Cmd. 7152

Housing Return for England and Wales as at 31st May, 1947

This return is the seventeenth of a series of monthly progress statements on housing in England and Wales. The figures in the present return show the position up to 31st May, 1947, and relate from 1st April, 1945. The return includes an Appendix A giving general tables relating to England and Wales as a whole and to various subdivisions by types of authority and by geographical distribution.

The *first issue included general explanatory notes which have not been repeated in this return.

A detailed statement for each of the 1,469 housing authorities will shortly be published as a separate document (Appendix B.).

* Cmd. 6744 (H.M.S.O. 3d.).

TOTAL PROVISION OF HOUSING ACCOMMODATION SUMMARY

The total number of new permanent houses, flats, temporary houses and other units of family accommodation provided has been as follows:—

Appen Endomits: Augustania August Nage Augustania August	At 30th Ap		At 31st May 1947.	eo e trasfi	Increase	TTO CONTROL

Grand Total		372,308	3	390,997		18,689

(a) All in the London Region. Programme was completed in August, 1946.
(b) The numbers of family units of accommodation shown are included in those quoted in a subsequent paragraph in the Return dealing with temporary accommodation in Service Camps. These represent the numbers of units occupied in camps that are at least up to the standard of the temporary accommodation already included in the summary.

(c) Provisional.

The grand total of new housing accommodation provided to the 31st May, does not include the number of family units of accommodation secured by the repair of unoccupied war damaged dwellings and the conversion and adaptation of existing premises undertaken by private builders under licence in the year between 31st March, 1945, and 31st March, 1946. This information became available for the first time in regard to April, 1946.

Besides the total provision of additional accommodation as set out above, 717,000 dwellings which were damaged during the war but not so severely as to be unfit for occupation were repaired during the twenty-six months ending 31st May, 1947.

See Appendix A, Summary Tables A and B.

HOUSES UNDER CONSTRUCTION—SUMMARY

The number of new permanent houses and flats and of temporary houses under construction at 30th April, 1947, and at 31st May, 1947, was as follows:—

		At 30th April,	At 31st May,	Increase or
New Permanent Houses		1947.	1947.	decrease
Local Authorities		145,260	152,619	7,359

See Appendix A, Summary Table C.

ACQUISITION AND DEVELOPMENT OF SITES—LOCAL AUTHORITIES

The site position of the Local Authorities at 31st May, 1947, compared with that at 31st July, 1945, and that at 30th April, 1947, was as follows:—

with that at 31st July, 1945, and th	iat at 30th Apr	11, 194/, was a	3 Ionows.

PERMANENT HOUSES-LOCAL AUTHORITIES

The following figures show the progress made on the construction of permanent houses by Local Authorities by 31st May, 1947, compared with 31st July, 1945, and 30th April, 1947. Experimental houses erected on behalf of the local authorities by the Ministry of Works and non-traditional houses have been included:—

	31st July,	30th April,	31st May,
	1945	1947	1947
Tenders authorised to be obtained	21,687	300,012	308,297
Tenders approved	731	261,910	271,552
Tenders rejected	Nil	12,150	12,915
Houses—construction begun	Nil	178,414	192,337
Houses—under construction at			
end of period	Nil	145,260	152,619
Houses completed	Nil	33,154	39,718

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately on page 7. Figures in respect of non-traditional houses are also shown separately below.

See Appendix A, Table 2.

Appendix A, Table 2, contains information in respect of building schemes for permanent houses. This information is shown in Tables 2 (a) and 2 (b) for traditional and non-traditional types respectively, the sum of these two Tables being shown at Table 2.

PERMANENT NON-TRADITIONAL HOUSES

With the object of accelerating the rate at which houses can be erected a number of methods of house construction have been evolved which, for ease of reference, are known as "non-traditional". Included in this category are types that have been referred to as "permanent prefabricated". In Appendix A, Table II, a list of the main types is given together with details regarding the numbers of each type for which tenders have been approved and the numbers completed. Information regarding the development of sites and the preparation of housing schemes for non-traditional houses is included in the figures shown in Appendix A, Tables I, 2, 8 and 9, and is shown in detail in Table 2(b).

