## REPORT

## ON THE

SEVENTH CENSUS OF THE POPULATION OF  
THE UNION OF SOUTH AFRICA, 7th MAY, 1946.

iii

VOLUME I.—GEOGRAPHICAL DISTRIBUTION OF THE  
POPULATION.

## INTRODUCTION.

This is the first volume on the population census taken on 7th May, 1946, and shows the final census figures for the distribution of each race of the population in various geographical areas, viz. provinces, magisterial districts and towns, and also the distribution of the Native (Bantu) population in twenty-two different types of area.

The skeleton map included in this volume shows the boundaries of each province and magisterial district, but it is not possible to show the location of all the towns, and consequently only the larger towns are shown on the map. However, table 8 of this report shows in which magisterial district each town and village falls. Where the town and district have the same name, the name has not been repeated.

The following explanations are given of the various terms used in this volume:

1. **Areas.**—(a) *Provinces.*—The Union of South Africa comprises four provinces, viz. the Cape of Good Hope (usually called the Cape), Natal, Transvaal and Orange Free State. The predominantly Native areas of the Transkeian Territories and Zululand are integral parts of the Cape Province and Natal respectively, and unless otherwise stated, the figures for the Cape Province and Natal include the figures for the Transkeian Territories and Zululand respectively.

(b) *Magisterial Districts.*—The magisterial district is primarily a sub-division of the Union for the suitable administration of Justice, but in actual practice it is a decentralized area for the administration of nearly all governmental work. The magisterial district is the unit for census enumeration, and at the 1946 census there were 257 magisterial districts, as shown in table 7 of this volume. Strictly speaking, Walvis Bay is not a magisterial district, but it is a detached part of the Cape Province, although administered by the South West Africa Administration. It has, therefore, been included in table 7 as a separate magisterial district.

It will be found that in many cases the figures for magisterial districts for the censuses of 1936 and 1921 as shown in table 7 of this volume, differ from the figures for those districts as published in the 1936 and 1921 census reports. This is accounted for by changes in district boundaries between 1921 and 1946. Where necessary the 1936 and 1921 census figures for magisterial districts have been adjusted to conform to the boundaries as existing at the 1946 census. Where new districts have been established since 1921, population figures for the 1921 census and also for the 1936 census if necessary, have been obtained. In all cases, therefore, the figures for magisterial districts for 1946, 1936 and 1921 are strictly comparable, as they cover exactly the same area as existing at the 1946 census. Any changes in district boundaries subsequent to the 1946 census have of course not been taken into account.

(c) *Urban Areas.*—All towns and villages, irrespective of size, which have some form of urban local government constituted under any law, such as municipal councils, village management boards, health committees, etc., are classified as urban.

## VERSLAG

## OOR DIE

SEWENDE BEVOLKINGSENSUS VAN DIE  
UNIE VAN SUID-AFRIKA, 7 MEI 1946.BOEKDEEL I.—GEOGRAFIESE VERSPREIDING VAN DIE  
BEVOLKING.

## INLEIDING.

Hierdie boekdeel is die eerste oor die bevolkingsensus wat op 7 Mei 1946 opgeneem is, en toon die finale sensusyfers vir die verspreiding van elke ras van die bevolking in verskillende geografiese gebiede, nl. provinsies, magistraatsdistrikte en dorpe, en ook die indeling van die Naturelle-(Bantoe-) bevolking in twee-en-twintig verskillende tipes gebiede.

Die sketskaart in hierdie boekdeel toon die grense van elke provinsie en magistraatsdistrik, maar dit is nie moontlik om die ligging van al die dorpe te toon nie en gevolglik word slegs die groot dorpe op die kaart aangegee. Tabel 8 van hierdie verslag toon egter in watter magistraatsdistrik elke dorp en dorpie val. Waar die dorp en die distrik dieselfde naam het, is die naam nie herhaal nie.

Die verskillende benamings wat in hierdie boekdeel gebruik word, word hieronder verklaar:

1. **Gebiede.**—(a) *Provinces.*—Die Unie van Suid-Afrika bestaan uit vier provinsies, nl. die Kaap die Goeie Hoop (gewoonlik Kaapland genoem), Natal, Transvaal en die Oranje-Vrystaat. Die Transkeigebied en Zoeloeland wat oorwegend deur Naturelle bewoon word, is integrerende dele van onderskeidelik die Kaapprovinsie en Natal en tensy anders vermeld, is die syfers vir die Transkeigebied en Zoeloeland by die syfers vir onderskeidelik die Kaaprovinsie en Natal ingesluit.

