Local Housing Statistics

England and Wales

1. **Local Housing Statistics** has been prepared by the Ministry of Housing and Local Government and the Welsh Office to provide figures for individual local authority areas in a quarterly publication. It supersedes the former Appendix to the Housing Return for England and Wales.

The tables relating to the provision of new permanent housing and to slum clearance appear regularly in each issue. They show annual cumulative figures, those relating to slum clearance being published one quarter later than those relating to housing progress.

Supplementary tables vary in each issue and relate to subjects not available for regular publication. Tables in this issue show housing loans by local authorities in 1967/68; overspill (agreed town development schemes); standard improvement grants (provision of amenities in county boroughs and London boroughs 1967); effect of alterations in local authority areas on figures for dwellings started and completed during the 1st quarter 1968; alterations to the Classified Index of Local Authorities and New Towns.

Supplementary tables published in previous issues are listed on Page iv.

2. **Definitions.** Detailed definitions of the terms used are to be found in the quarterly publication *Housing Statistics, Great Britain*. It may be noted that:

"Dwellings" include all new permanent houses and flats.

"Houses" in relation to slum clearance action has the meaning attributed to it for the purposes of Part II and Part III of the Housing Act 1957 (see 7 below).

"Local authorities" include local housing authorities and new town authorities.

"Other public authorities" include Government Departments and housing associations.

"Regions" are the economic planning regions adopted in 1965. These only differ from the Standard Statistical Regions by including Poole Borough in the South West rather than the South East.

"Counties". Primarily the areas for which Lieutenants are appointed. Greater London as a whole is dealt with as a county. Stockport is dealt with as wholly in Chester. The part of Derbyshire in the North West region is shown as "Derbyshire, (High Peak District)".

3. **Local authority areas.** Local housing authorities may provide housing either within or outside their own areas. The figures shown in Table 5 against the name of the authority include dwellings situated outside its area, for which particulars of completions are given separately in Table 6. Authorities which have completed dwellings outside their area during the period are indicated thus § in Table 5. Authorities in whose area dwellings have been completed by another authority are indicated thus ||. The latter include areas in which dwellings have been completed by the Greater London Council or by housing associations assisted by the Greater London Council (see Table 7).

Other public sector and private sector dwellings are shown against the name of the authority in whose area they are situated.

4. **New towns.** Against the name of each new town are shown the dwellings built for the development corporation or for the Commission for the New Towns. These are all situated within the new town area and are not included in the figures for any other local authority. Private sector building within the new town area is included against the name of the authority or authorities in whose area the new town is situated, but is also shown separately in italics against the name of the new town and included in the new town total.

5. **Boundary changes.** Where the boundaries of local authority areas have been altered during the period shown, dwellings are shown in Table 5 against the local authority in whose area they are now situated.

6. **Adjustments to earlier returns** may occasionally result in a negative figure for an individual authority, when, for example, dwellings reported as started are subsequently withdrawn or there is a transfer from one sector to another.

7. **Unfit houses.** The figures in Table 5 show the number of houses in clearance orders and compulsory purchase orders confirmed under Part III of the Housing Act 1957, and houses demolished in clearance areas whether or not unfit. Houses demolished or closed elsewhere are those dealt with under Part II of the Act. The latter figures are adjusted to exclude houses reported as demolished which had previously been reported as closed. The London Borough distribution of houses demolished by The Greater London Council is shown in Table 8.

8. **Population.** The figures are the latest available estimates of the home population prepared by the Registrar General.

9. **Index.** An alphabetical list of all local authorities and new towns in England and Wales is published separately. In addition to page references this shows the type of each authority and the region and regional sub-division in which it is situated. A map of the regional sub-divisions is included.

In Local Housing Statistics and in the Index certain boroughs are listed for convenience by a name in common use which differs from their correct title. They are:—

Dartmouth	properly Clifton Dartmouth Hardness
Durham	properly Durham and Framwelgate
Launceston	properly Dunheved, otherwise Launceston
Salisbury (New Sarum)	properly New Sarum

Supplementary Tables

Housing loans by local authorities 1967/68

1. Table 9 shows loans for housing purposes made by local authorities under the Housing (Financial Provisions) Act 1958, Section 43; under the Small Dwellings Acquisition Acts; and to housing associations under Section 119, Housing Act 1957.

2. The figures are the total of monthly returns received up to the end of June 1968 for the 12 months ending 31st March 1968. Where returns were still outstanding at the end of June the total amount of loans is marked with an asterisk, indicating that it relates to less than a full year. Some returns have been included which were received too late for inclusion in the published national totals for the period, but all late returns for previous periods which were recorded during 1967/68 have been excluded. The figures are not therefore strictly comparable with the totals for England and Wales as shown in Housing Statistics No. 9.

3. Not all authorities have loan schemes. Those which do not are indicated by an obelisk. They do not include authorities whose schemes may have been temporarily suspended during the year.

4. Figures of amounts are rounded to the nearest thousand. In consequence the total for individual authorities, counties or regions are not always the exact sum of the separate items included. Small amounts of less than £500 (usually for conversions, improvements, etc.) are not shown, but are included in the totals.

5. Loans for house purchase may be made in installments. The number of dwellings is reported only when the first installment is advanced. The amounts may not therefore always be the total amounts to be advanced on the number of dwellings shown, and in a few instances an amount is shown without the corresponding dwellings (reported in a previous period).

Overspill

6. In Table 10 the figures relate to town development schemes under the Town Development Act 1952 for the purpose of providing accommodation for overspill from congested cities. Dwellings are provided by the receiving authority, though they are in some cases built by another authority on an agency basis.

Standard improvement grants

7. Table 11 summarises information specially prepared for a Parliamentary answer on 19th July 1968. Separate figures for all county boroughs and London boroughs were published in *Hansard* for that date.

Boundary Changes

8. Table 12 shows the adjustments to be made to the figures published in Table 5 of Local Housing Statistics No. 6 following the alterations in local authority areas which took effect from the 1st April 1968.

Alterations to the Classified Index of Local Authorities and New Towns

9. Table 13 shows the corrections and additions to the Index, published separately in May 1968.