The position as at 31st May, 1947, compared with that at 30th April, 1947, was as follows:—

	30th April,	31st May,
· THE STATE OF THE	1947	1947
Tenders approved	56,754	59,992
Houses—construction begun	32,657	36,546
Houses—under construction at end of period	27,495	30,133
Houses completed	5,162	6,413

A total number of 29,776 B.I.S.F. and 1,380 Howard houses have been allocated to Local Authorities. 14,015 applications have been received from Local Authorities for Airey Rural component sets.

See Appendix A, Table 2(b) and 11.

ERECTION OF TEMPORARY HOUSES

The comparative progress on slabbing and erection of temporary houses by 31st May, 1947, compared with 31st July, 1945, and 30th April, 1947, has been as follows:—

		/	31st July,	30th April,	31st May,			
			1945	1947	1947			
Slabbing begun			21,496	114,337	115,728			
Slabbing completed			7,685	102,200	104,709			
Houses—erection begun			4,352	96,997	99,490			
Houses—under erectio	n at	end		Total Replacement Prof.				
of period			2,651	5,541	5,025			
Houses erected			1,701	91,456	94,465			
See Appendix A, Table 3.								

57474. A 3

In addition to the number of houses shown above as erected 214 houses have been completed in all respects but can not be handed over for occupation until connected to electricity and other services. The numbers in each Region are as follows:—

Region—Northern ... 145 Southern ... 69

PERMANENT HOUSES—UNDER LICENCE

The number of houses on licences issued to private persons and the number of houses completed have been as follows up to the end of April and May, 1947, respectively:—

Exact Control of the	30th April,	31st May,
Number of houses on licences issued	73,182	75,057
Houses—construction begun	63,572	65,796
Houses—under construction at end of period	26,530	25,672
Houses completed	37,042	40,124

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately on page 7.

The total number of houses on licences issued by the end of March has been arrived at after allowing for those licences notified as having lapsed.

See Appendix A, Table 4 (a).

PERMANENT HOUSES—HOUSING ASSOCIATIONS

The number of houses on licences issued or in respect of which approval has been given and the number of houses completed to the end of April and May, 1947, respectively, are as follows:—

	30th April,	31st May,
the store engrand with that the store	1947	1947
Number of houses on licences issued	529	515
Number of houses on approvals given	1,033	1,490
Houses—construction begun	757	1,217
Houses under construction at end of period	586	944
Houses completed	171	273
See Appendix A, Table	4 (b).	

HOUSES—GOVERNMENT DEPARTMENTS

The construction of houses is authorised by Government Departments for the families of police, prison staffs, the Defence Services and other Government employees. The number of houses for which tenders have been approved and the numbers completed to the end of April and May, 1947, respectively, are as follows:—

		30th Apr	ril, 1947	31st May, 1947		
	Per	manent ouses	Temporary houses	Permanent houses	Temporary houses	
Tenders approved	2	2,731	879	2,848	879	
TT	at	1,758	270	1,867	282	
	1	,617	140	1,682	102	
Houses completed	· A	141	130	185	180	

REBUILDING OF WAR DESTROYED HOUSES

The rebuilding of war destroyed houses by private builders to private contract can be undertaken only under licence. Rebuilding by Local Authorities can be begun with the approval of the Ministry of Health and War Damage Commission. The figures for May take into account information regarding houses approved and on licences issued and houses completed in earlier months which was not previously available. Information in respect of some Local Authorities is still incomplete and the figures quoted are subject to adjustment. The position at the end of May compared with that at the end of April, 1947, was as follows:—

				30th April,	31st May, 1947
Local Authorities—Houses appropriete Builders—Houses on lice	oved	 issued		6,808 20,741	7,024 21,826
Houses—construction begun— Local Authorities				6,874 17,671	7,121 18,899
Private builders Houses under construction at Local Authorities	end	of perio	od—	3,307	3,329
Private builders Houses completed—			A. Charge	12,338	12,679
Local Authorities Private builders				3,5 ⁶ 7 5,333	3,792 6,220

See Appendix A, Table 5 (a).