(b) *Magistraatsdistrikte.*—Die magistraatsdistrik is in die eerste instansie 'n onderafdeling van die Unie vir doeltreffende regstelling, maar in werklikheid is dit 'n gedesentraliseerde gebied vir die administrasie van byna alle staatswerk. Die magistraatsdistrik is die eenheid vir die sensusopname en by die 1946-sensus was daar 257 magistraatsdistrikte, soos in tabel 7 van hierdie boekdeel getoon. Streng gesproke, is Walvisbaai nie 'n magistraatsdistrik nie, maar wel 'n afsonderlike deel van die Kaaprovinsie, alhoewel dit deur die Administrasie van Suidwes-Afrika bestuur word. Dit is dus as 'n afsonderlike magistraatsdistrik by tabel 7 ingesluit.

Daar sal gevind word dat die syfers vir magistraatsdistrikte vir die sensusopnames van 1936 en 1921 soos in tabel 7 van hierdie boekdeel aangegee, in baie gevalle verskil van die syfers vir dié distrikte soos in die 1936- en 1921-sensusverslae gepubliseer. Die rede hiervoor is die veranderings in distriksgrense tussen 1921 en 1946. Waar nodig is die 1936- en 1921-sensusyfers vir magistraatsdistrikte aangepas by die grense, soos hulle by die 1946-sensus bestaan het. Waar nuwe distrikte sedert 1921 gestig is, is bevolkingsyfers vir die 1921-sensus en ook vir die 1936-sensus, indien nodig, verkry. In alle gevalle is die syfers vir die magistraatsdistrikte vir 1946, 1936 en 1921 streng vergelykbaar aangesien hulle presies dieselfde gebied as wat by die 1946-sensus bestaan het, dek. Enige veranderings in die distriksgrense na die 1946-sensus is natuurlik nie in aanmerking geneem nie.</p

The following abbreviations have been in use in tables 8 and 9 to show the various types of urban area, etc.:—

*Urban.*

- |            |   |
|------------|---|
| M.....     | Municipality (including Boroughs in Natal,<br>and City Councils and Town Councils<br>in the Transvaal). |
| V.M.B..... | Village Management Board.   |
| V.C.....   | Village Council.  |
| T.B.....   | Township Board.   |
| H.C.....   | Health Committee.   |
| L.B.A..... | Local Board Area.   |
| L.A.....   | Local Area.   |
| P.H.A..... | Public Health Area.   |

*Not Urban* [See (d) below].

- R.T. .... Rural Township.  
R.S. .... Rural Suburb.

(d) *Rural Areas*.—The whole area outside the jurisdiction of the various urban areas is classified as Rural. This area consists chiefly of farms and native reserves, but also includes rural townships and rural suburbs. These rural townships and rural suburbs have no form of local government at present, but they will receive urban status if and when the need for local government arises. Rural suburbs, however, are often incorporated in the parent municipality, instead of being made separate urban areas.

The twenty-two types of area, as shown in table 10, do not coincide exactly with the urban and rural area shown in table 7, as some of the areas shown in table 10, particularly mine and industrial compounds, may fall in either urban or rural areas.

2. **Races.**—There are four distinct racial groups in the Union as follows:—

- (a) *European (white)*.—These are white persons of pure European descent as defined by the South Africa Act and by decisions of the Supreme Court.
  - (b) *Natives (Bantu)*.—Persons of the various Bantu tribes of Southern Africa, the chief of which are the Zulu, Basuto, Xosa, Pondo, Barolong, Shangaan, Fingo, Mashona, Bechuana, Tembu, Baca, Bovenda, N'debele, Pandomise, Swazi, Tonga and Mozambique.
  - (c) *Asiatics*.—This group consists chiefly of natives of India and their descendants. There are also a few thousand Chinese and small numbers of various other Asiatic nationalities.
  - (d) *Mixed and Other Coloured*.—This group comprises all persons who are not of pure European, Bantu or Asiatic descent, and consists chiefly of the Cape Coloured, Cape Malays and persons of mixed parentage, together with the remnants of the few pure-blooded stocks of Hottentot, Bushman, Griqua and Namaqua.

The tabulated results of the Census, viz. Ages, Languages, Occupations, etc., will be published in separate volumes as the information becomes available.

J. I. RAATS,  
*Director of Census and Statistics.*

Onderstaande afkortings is in tabelle 8 en 9 gebruik om die verskillende tipes stedelike gebied, ens., te toon:

Stedelik.

- |           |  |
|-----------|--|
| M.....    | Munisipaliteit (met inbegrip van „boroughs“ in Natal en stads- en dorpsrade in Transvaal). |
| V.M.B.... | Dorpsbestuursraad.   |
| V.C....   | Dorpsraad.   |
| T.B....   | Dorperaad.   |
| H.C....   | Gesondheidskomitee.  |
| L.B.A.... | Plaaslike Bestuur.   |
| L.A....   | Plaaslike gebied.  |
| P.H.A.... | Openbare gesondheidsgebied.  |

*Nie-stedelik [sien (d) hierna].*

- R.T..... Plattelandse dorp.  
R.S..... Plattelandse voorstad.

