## The Government Statistical Service

A service of statistical information and advice is provided to the Government by specialist staffs employed in the statistics divisions of individual Departments. Statistics are made generally available through their publications and further information and advice on them can be obtained from the Departments concerned.

# Local Housing Statistics

## England and Wales

1. **Local Housing Statistics** has been prepared by the Department of the Environment and the Welsh Office to provide figures for individual local authority areas in a quarterly publication. Corresponding figures for years before 1966 appeared in the former Appendix to the Housing Return for England and Wales.

The tables relating to the provision of new permanent housing and to slum clearance appear regularly in each issue. They show annual cumulative figures.

Supplementary tables on various other housing matters are included as data become available. The tables in this issue show improvement grants for 1971 and dwellings started and completed in the regional sub-divisions and in the conurbations.

Supplementary tables so far published are listed on Page iv.

2. **Definitions.** Detailed definitions of the terms used are to be found in Housing Statistics, Great Britain, No. 24. It may be noted that:

“Dwellings” include all new permanent houses and flats.

“Houses” in relation to slum clearance action has the meaning attributed to it for the purposes of Part II and Part III of the Housing Act 1957 (see para. 7).

“Local authorities” include local housing authorities and new town authorities.

“Other public authorities” include Government departments and housing associations.

“Regions” are the economic planning regions adopted in 1965. These only differ from the Standard Statistical Regions by including Poole Borough in the South West rather than the South East.

“Counties” are primarily the areas for which Lieutenants are appointed. Greater London as a whole is dealt with as a county. Stockport is dealt with as wholly in Chester. The part of Derbyshire in the North West region is shown as “Derbyshire (High Peak District)”. The county borough of York is included with Yorkshire, West Riding (until the end of 1968 it was included with Yorkshire, East Riding).

3. **Local authority areas.** Local housing authorities may provide housing either within or outside their own areas. The figures shown in Table 4 against the name of the authority include dwellings situated outside its area, for which particulars of completions are given separately in Table 5. Table 6 shows the distribution within and outside Greater London of dwellings completed by the Greater London Council, or by housing associations assisted by the Greater London Council. Authorities shown in Tables 5 and 6 are indicated in Table 4 by the following symbols:

§ An authority which completed dwellings in the area of another authority during the period.

|| An authority in whose area another authority completed dwellings during the period.

Other public sector and private sector dwellings are shown against the name of the authority in whose area they are situated.

4. **New towns.** Against the name of each new town are shown the dwellings built for the development corporation or for the Commission for the New Towns. These are all situated within the new town area and are not included in the figures for any other local authority. Private sector building within the new town area is included against the name of the authority or authorities in whose area the new town is situated, but is also shown separately in italics against the name of the new town and included in the new town total.

5. **Boundary changes.** Where the boundaries of local authority areas have been altered during the period shown, dwellings are shown in Table 4 against the local authority in whose area they are now situated.

6. **Adjustments to earlier returns** may occasionally result in a negative figure for an individual authority, when, for example, dwellings reported as started are subsequently withdrawn or there is a transfer from one sector to another.

Supplementary tables so far published

<sup>¶</sup> Houses demolished in or adjoining clearance areas and unfit houses demolished elsewhere. The Greater London Council do not have powers to close houses.

Supplementary tables

Improvement grants

1. The tables show the number of local authority dwellings for which Exchequer assistance was approved by the Secretary of State for the Environment or the Secretary of State for Wales, and the number of other dwellings for which grants were approved by local authorities during 1971. It should be noted that the latter figures are on a different basis from those for earlier years published in previous issues, which related to grants paid (i.e. after completion of the work). These tables do not include special grants.

2. The method of compilation of these figures has been revised, and the totals may differ slightly from those already published elsewhere.

3. Most housing associations receive assistance from local authorities on the same terms as private owners and their figures have therefore been merged. A few housing associations choose to receive assistance from the Exchequer similar to that given to local authorities. These discretionary grants, approved under the Housing Act 1969 (Section 21) are included with the figures for local authorities. Distribution of these grants is shown in table 10 (Page 82).

4. Counties or individual authorities in areas which, during the second half of 1971, qualified to receive the higher rate of assistance available in development and intermediate areas are indicated thus †. In addition a small number of grants approved for county councils qualified for the higher rate of grant.

5. More detailed notes and definitions on improvement grants may be found in Housing Statistics, Great Britain, No 24.

Statistical sub-divisions of regions

6. The regional sub-divisions are those in general use for statistical purposes, as defined in the Abstract of Regional Statistics No 7. Note that Bletchley U.D. is now included in the Outer South East (Beds/Bucks) instead of in the Outer Metropolitan Area (West).

7. Dwellings started and completed by authorities outside their own sub-divisions are included in the sub-division in which they were built (see also Tables 5 and 6).

8. Table 12 shows corrections to be made to figures previously published for the years 1968 to 1970 for the South Lancashire and North East Lancashire sub-divisions of the North West region.
