At last - the section on Pen has  
been finished; the other - as far as  
I am concerned - I am to be writing a

completing them & notes & conclusions.

how or how long are we to Police  
 & regulate yourself. "Regulation" may, I  
 think, be on middle section: Public  
Services are Govt & having no essential-  
ess. to bind into. Presently S. is working  
 full speed at University, T. & P. & School  
 Department. & has recently a brief to  
 Central Mining to V. to give steps  
 to his election, & in his first <sup>his</sup> election will be

 before - perhaps of? & he to self-indulge

physical courage to cut my self off  
in business - because Dr. D. not sure  
to expect me but Dr. C. is all probability  
finished by corporal for work. The  
political parties have made to  
divide us & self-indulgence etc;  
& to appear over & over & execution difficult  
of their lack of courage a knowledge.

Three dinners & two evening parties  
at our own house in 8 days is scarce!  
But we seem destined to live a
