HMSO

Standing order service

Placing a standing order with HMSO BOOKS enables a customer to receive future editions of this title automatically as published. This saves the time, trouble and expense of placing individual orders and avoids the problem of knowing when to do so. For details please write to HMSO BOOKS (PC 11C), Publications Centre, PO Box 276, London SW8 5DT quoting reference X16.01.21.

The standing order service also enables customers to receive automatically as published all material of their choice which additionally saves extensive catalogue research. The scope and selectivity of the service has been extended by new techniques, and there are more than 3,500 classifications to choose from. A special leaflet describing the service in detail may be obtained on request.

The Government Statistical Service

A service of statistical information and advice is provided to the Government by specialist staffs employed in the statistics divisions of individual Departments. Statistics are made generally available through their publication and further information and advice on them can be obtained from the Departments concerned.

General information about Department of the Environment statistical publications can be obtained from the Department of the Environment, 2 Marsham Street, London, SW1P 3EB (Telephone: 071 - 276 4003). Enquiries about statistical series published in this volume should be made to:

NOTES AND DEFINITIONS

1. LOCAL HOUSING STATISTICS is prepared by the Department of the Environment and the Welsh Office to provide figures for individual local authority areas in a quarterly publication. These figures are taken mainly from returns made by the local authorities, housebuilding figures incorporate reports from the National House Building Council on those dwellings which they inspect for building control purposes; figures at local authority level do not include any allowance for missing returns. Tables are by region, county and local authority area, unless otherwise stated.

Regular tables appearing in each issue (see paragraphs 5 to 8) show cumulative figures within either the calendar year or the financial year.

Supplementary tables on various other housing matters are included as annual data become available and appear in the index on page iv.

2. REGIONAL figures and those for England are estimates allowing for missing returns; estimates are also published in Housing and Construction Statistics. Figures for counties and individual authorities in England do not allow for missing returns but may include some late returns received after the regional estimates were finalised for publication.

3. DEFINITIONS

'Local authorities' in this publication are local housing authorities and new town authorities. Names used are the names by which authorities are known at present, regardless of the periods covered by tables;

'Counties' are the areas specified in the London Government Act 1963 and the Local Government Act 1972; the Isles of Scilly are included with Cornwall for statistical purposes;

'Regions' are the standard regions for statistical purposes, revised following local government reorganisation on 1 April 1974;

'Population': the latest available estimates of the home population published by the Office of Population Censuses and Surveys. Population figures for New Towns are not separately available but are included in the figure for the housing authority in which they are situated.

More detailed definitions of the terms used are given in the annual volume of Housing and Construction Statistics.

4. ADJUSTMENTS TO EARLIER RETURNS may occasionally result in a negative figure for an individual authority, when, for example, dwellings reported as started are subsequently withdrawn.

5. HOUSEBUILDING. Table 1 shows the building progress of permanent houses and flats, cumulatively within the calendar year.

'Local authorities' housebuilding figures include not only dwellings which they will rent but also those they intend to sell or lease (see para 7). Any dwellings built for an authority outside its own area are included in that authority's figures in Table 1, but Table 3 shows the areas in which these dwellings are situated.

'All' includes progress on dwellings provided or authorised by government departments, county councils and other local government bodies acting in capacities other than as housing authorities. These dwellings are also shown separately in Table 2.

'New Towns'. Private building on privately owned land within new towns is shown against the relevant housing authority. All building on land owned by development corporations and the Commission for New Towns is shown against the name of the new town.

Figures are subject to amendment by housing authorities when they reassess housebuilding activity in their areas.

6. RENOVATIONS. Table 4 deals with completions of local authority and housing association dwelling renovation work for which government assistance in the form of a subsidy or a contribution may be given, including local authority dwellings which have been improved for sale (Table 6), and renovation work by private owners and by tenants for which grants were paid by local authorities. (Where a local authority has not reported improvements for sale but has reported other improvements to its stock only the latter component is shown against the name of that authority.) The figures, cumulative within calendar years, are the numbers of dwellings and in the case of conversions these are the total available after the completion of the work. Housing Corporation funded renovations of hostel bedspaces are excluded from January 1985. Estimated figures for new town dwellings are included in regional totals but are not shown separately.

7. SALES OF DWELLINGS OWNED BY LOCAL AUTHORITIES AND NEW TOWNS. Tables 5, 6 and 7 provide a full presentation of the sales of dwellings according to type of sale. The Housing Act 1980 extended the provisions under which local authorities and new towns dispose of dwellings, particularly through the 'right to buy' established in Part 1 of the Act which came into force on 3 October 1980; these provisions are now embodied in Part V of the Housing Act 1985. The Housing Act 1988 introduced the provisions for 'tenants choice' and these came into force in April 1989. Progress during the financial year of sales to tenants exercising their right to buy is summarised in Table 5 which shows numbers of tenants from whom claims to this right had been received on form RTB1 (no adjustment is made for claims subsequently withdrawn), numbers whose right to buy had been accepted by the authorities on form RTB2, and numbers of completed sales. The figures in Table 5 include sales under shared ownership arrangements, the improvement for sale scheme, for improvement by purchaser, building for sale schemes, sales to housing associations and private developers, but not sales of dwellings which have been built on land made available under licence (see paragraph 8). Table 6 'other sales' includes tenants choice or voluntary disposals to housing associations or private developers. The information for the first quarter of 1989/90 was not published so that Tables 5-8 could be advanced by one quarter to help standardise the period covered by the publication.