(d) *Plattelandse gebiede*.—Die hele gebied buite die regsgebied van die verskillende stedelike gebiede word as plattelands geklassifiseer. Hierdie gebied bestaan hoofsaaklik uit place en Naturellerereserves, maar omvat ook plattelandse dorpe en plattelandse voorstede. Hierdie plattelandse dorpe en plattelandse voorstede het tans geen vorm van plaaslike bestuur nie, maar hulle sal stedelike status ontvang wanneer die behoefte aan 'n plaaslike bestuur ontstaan. Plattelandse voorstede word egter dikwels by die stammunisipaliteit ingelyf in plaas daarvan dat hulle afsonderlike stedelike gebiede gemaak word.

Die twee-en-twintig tipes gebiede, soos in tabel 10 aangegee, stem nie presies ooreen met die stedelike en plattelandse gebiede in tabel 7 aangegee nie, aangesien sommige van die gebiede wat in tabel 10 verskyn, veral myn- en nywerheidskampongs, in stedelike of in plattelandse gebiede kan val.

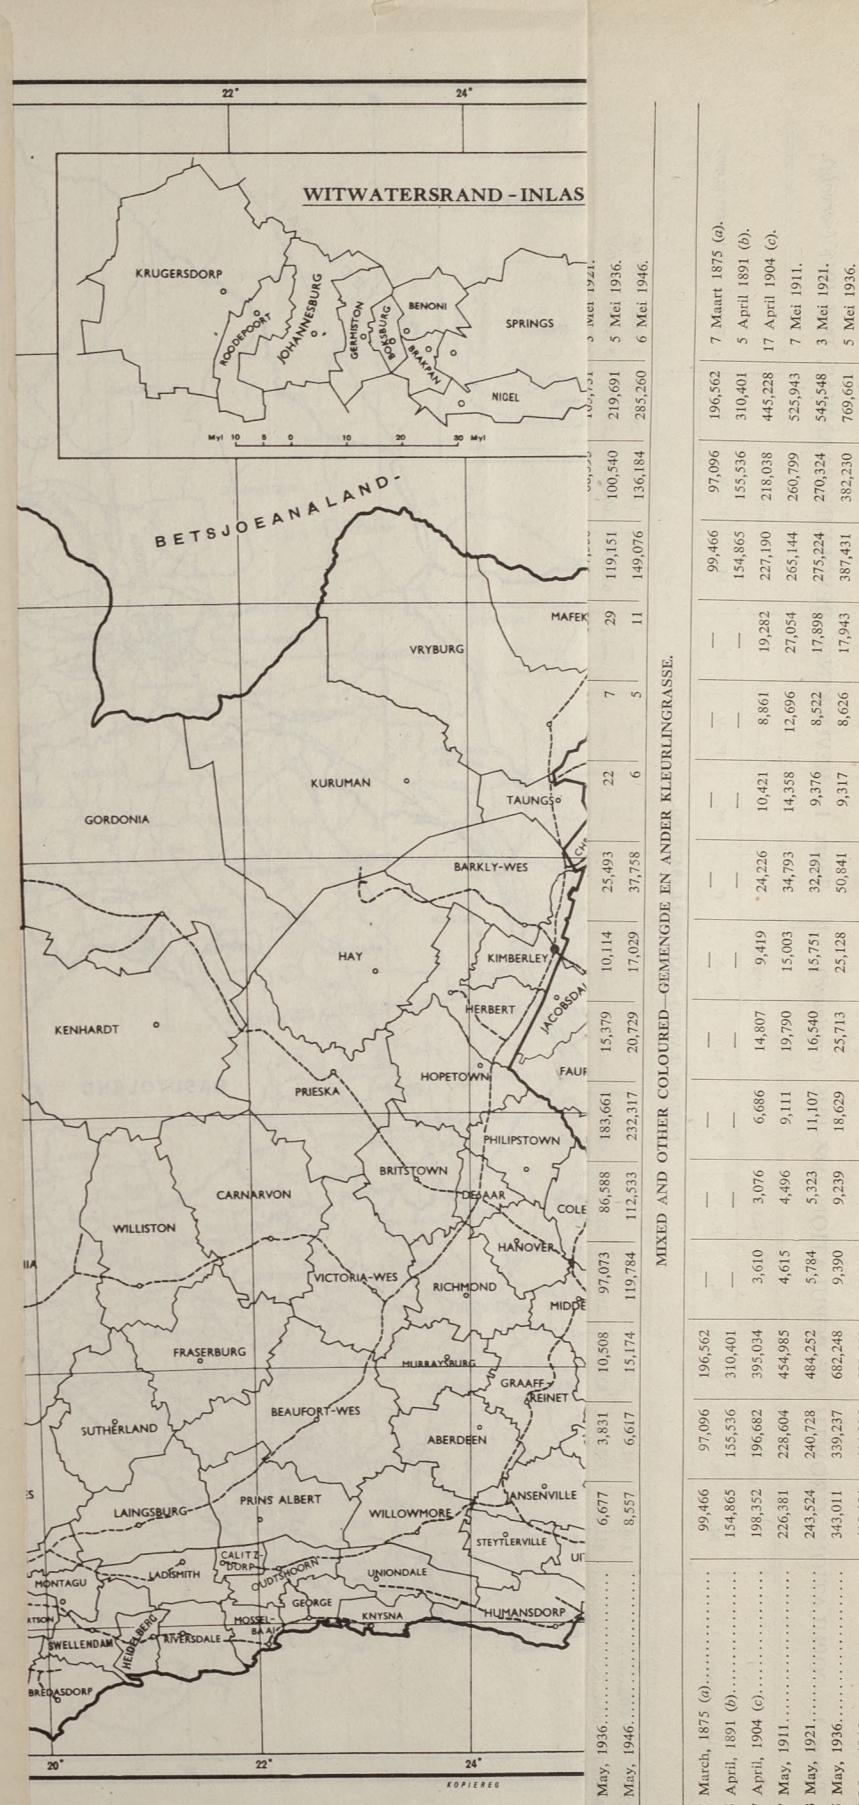

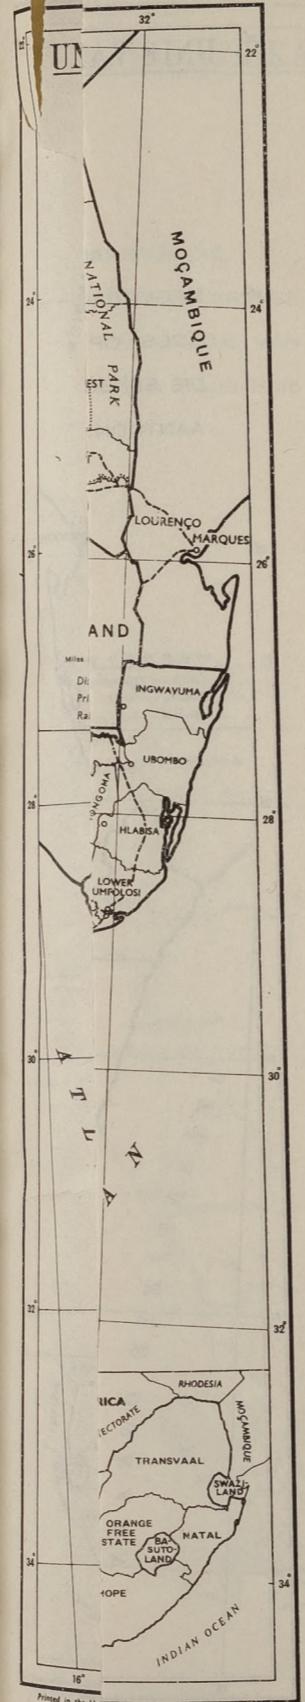

2. **Rasse.**—Daar is vier afsonderlike rassegroepe in die Unie, naamlik:—

