun work on the construction of the dwellings. In some instances work has begun on all dwellings in a particular contract; in other instances it would appear that all the dwellings in a particular scheme have been shown as "under construction" on the Progress Report although work has not necessarily started on all of them.
6. In certain instances the Ministry of Works are undertaking the erection of groups of experimental permanent prefabricated houses on sites provided by housing authorities. These houses have been included in the data shown for the authorities concerned.
7. The number of temporary houses allocated to housing authorities is under constant review. Where the allocation is less than the number of sites available subsequent allocations may be made (Columns (8) and (9)).
8. Where Tenders (or Estimates in the case of Direct Labour) for site development (Roads and Sewers) have been approved by the Ministry of Health but where work on the site has not yet begun, the sites have not been shown as under development (Column (2)).
9. In the few instances where sites developed before the war by private enterprise are being taken over by the local authority but possession has not yet been obtained, the relevant figures have been entered in Column (2).
10. Permanent Houses. The figures in all columns except Columns (4) and (5) are not included in any other column. "Houses under construction" (Column (4)) and "Houses completed" (Column (5)) are included in "Houses on Tenders Approved" quoted in Column (3).
11. It should be noted that the greater part of the housing provision for the County of London is made by the London County Council. It is not, therefore, possible to relate the data shown in this Appendix for each Metropolitan Borough to the housing needs of the population of the Borough.
The bulk of the preliminary work in connection with the provision of permanent houses made by certain housing associations in the County of London area is undertaken by the Metropolitan Boroughs. Since the actual construction in such cases is carried out "under licence" the information is shown in Columns (12) and (13).
Certain data on temporary houses in respect of the London County Council and the Metropolitan Boroughs have been consolidated.
12. The number of dwellings for which civil building licences are shown to have been issued (Column (12)) does not allow for those dwellings for which licences have lapsed.