USE OF EXISTING PREMISES

Apart from new building additional accommodation for family units has also been provided by Local Authorities and by private builders under licence by the repair or adaptation of existing premises.

Information in regard to such provision made by Local Authorities has been published in earlier housing returns. Corresponding information relating to the provision made by private builders under licence was available for the first time in April, 1946. The data available may be summarised as follows:—

	F	amily Units of	of Accommodat	ion Provided	
O Local Authorities	n contracts let 1st January, 1946, to	1st January,	<i>April</i> , 1947	May, 1947	Total, April, 1945, to May, 1947
Conversions and adapta- tions	- 23,602	19,847	975	1,041	30,469
Repairs of unoccupied war-damaged dwellings	36,569		1,736	I,403	103,727
		the same property and the same of the	of Accommoda	tion Frontaea	
	On licenses 1st January, 31st May,	1946, to	April, 1947	May, 1947	Total

Repair of unoccupied war-damaged dwellings		t to yourne s at the end until it si	919	887	15,335
	See Appen	dix A, Tables	s 5 (b) and 6.		lates to c
57474					A 4

It is anticipated that revision will be necessary in respect of figures for the repair of unoccupied war damaged dwellings. The existing figures should therefore be regarded as provisional.

OTHER HOUSING ACCOMMODATION

A total of 30,853 flats and houses of less than 12 rooms was released from occupation by the Services and Government Departments over the period 1st May, 1945, to 30th April, 1947. Some of the dwellings on release were taken over by the Local Authorities.

The total number of requisitioned dwellings held by the Local Authorities for residential purposes was 96,242 at the end of May; of these 60,577 were situated in the London region.

Of the total of 96,242 requisitioned dwellings held by the Local Authorities, 69,275 were held at 31st March, 1945. From that date to 30th April, 1947, there was a net increase in unoccupied houses requisitioned by Local Authorities for residential purposes of 26,786 and a further 181 were requisitioned in May, 1947, making a net increase of 26,967 houses in the 26 months to 31st May, 1947.

SERVICE CAMPS—TEMPORARY ACCOMMODATION

In addition to accommodation referred to above, there were at 31st May, 1947, 15,118 families occupying accommodation in 1,071 camps that were redundant to the needs of the Services or Government Departments, which had been offered to Local Authorities for housing purposes and were considered suitable for those purposes. In the main these camps had been taken over by Local Authorities as part of their pool of housing accommodation or were being managed by them on behalf of the Ministry of Health.

Accommodation for a further 1,229 families was occupied in 192 camps which are still required for Government purposes, or are unsuitable for housing, or are still subject to decision as to their future use.

PROGRESS OF INDIVIDUAL HOUSING AUTHORITIES

Of the total of 1,469 Authorities there were at the 31st May, 1947, 9 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had as yet no sites of which possession had been obtained. Of these Authorities 5 were urban areas (mainly small urban districts) and 4 rural districts; the population in these areas represents o. II per cent. of the total population of England and Wales. There were 8 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had not obtained authority to go to tender on a specific scheme. The population in the area of these Authorities represents 0.08 per cent. of the total population of England and Wales.

See Appendix A, Table 7.

HOUSING LABOUR FORCE

Returns of the number of operatives aged 16 and over employed on the construction of new houses are now based on a new system of collecting the data recently instituted by the Ministry of Works. The estimate of 207,500 so employed in England and Wales at the end of May may still be incomplete and, therefore, subject to adjustment. It should be noted that this estimate relates to operatives engaged both on the construction of permanent houses

and on the preparation of housing sites. In view of the change in the basis of collecting the data, and of the possible incompleteness of the new return, comparisons of the numbers engaged on new housing at end of January and at end of May respectively might be misleading. The number employed on war damage repairs decreased from 112,100 at the end of April, 1947 to 105,100 at the end of May.

BUILDING MATERIALS AND COMPONENTS

Details of production of the more important building materials and components are included in Appendix A. The information relates to Great Britain as a whole; separate details in respect of England and Wales are not available. It should be noted that the production of the items listed is utilised not only for the construction of and installation in new dwellings but also for repairs, replacements and building work other than house building.