8. HOUSING LAND DISPOSALS. Table 8 deals with local authorities' sales and disposals under licence of land for housing and in addition sales of dwellings built by private developers on land previously made available by authorities under licence.

9. LOCAL AUTHORITIES' ACTION UNDER THE PROVISIONS OF THE 1985 HOUSING ACT. Since the implementation of the Housing (Homeless Persons) Act in December 1977, now Part III of the Housing Act 1985, 'Acceptances' covers those households for whom local authorities assume the responsibility of securing accommodation (either temporary or permanent) under the provisions of the Act. This includes households found to be homeless (or threatened with homelessness within four weeks) and in one of the seven designated 'Priority need' categories for whom local authorities have a duty to secure accommodation and it also includes any homeless households not in priority need for whom they have nevertheless undertaken to secure accommodation.

Because of changes in reporting practices associated with a new statistical system introduced during 1980 and 1982, results are not strictly comparable with those for earlier periods.

Annual summaries are published in the issue containing results for the first quarter of the following year. Annual totals include late returns and are not necessarily the sum of the published quarterly figures.

The measure of response in column 2 simply indicates the number of quarters in which the number of acceptances was reported, without taking account of possible incomplete response within the P1E(Hsg) return - for example, in a few instances 'enquiries completed' and 'found not to be homeless' relate to fewer quarters than indicated. In view of the varied response, care should be taken when comparing the rate per 1000 households.

10. SALES OF FLATS OWNED BY LOCAL AUTHORITIES AND NEW TOWNS. Included in this issue are separate statistics of sales of flats under Part V of the Housing Act 1985. Table 10 shows the number of flats disposed of, they are also included in tables 5 and 7. The numbers of "right to buy" claims received are not adjusted for subsequent withdrawals nor disposal under voluntary consents. Part (a) of table 10 excludes flats sold to housing associations or private developers as part of a block transfer.

11. SPECIAL NEEDS HOUSING. Table 11 shows the number of dwellings adapted or renovated for occupation by disabled or elderly persons through conversion or improvement and dwellings in which standard amenities have been installed because existing amenities were not readily accessible to disabled persons. Standard amenities are a fixed bath or shower, a wash hand basin, a sink a hot and cold water supply to these items and a water closet.

12. ENERGY CONSERVATION. Table 12 gives the number of dwellings insulated under the public sector energy conservation programme which began in 1978. (In addition to this work, insulation in the sector can also occur as an inextricable part of renovation work reported in table 4). The number of homes insulation grants paid under the Homes Insulation Scheme which was introduced in September 1978 and extended to public sector tenants in November 1979 is also shown.

12. SYMBOLS USED. The following symbols are used throughout:
.. = not available.
- = nil or less than half the final digit shown.

INDEX TO ANNUAL HOUSEBUILDING AND RENOVATIONS STATISTICS

Published figures of housebuilding and renovations (Tables 1 to 4) are compiled from the available returns for the relevant period. Revised annual tables incorporating late returns from English authorities are published. However, earlier practice was to count the returns as and when these were received from local authorities, including any late returns for earlier periods, and to make no revisions: although distortions in the national and regional statistics were relatively slight, they could be large in the case of individual authorities which did not report regularly. The change in procedure was implemented for English authorities' housebuilding in 1980 and renovations in 1978 and for Welsh authorities' housebuilding and renovations in 1978.

Issues containing annual figures are listed below: for any authority, figures should be taken from the latest issue in which the authority is included; however for England the most recent housebuilding figures for 1980-87 are given in the D.O.E. publication 'Housebuilding in England by Local Authority Areas: 1980 to 1988'.

Housing and Construction Statistics - Annual

Most of the tables in this reference book on housing and construction topics show how things have changed over the last eleven years; others give detailed analyses for the latest year. The quantity and type of housing built each year and the size of stock, improvements and energy conservation, slum clearance, rents and rent rebates, house prices and mortgage payments can all be derived from this publication. It also contains figures on the volume and type of construction work and new orders in Great Britain, the labour market, costs and prices of materials and labour, and the use of materials. Detailed analyses of the activities of private contractors and local authorities direct labour departments are given for recent years.

Housing and Construction Statistics - Quarterly

Produced in two parts each quarter designed to supplement the annual volume by making the latest figures available as quickly as possible.

Local Housing Statistics - Quarterly

This publication gives regular statistics on the progress of housebuilding, house renovations and council house sales in individual local authorities in England and Wales. Statistics on homeless households, slum clearance and homes specially designed for the chronically sick and disabled are included as they become available.

HMSO publications are available from their bookshops at the addresses given on the back cover.

Digest of Environmental Protection and Water Statistics - Annual

This Digest provides information on the main trends in environmental protection. Its explanatory text and commentary highlights the trends, gives information on some of the factors likely to influence them and, where appropriate, links series together. It has sections on air quality, water quality, radioactivity, noise, blood lead concentrations, solid wastes, landscapes and nature conservation. A separate section updates the series on water supply and use.

Local Government Financial Statistics - Annual

This publication presents details of local authority expenditure and income during the last financial year. The main figures relate to local authorities in England, but summary figures are also shown separately for the various types of authority (counties and districts, metropolitan and non-metropolitan) in both England and Wales. Further tables set the total of local authority expenditure in the context of the whole of the national economy, and relate present levels of expenditure with those recorded in earlier years.

Household Projections, England: 1989 - 2011

The latest in an occasional series of publications giving summary results of the Department's 1989 based household estimates for England, the regions, counties, metropolitan districts and London Boroughs. Estimates are given for the years 1989 to 2001 and an appendix describe the methods of calculation.
