Housing Return for England and Wales as at 31st October, 1946

This return is the tenth of a series of monthly progress statements on housing in England and Wales. The figures in the present return show the position up to 31st October, 1946, and relate from 1st April, 1945. The return includes an Appendix A giving general tables relating to England and Wales as a whole and to various subdivisions by types of authority and by geographical distribution.

The *first issue included general explanatory notes which have not been repeated in this return.

A detailed statement for each of the 1,469 housing authorities will shortly be published as a separate document (Appendix B).

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately on page 6. Figures in respect of non-traditional houses are also shown separately below.

See Appendix A, Table 2.

Appendix A, Table 2, contains information in respect of building schemes for permanent houses. This information is shown in Tables 2(a) and 2(b) for traditional and non-traditional types respectively, the sum of these two Tables being shown at Table 2.

PERMANENT NON-TRADITIONAL HOUSES

With the object of accelerating the rate at which houses can be erected a number of methods of house construction have been evolved which, for ease of reference, are known as "non-traditional". Included in this category are types that have been referred to as "permanent prefabricated". In Appendix A, Table 11, a list of the main types is given together with details regarding the numbers of each type for which tenders have been approved and the numbers completed. Information regarding the development of sites and the preparation of housing schemes for non-traditional houses is included in the figures shown in Appendix A, Tables 1, 2, 8 and 9, and is shown in detail in Table 2(b).

The position as at 31st October, 1946, compared with that at 30th September, 1946, was as follows :—

	30th September, 1946	31st October, 1946
Tenders approved ...	31,051	35,746

A total number of 29,600 B.I.S.F. and 1,380 Howard houses have been allocated to Local Authorities. 11,218 applications have been received from Local Authorities for Airey Rural component sets.

See Appendix A, Table 2(b) and 11.

The total number of houses on licences issued by the end of October has been arrived at after allowing for those licences notified as having lapsed.

See Appendix A, Table 4 (a).

PERMANENT HOUSES—HOUSING ASSOCIATIONS

The number of houses on licences issued or in respect of which approval has been given and the number of houses completed to the end of September and October, 1946, respectively, are as follows :—

HOUSES—GOVERNMENT DEPARTMENTS

The construction of houses is authorised by Government Departments for the families of police, prison staffs, the Defence Services and other Government employees. The number of houses for which tenders have been approved and the numbers completed are shown for the first time. The position as at 31st October, 1946, was as follows :—

REBUILDING OF WAR DESTROYED HOUSES

The rebuilding of war destroyed houses by private builders to private contract can be undertaken only under licence. Rebuilding by Local Authorities can be begun with the approval of the Ministry of Health and War Damage Commission. The figures for October take into account information regarding

houses approved and on licences issued and houses completed in earlier months which was not previously available. Information in respect of some Local Authorities is still incomplete and the figures quoted are subject to adjustment. The position at the end of October compared with that at the end of September, 1946, was as follows:—

	30th September, 1946	31st October, 1946
Local Authorities—Houses approved	5,666	5,859
Private Builders—Houses on licences issued ...	12,146	13,818

See Appendix A, Table 5 (a).

USE OF EXISTING PREMISES

Apart from new building additional accommodation for family units has also been provided by Local Authorities and by private builders under licence by the repair or adaptation of existing premises.

Information in regard to such provision made by Local Authorities has been published in earlier housing returns. Corresponding information relating to the provision made by private builders under licence was available for the first time in April, 1946. The data available may be summarised as follows:—

	Family Units of Accommodation Provided				
	On contracts let 1st January, 1946, to 31st October, 1946	1st January, 1946, to 31st August, 1946	September, 1946	October, 1946	Total, April, 1945, to October, 1946
Local Authorities	14,464	10,506	1,445	1,509	22,066
Conversions and adapta- tions
Repair of unoccupied war- damaged dwellings ...	29,771	—	2,195	2,149	93,496
Private Builders under licence	24,331	1,116	1,156	6,944	
Conversions and adapta- tions
Repair of unoccupied war- damaged dwellings ...	33,209	1,254	1,071	8,811	

See Appendix A, Tables 5b and 6.

It is anticipated that revision will be necessary in respect of figures for the repair of unoccupied war damaged dwellings. The existing figures should therefore be regarded as provisional.