In general the production in any given month is not known until towards the end of the following month. It is not therefore always possible for the complete data relating to the month under review to be available in time for inclusion in the Return.

See Appendix A, Table 13.

APPENDIX A-NOTES

The material contained in this return is derived from a census of the housing position at 31st December, 1945, and the reports of subsequent progress completed by the Local Authorities. Certain information is obtained from Government Departments. Where this is the case the items concerned have been annotated. At the 14th June, 1947, reports of progress had not been received from I Authority for the months December-May, from I Authority for the months January-May, from 3 Authorities for the months February-May, from I Authority for the months March-May, from 2 Authorities for the months April and May and from 34 Authorities for the month of May. Reports of progress in May were due to be received by the 5th June, 1947. Reports received after 14th June arrived too late to be included in the figures shown in this report relating to progress in May. By 14th June, 1947 1,427 reports had been received.

Classification of Urban and Rural Authorities

Small Towns

The classification of Urban Authorities other than the L.C.C. and Metropolitan Boroughs into Large Towns and Cities, Medium Towns and Cities and Small Towns has been made in terms of population. The classification has been made as follows based on the estimated population at mid-1939 as returned by the Registrar General.

Large Towns and Cities ... over 75,000 Medium Towns and Cities ... over 25,000 and up to 75,000 25,000 and under

A 5

The Rural Authorities comprise all Rural District Councils.

57474

The total population of England and Wales as at mid-1939 is divided between the various groups of cities and towns and Rural Authorities as follows:—

Urban Areas	Nu	mber of Housing Authorities	Estimated Population	Percentage of total in England and Wale
Large Towns and Cities Medium Towns and Cities Small Towns		81 218 665	14,655,000 9,116,000 6,399,000	35·3 22·0 15·4
L.C.C. and Metropolitan Boroughs	d russ	30	4,013,000	9.7
Rural Authorities		475	7,277,000	17.6
Total	dent h	1,469	41,460,000	100.0

Regions

Certain changes in the composition of the Northern, North Midlands and North Western Regions were made as from 1st April, 1946. As from the same date the "North Eastern Region" is to be known as "East and West Ridings". The Description and composition of the Regions are now as follows—

the Description and c	omposition of the Regions are now as follows—
Northern	Cumberland, Durham, Northumberland, Westmorland and the North Riding of Yorkshire.
East and West Ridings.	The East and West Ridings of Yorkshire.
North Midlands	Derbyshire (except the High Peak District), Leicestershire, Lincolnshire, Northamptonshire (including the Soke of Peterborough), Nottinghamshire and Rutland.
Eastern	Bedfordshire, Cambridgeshire (including the Isle of Ely), Essex, Hertfordshire, Huntingdonshire, Norfolk and Suffolk, except such parts of Essex and Hertfordshire as are within the London Region.
London	London (Administrative County), Middlesex and parts of Kent, Essex, Hertfordshire and Surrey.
Southern	Berkshire, Buckinghamshire, Dorset, Hampshire (including the Isle of Wight) and Oxfordshire.
South Western	Cornwall, Devon, Gloucestershire, Somerset and Wiltshire.
Wales	The whole of Wales and Monmouthshire.
Midlands	Herefordshire, Shropshire, Staffordshire, Warwickshire and Worcestershire.
North Western	Cheshire, Lancashire and the High Peak District of Derbyshire.
South Eastern	Sussex, Kent and Surrey except such parts of Kent and Surrey as are within the London Region.

The changes in regional composition referred to above should be borne in mind in comparing the regional classifications shown in the Tables in Appendix A in this return with those shown in returns published before 30th April.