- (a) *Blankes (wit)*.—Dit is witmense van suiwer blanke afkoms, soos in die Zuid-Afrika Wet en by uitsprake van die Hooggeregshof omskryf.
  - (b) *Naturelle (Bantoe)*.—Persone van die verskillende Bantoe-stamme van Suidelike Afrika waarvan die vernaamste Zoeloe, Basoeto, Xhosa, Pondo, Barolong, Sjangaan, Fingo, Masjona, Betsjoeana, Temboe, Baca, Bavenda, N'debele, Pandomise, Swazi, Tonga en Mosambiek is.
  - (c) *Asiate*.—Hierdie groep bestaan hoofsaaklik uit inborlinge van Indië en hul afstammelinge. Daar is ook 'n paar duisend Sjinese en klein getalle van verskillende ander Asiatevolke.

(d) *Gemengde en ander Kleurlingrasse*.—Tot hierdie groep behoort alle persone wat nie van suiwer blanke, Bantoe- of Asiatische-afkoms is nie en dit bestaan hoofsaaklik uit die Kaapse Kleurlinge, Kaapse Maleiers en persone van gemengde afkoms, tesame met die oorblifselfs van die paar stamme van suiwer bloed soos die Hottentotte, Boesmans, Griekwas en Namakwas.

Die getabellieerde resultate van die Sensus, nl. Leeftye, Tale, Beroepe, ens., sal, namate die informasie beskikbaar gestel word, in afsonderlike boekdelle gepubliseer word.

J. I. RAATS,  
Direkteur van Sensus en Statistiek.