OTHER HOUSING ACCOMMODATION

A total of 29,550 flats and houses of less than 12 rooms was released from occupation by the Services and Government Departments over the period 1st May, 1945, to 30th September, 1946. Some of the dwellings on release were taken over by the Local Authorities.

The total number of requisitioned dwellings held by the Local Authorities for residential purposes was 92,243 at the end of October; of these 58,237 were situated in the London region.

Of the total of 92,243 requisitioned dwellings held by the Local Authorities, 69,275 were held at 31st March, 1945. From that date to 30th September, 1946, there was a net increase in unoccupied houses requisitioned by Local Authorities for residential purposes of 22,367 and a further 601 were requisitioned in October, making a net increase of 22,968 houses in the 19 months to 31st October, 1946.

SERVICE CAMPS—TEMPORARY ACCOMMODATION

In addition to accommodation referred to above, there were at 31st October, 1946, 10,625 families occupying accommodation in 948 camps that were redundant to the needs of the Services or Government Departments, which had been offered to Local Authorities for housing purposes and were considered suitable for those purposes. In the main these camps had been taken over by Local Authorities as part of their pool of housing accommodation or were being managed by them on behalf of the Ministry of Health.

Accommodation for a further 2,269 families was occupied in 267 camps which are still required for Government purposes, or are unsuitable for housing, or are still subject to decision as to their future use.

PROGRESS OF INDIVIDUAL HOUSING AUTHORITIES

Of the total of 1,469 Authorities there were at the 31st October, 1946, 21 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had as yet no sites of which possession had been obtained. Of these Authorities 10 were urban areas (mainly small urban districts) and 10 rural districts; the population in these areas represents 0.3 per cent. of the total population of England and Wales. There were 23 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had not obtained authority to go to tender on a specific scheme. The population in the area of these Authorities represents 0.8 per cent. of the total population of England and Wales.

See Appendix A, Table 7.

HOUSING LABOUR FORCE

The total number of operatives aged 16 and over, excluding prisoners of war, employed on the construction or repair of housing in England and Wales, whether on work for local authorities or on private contracts under licence, grew from 320,400 in July, 1945 to 564,500 at 25th October, 1946. At 27th September, 1946, the number so employed was 553,600. Within the total housing labour force, the number employed on war damage repairs decreased from 150,100 at 27th September, to 147,100 at 25th October, while the number employed on the construction of permanent houses grew from 150,200 to 164,300.

See Appendix A, Table 12.

BUILDING MATERIALS AND COMPONENTS

Details of production of the more important building materials and components are included in Appendix A for the first time. The information relates to Great Britain as a whole; separate details in respect of England and Wales are not available. It should be noted that the production of the items listed is utilised not only for the construction of and installation in new dwellings but also for repairs, replacements and building work other than house building.

In general the production in any given month is not known until towards the end of the following month. It is not therefore always possible for the complete data relating to the month under review to be available in time for inclusion in the Return.

See Appendix A, Table 13.

APPENDIX A—NOTES

The material contained in this return is derived from a census of the housing position at 31st December, 1945, and the reports of subsequent progress completed by the Local Authorities. Certain information is obtained from Government Departments. Where this is the case the items concerned have been annotated. At the 13th November, 1946, reports of progress had not been received from 1 Authority for the months April–October, from 2 Authorities for the months June–October, from 2 Authorities for the months August–October, from 3 Authorities for the months September and October, and from 32 Authorities for the month of October. Reports of progress in October were due to be received by the 5th November, 1946. Reports received after 13th November arrived too late to be included in the figures shown in this report relating to progress in October. By 13th November, 1946, 1,429 reports had been received.

Classification of Urban and Rural Authorities

The classification of Urban Authorities other than the L.C.C. and Metropolitan Boroughs into Large Towns and Cities, Medium Towns and Cities and Small Towns has been made in terms of population. The classification has been made as follows based on the estimated population at mid-1939 as returned by the Registrar General.

Large Towns and Cities	over 75,000
Medium Towns and Cities	over 25,000 and up to 75,000
Small Towns	25,000 and under

The Rural Authorities comprise all Rural District Councils.