The total population of England and Wales as at mid-1939 was divided between the Regions as now defined as follows:—

	Number of Housing Authorities	Population at Mid-1939	Percentage of total in England and Wales
Northern	 123	3,003,100	7.3
East and West Ridings	 118	3,975,700	9.6
North Midlands	 131	3,065,100	7.4
Eastern	 159	2,691,400	6.5
London	 96	8,746,500	21.1
Southern	 109	2,317,400	5.6
South Western	 167	2,672,700	6.5
Wales	 168	2,465,200	5.9
Midlands	 121	3,986,500	9.6
North Western	 178	6,236,500	15.0
South Eastern	 99	2,299,900	5.2
Total	 1,469	41,460,000	100.0

Tables 8 and 9

Table 8 shows the numbers of sites at different stages from the initial stage of selection to the stage when the site is available for construction.

Between the selection of the site and the completion of houses ready for occupation there is a long chain of events equivalent to the "pipeline" of materials and components of mass production in the engineering industry.

In general the use of the site for housing requires consideration from the point of view of regional and town planning, local transport facilities and so on. Sites have then to be acquired, a layout agreed, and roads, sewers and other services provided generally in advance of beginning the actual erection of houses. The actual construction of the houses themselves is the final process in the chain of production, which also, of course, comprises the fabrication of building materials and components ready for use.

During the early stages of expanding the volume of house building, the number of house sites under development and the number of houses under construction and so on will continue to rise in advance of a corresponding increase in the number of houses completed. As the production of houses by Local Authorities evolves into a smooth and continuous cycle of operations, the number of houses or house sites at the various stages in the chain of production will tend to be roughly equal.

Table 9 shows the number of houses at different stages towards completion beginning with the preparation of house plans.

Many of the initial stages in the erection of houses such as the preparation of house plans, bills of quantities and the chain of events leading to the acceptance of a tender are, in many cases, undertaken concurrently with the work of developing the corresponding sites.

Note:—The figures shown are on a calendar month basis except those relating to temporary houses which are on a "four week" or "five week" basis. Due to the incidence of the Christmas holiday five "five week" months have been included in 1946, there being two such months in the fourth quarter of that year.

New Permanent Houses (Column 2) includes war destroyed houses rebuilt. Information regarding accommodation provided in Service Camps and Requisitioned Properties classified by Urban and Rural Areas is not available.

A dash (—) represents "Nil".

The total number of family units of accommodation provided in Service Camps (Col. (7)) takes into account a reduction of 28 units in February, 1947.

Note.—Dwellings on tenders approved by Government Departments up to the end of the 3rd Quarter, 1946, have been shown as approved in that quarter. The actual dates on which approval was given are not available.

The total number of houses on licences issued (Column (3)) has been arrived at after allowing for licences notified as having lapsed. The information shown in Section B and C of the Table relates to the total number of houses on licences issued as at the end of May, 1947.

A dash (—) represents "Nil".

Note.—The number of sites at each stage includes every site which has reached that stage or a later stage towards the erection of a house. House sites shown in Col. 7 are included only in Cols. 2 and 3.

Reductions as compared with previous months in the number of houses for which sites have been agreed or possession obtained (Cols. (2) and (3)) are due to the abandonment of projects previously reported.

Reductions as compared with previous months in the number of houses for which site layout plans have been approved or development begun before the erection of dwellings (Cols. (4) and (5)) are due to the decision to develop the site concurrent with the erection of dwellings, which are shown in Column (7).

Note.—The number of houses at each stage includes every house which has reached that stage or a later stage towards the erection of a house

This table includes all permanent houses, traditional and non-traditional. Details in respect of these types are shown separately in Table No. 2 (a) and No. 2 (b) respectively. Details of non-traditional houses by types are shown in Table No. 11.

The above figures do not include houses built in replacement of those destroyed during the war, which are shown in Table No. 5a.

Note.—The number at each stage includes every site or house which has reached that stage or a later stage towards the erection of a house.

Sites the use of which has been agreed or of which possession has been obtained and originally intended for the erection of temporary houses are in some instances now to be used for the erection of permanent houses. For this reason strict comparison with the corresponding figures shown in previous returns is not possible.

Information in respect of columns 6-10 is received from the Ministry of Works.

\$ Thirteen week period. \$ Thirteen week period. † Four week period.

\$ Twenty-six week period.

Note.—Houses on licences issued to the end of December, 1945, cannot be sub-divided between those intended for owner occupation or for sale and those to be available for letting (Cols. 2 and 3). The classification under these two heads in Sections B and C of the Table relates only to licences issued from January, 1946, to May, 1947,

The total number of houses on licences issued has been arrived at after allowing for licences notified as having lapsed. The information shown in Sections B and C of the Table relates to the total number of houses on licences issued as at the end of May, 1947.

Information in respect of new dwellings being built by Housing Associations now being shown in Table 4(b), was in months prior to August, 1946 included with dwellings being erected by private builders under licence. For this reason strict comparison between this Table and Table 4 in such Returns is not possible.

(a) Estimated figures.

Note.—It is now estimated that there were 708,000 occupied war damaged dwellings repaired between April, 1945, and end of April, 1947, in addition to the repair of unoccupied (severely damaged) war damaged dwellings shown above. A further 9,000 occupied dwellings were repaired in May, making a total of 717,000 repaired to the end of that month.

Information for the period April to December, 1945, is not available in respect of Columns 2 and 5: and in respect of Column 6 is available from April, 1946, onwards. The classifications in Sections B and C relating to houses on contracts let and on licences issued covers the period January 1946, to May, 1947, and as regards houses completed under licence the period April, 1946 to May, 1947.

Note.—Information relating to contracts let by local authorities and to licences granted to private builders (Cols. 2 and 4) is not available for the period April to December, 1945. The classification under these two heads in Sections B and C of the Table relates only to family units of accommodation on contracts let or on licences granted from January, 1946, to May, 1947, inclusive. In respect of Col. 5 information is available only from April, 1946, onwards. The classification in Sections B and C of this column relates only to that period.

Note.—The number of housing authorities at each stage in the above table is included in the figure at each subsequent stage towards the completion of building schemes, e.g., authorities without authority to obtain tender on a specific scheme appear at each subsequent stage.

The greater part of the housing provision for the County of London area is made by the London County Council and the fact that no tenders have yet been approved for a number of Metropolitan Borough Councils does not mean that provision is not being made for the needs of those Boroughs.

This table in Returns up to that for 31st December, 1946 included information on the numbers of Local Authorities with no sites of which possession had been obtained or for which plans had been approved. The inclusion of this information has been discontinued in view of the small numbers involved. Summarised figures are quoted on page 8 of the Return.

(8) German Prisoners of War engaged on preparation of Housing Sites	6,	766	14,272		14,001	

NOTE

(a) Provisional.

(b) Operatives engaged on repair both of unoccupied (i.e. severely damaged) war damaged houses and upon repair of war damaged occupied houses.

(c) These figures, derived from a new system of collecting the data, may be incomplete. Comparisons with the number employed in the comparable categories at the end of January, might be misleading. These figures do not include the number of Building and Civil Engineering workers directly employed by Local Authorities. At the end of May, the number of such workers in England and Wales was 19,115.

(d) This estimate is based on the Ministry of Works census taken at the end of November, 1946.

(e) This estimate relates to men engaged on work on existing premises resulting in additional accommodation but not necessarily in the provision of new family units.

(f) The numbers shown under this head may be overstated since they may include operatives employed on the construction of permanent houses.

(g) Source—Ministry of Works (based on Census and Sample Returns).
(h) Source—Ministry of Labour. Owing to differences in classification it is not possible to relate the number of "insured workers" to the number of "operatives employed."

(i) Revised.

Notes :-

(a) The total supplies of softwood timber shown in the above table necessarily relate to all qualities and dimensions although only certain qualities and dimensions are normally used in building. Softwood timber is required for use in the repair and construction of ships, the repair and construction of railway passenger and goods vehicles, furniture, agricultural equipment, packing cases, etc. An allocation between the various uses of the supplies available each quarter is agreed inter-departmentally and implemented through the timber licensing machinery.

There is a marked variation during the course of the year in the monthly flow of imports into this country, due both to the logging seasons in the country of origin and to the freezing of the ports in the Baltic Sea and in the Gulf of St. Lawrence. Normally the bulk of imports arrive in this country in the latter part of the calendar year.

(—) represents "Nil." (...) represents "Not available."