The total population of England and Wales as at mid-1939 is divided between the various groups of cities and towns and Rural Authorities as follows:—

Urban Areas	Number of Housing Authorities	Estimated Population	Percentage of total in England and Wales
Large Towns and Cities	81	14,655,000	35.3
Medium Towns and Cities...	218	9,116,000	22.0
Small Towns	665	6,399,000	15.4
L.C.C. and Metropolitan			
Boroughs	30	4,013,000	9.7
Rural Authorities	475	7,277,000	17.6
Total	1,469	41,460,000	100.0

Regions

Certain changes in the composition of the Northern, North Midlands and North Western Regions were made as from 1st April, 1946. As from the same date the "North Eastern Region" is to be known as "East and West Ridings". The Description and composition of the Regions are now as follows—

<i>Northern</i>	Cumberland, Durham, Northumberland, Westmorland and the North Riding of Yorkshire.
<i>East and West Ridings</i>	The East and West Ridings of Yorkshire.
<i>North Midlands</i>	Derbyshire (except the High Peak District), Leicestershire, Lincolnshire, Northamptonshire (including the Soke of Peterborough), Nottinghamshire and Rutland.
<i>Eastern</i>	Bedfordshire, Cambridgeshire (including the Isle of Ely), Essex, Hertfordshire, Huntingdonshire, Norfolk and Suffolk, except such parts of Essex and Hertfordshire as are within the London Region.
<i>London</i>	London (Administrative County), Middlesex and parts of Kent, Essex, Hertfordshire and Surrey.
<i>Southern</i>	Berkshire, Buckinghamshire, Dorset, Hampshire (including the Isle of Wight) and Oxfordshire.

<i>South Western</i>	Cornwall, Devon, Gloucestershire, Somerset and Wiltshire.
<i>Wales</i>	The whole of Wales and Monmouthshire.

<i>North Western</i>	Cheshire, Lancashire and the High Peak District of Derbyshire.
<i>South Eastern</i>	Sussex, Kent and Surrey except such parts of Kent and Surrey as are within the London Region.

The changes in regional composition referred to above should be borne in mind in comparing the regional classifications shown in the Tables in Appendix A in this return with those shown in returns published before 30th April.

The total population of England and Wales as at mid-1939 was divided between the Regions as now defined as follows:—

	Number of Housing Authorities	Population at Mid-1939	Percentage of total in England and Wales
<i>Northern</i>	123	3,003,100	7.3
<i>East and West Ridings</i>	118	3,975,700	9.6

Total	1,469	41,460,000	100.0

Tables 8 and 9

Table 8 shows the numbers of sites at different stages from the initial stage of selection to the stage when the site is available for construction.

Between the selection of the site and the completion of houses ready for occupation there is a long chain of events equivalent to the "pipeline" of materials and components of mass production in the engineering industry.

In general the use of the site for housing requires consideration from the point of view of regional and town planning, local transport facilities and so on. Sites have then to be acquired, a layout agreed, and roads, sewers and other services provided generally in advance of beginning the actual erection of houses. The actual construction of the houses themselves is the final process in the chain of production, which also, of course, comprises the fabrication of building materials and components ready for use.

During the early stages of expanding the volume of house building, the number of house sites under development and the number of houses under construction and so on will continue to rise in advance of a corresponding increase in the number of houses completed. As the production of houses by Local Authorities evolves into a smooth and continuous cycle of operations, the number of houses or house sites at the various stages in the chain of production will tend to be roughly equal.

Table 9 shows the number of houses at different stages towards completion beginning with the preparation of house plans.

Many of the initial stages in the erection of houses such as the preparation of house plans, bills of quantities and the chain of events leading to the acceptance of a tender are, in many cases, undertaken concurrently with the work of developing the corresponding sites,

Note.—The number of sites at each stage includes every site which has reached that stage or a later stage towards the erection of a house. House sites shown in Col. 7 are included only in Cols. 2 and 3.

Reductions as compared with previous months in the number of houses for which sites have been agreed or possession obtained (Cols. (2) and (3)) are due to the abandonment of projects previously reported.

Reductions as compared with previous months in the number of houses for which site layout plans have been approved or development begun before the erection of dwellings (Cols. (4) and (5)) are due to the decision to develop the site concurrent with the erection of dwellings, which are shown in Column (7).

A further 9,000 occupied dwellings were repaired in October making a total of 653,000 repaired to the end of that month.

Information for the period April to December, 1945, is not available in respect of Columns 2 and 5; and in respect of Column 6 is available from April, 1946, onwards. The classifications in Sections B and C relating to houses on contracts let and on licences issued covers the period January to October, 1946, and as regards houses completed under licence the period April to October, 1946.