⁽b) Imports of roundwood logs of pine, spruce, etc., which averaged 71,666 standards in the pre-war years and 18,115 standards in 1946 are not included in the above table.

⁽c) Includes imports and home production during the period January to November on which information in respect of individual months is not at present available.

⁽d) The stock at the end of December, 1945 was 559,000 and 4,130 standards for imported and home produced timber respectively. There is normally a marked seasonal change in the stocks of imported timber correlated with the flow of imports.

Housing Return for England and Wales as at 31st May, 1947, with Appendix A (Cmd. 7152) 9d. (by post 10d.)

† Progress Reports for March, April and May, 1947, not received * Progress Reports for April and May, 1947, not received. § Progress Reports for May, 1947 not received.

Temporary houses completed but not occupied

See note 2.

NOTES

- 1. An alphabetical index of Regions and Counties is shown on page 78.
- 2. The data shown in this Appendix has been based on Appendix B to the Housing Return for England and Wales for the 31st January, 1946, and includes additions and alterations notified in monthly Progress Reports up to and including May, 1947, received from Local Authorities. In cases where entries in the Progress Reports were incomplete or inconsistent the information contained in this Appendix has been compiled in the light of evidence contained in the Census Return and in the Progress Reports as a whole. The tabular statement shows the position as at the 31st May. In certain instances Progress Reports have not been received in time for inclusion. Those local authorities in respect of whom Progress Reports for March, April and May, 1947, have not been received are marked with †, * and § respectively. The data in respect of permanent housing shown for such authorities relates to the position as at the 28th February, 31st March and 30th April, 1947, respectively.
- 3. The erection of some temporary houses has been completed but their connection to electric and other services has not been effected. Where this is the case the number of temporary houses shown as completed (Column (13)) has been marked ‡ and the name of the Local Authority and the number of houses completed but not ready for occupation is stated at the foot of the page. Such houses are not included in the number shown as completed in Column (13).
- 4. The term "under construction" in Columns (4), (6), (15) and (17), means that the contractor has actually begun work on the construction of the dwellings. In some instances work has begun on all dwellings in a particular contract; in a few cases it would appear that all the dwellings in a particular scheme have been shown as "under construction" on the Progress Report although work has not necessarily started on all of them.
- 5. In certain instances the Ministry of Works are undertaking the erection of groups of experimental permanent non-traditional houses on sites provided by housing authorities. These houses have been included in the data shown for the authorities concerned.
- 6. Where Tenders (or Estimates in the case of Direct Labour) for site development (Roads and Sewers) have been approved by the Ministry of Health but where work on the site has not begun, the sites have not been shown as under development (Col. (2)).
- 7. In the few instances where sites developed before the war by private enterprise are being taken over by the local authority but possession has not yet been obtained, the relevant figures have been entered in Column (2).
- 8. Permanent Houses. The figures in all columns except Columns (4) and (5) are not included in any other column. "Houses under construction" (Column (4)) and "Houses completed" (Column (5)) are included in "Houses on Tenders Approved" quoted in Column (3).
- 9. It should be noted that the greater part of the housing provision for the County of London is made by the London County Council. It is not, therefore, possible to relate the data shown in this Appendix for each Metropolitan Borough to the housing needs of the population of the Borough.

The bulk of the preliminary work in connection with the provision of permanent houses made by certain housing associations in the County of London area is undertaken by the Metropolitan Boroughs. The information is included in Columns (14), (15) and (16).

Certain data on temporary houses in respect of the London County Council and the Metropolitan Boroughs have been consolidated.

10. The total number of dwellings on licences issued (Column 14) includes licences issued both in regard to new dwellings and to the rebuilding of war destroyed

dwellings. An analysis of the respective numbers falling into these two categories is shown in Tables 4a, 4b and 5a of Appendix A to the Housing Return. The total number of licences shown in Column 14 also takes into account information received from local authorities in respect of any licences that may have lapsed. The data received in respect of licences may not in all cases be complete and may, therefore, be

11. The numbers of houses on licences issued, under construction and completed by Housing Associations is included in Columns (14), (15) and (16).

subject to correction.