The receipt of additional information from Local Authorities in respect of the period April, 1945-June, 1946, has been included in this Return. For this reason strict comparison with the corresponding figures in previous Returns is not possible.

The few housing authorities who have had layout plans approved, although possession of sites has not yet been obtained, have been excluded from Section A of this Table.

The greater part of the housing provision for the County of London area is made by the London County Council and the fact that no tenders have yet been approved for a number of Metropolitan Borough Councils does not mean that provision is not being made for the needs of those Boroughs.

Housing Return for England and
Wales as at 31st October, 1946, with
Appendix A (Cmd. 6960) 6d. (by post 7d.)

NOTES

1. An alphabetical index of Regions and Counties is shown on page 78.
2. The data shown in this Appendix has been based on Appendix B to the Housing Return for England and Wales for the 31st January, 1946, and includes additions and alterations notified in monthly Progress Reports up to and including October, 1946, received from Local Authorities. In cases where entries in the Progress Reports were incomplete or inconsistent the information contained in this Appendix has been compiled in the light of evidence contained in the Census Return and in the Progress Reports as a whole. The tabular statement shows the position as at the 31st October. In certain instances Progress Reports have not been received in time for inclusion. Those local authorities in respect of whom Progress Reports for August, September and October, 1946, have not been received are marked with †, § and * respectively. The data in respect of permanent housing shown for such authorities relates to the position as at the 31st July, 31st August and 30th September, 1946, respectively.
3. In certain cases temporary houses have been handed over to Local Authorities for occupation before all internal fittings have been installed. Where this has been done the number of temporary houses shown as completed (Column (13)) has been marked ø and the name of the Local Authority and the number of houses included in the figure shown in Column 13 which are not complete with all fittings is stated at the foot of the page.
4. Rebuilding of war destroyed houses. The data shown in Columns (6), (7) (17) and (18) has been revised in accordance with information received from local authorities in addition to that contained in Progress Reports, and from information received from the War Damage Commission. Certain information is still awaited in respect of some authorities. In such cases adjustments will be made in later Returns.
5. The term "under construction" in Columns (4), (6), (15) and (17), means that the contractor has actually begun work on the construction of the dwellings. In some instances work has begun on all dwellings in a particular contract; in a few cases it would appear that all the dwellings in a particular scheme have been shown as "under construction" on the Progress Report although work has not necessarily started on all of them.
6. In certain instances the Ministry of Works are undertaking the erection of groups of experimental permanent non-traditional houses on sites provided by housing authorities. These houses have been included in the data shown for the authorities concerned.
7. The number of temporary houses allocated to housing authorities is under constant review. Where the allocation is less than the number of sites available subsequent allocations may be made.
8. Where Tenders (or Estimates in the case of Direct Labour) for site development (Roads and Sewers) have been approved by the Ministry of Health but where work on the site has not yet begun, the sites have not been shown as under development (Column (2)).
9. In the few instances where sites developed before the war by private enterprise are being taken over by the local authority but possession has not yet been obtained, the relevant figures have been entered in Column (2).
10. Permanent Houses. The figures in all columns except Columns (4) and (5) are not included in any other column. "Houses under construction" (Column (4)) and "Houses completed" (Column (5)) are included in "Houses on Tenders Approved" quoted in Column (3).
11. It should be noted that the greater part of the housing provision for the County of London is made by the London County Council. It is not, therefore, possible to relate the data shown in this Appendix for each Metropolitan Borough to the housing needs of the population of the Borough.
The bulk of the preliminary work in connection with the provision of permanent houses made by certain housing associations in the County of London area is undertaken by the Metropolitan Boroughs. The information is included in Columns (14), (15) and (16).
Certain data on temporary houses in respect of the London County Council and the Metropolitan Boroughs have been consolidated.
12. The total number of dwellings on licences issued (Column 14) includes licences issued both in regard to new dwellings and to the rebuilding of war destroyed dwellings. An analysis of the respective numbers falling into these two categories is shown in Tables 4a, 4b and 5a of Appendix A to the Housing Return.
The total number of licences shown in Column 14 also takes into account information received from local authorities in respect of any licences that may have lapsed. The data received in respect of licences may not in all cases be complete and may, therefore, be subject to correction.
13. The numbers of houses on licences issued, under construction and completed by Housing Associations is included in Columns (14), (15) and (16).
