Housing Return for England and Wales as at 31st August, 1947

This return is the twentieth of a series of monthly progress statements on housing in England and Wales. The figures in the present return show the position up to 31st August, 1947, and relate from 1st April, 1945. The return includes an Appendix A giving general tables relating to England and Wales as a whole and to various subdivisions by types of authority and by geographical distribution.

A detailed statement for each of the 1,469 housing authorities will shortly be published as a separate document (Appendix B.).

PERMANENT NON-TRADITIONAL HOUSES

With the object of accelerating the rate at which houses can be erected a number of methods of house construction have been evolved which, for ease of reference, are known as “non-traditional”. Included in this category are types that have been referred to as “permanent prefabricated”. In Appendix A, Table 11, a list of the main types is given together with details regarding the numbers of each type for which tenders have been approved and the numbers completed. Information regarding the development of sites and the preparation of housing schemes for non-traditional houses is included in the figures shown in Appendix A, Tables 1, 2, 8 and 9, and is shown in detail in Table 2(b).

The position as at 31st August, 1947, compared with that at 31st July, 1947, was as follows:—

| | 31st July, 1947 | 31st August, 1947 |

A total number of 30,542 B.I.S.F. and 1,380 Howard houses have been allocated to Local Authorities. 19,600 applications have been received from Local Authorities for Airey Rural component sets.

See Appendix A, Table 2(b) and 11.

REBUILDING OF WAR DESTROYED HOUSES

The rebuilding of war destroyed houses by private builders can be undertaken only under licence. Rebuilding by Local Authorities can be begun with the approval of the Ministry of Health and War Damage Commission. Information in respect of a few Local Authorities may be incomplete and the figures quoted are subject to adjustment. The position at the end of August compared with that at the end of July, 1947, was as follows :—

USE OF EXISTING PREMISES

Apart from new building additional accommodation for family units has also been provided by Local Authorities and by private builders under licence by the repair or adaptation of existing premises.

Information relating to accommodation provided by private builders under licence became available for the first time in April, 1946. That in respect of the repair of unoccupied war damaged dwellings may be incomplete for a few Local Authorities and the figures quoted are subject to adjustment. The position at the end of August, 1947, was as follows :—

| | Family Units of Accommodation Provided | | | | |

See Appendix A, Tables 5 (b) and 6.

OTHER HOUSING ACCOMMODATION

A total of 31,262 flats and houses of less than 12 rooms was released from occupation by the Services and Government Departments over the period 1st May, 1945, to 31st July, 1947. Some of the dwellings on release were taken over by the Local Authorities.

The total number of requisitioned dwellings held by the Local Authorities for residential purposes was 96,639 at the end of August; of these 61,081 were situated in the London region.

Of the total of 96,639 requisitioned dwellings held by the Local Authorities, 69,275 were held at 31st March, 1945. From that date to 31st July, 1947, there was a net increase in unoccupied houses requisitioned by Local Authorities for residential purposes of 27,183 and a further 181 were requisitioned in August, 1947, making a net increase of 27,364 houses in the 29 months to 31st August, 1947.

SERVICE CAMPS—TEMPORARY ACCOMMODATION

In addition to accommodation referred to above, there were at 31st August, 1947, 16,167 families occupying accommodation in 1,103 camps redundant to the needs of the Services or Government Departments, which had been offered to Local Authorities for housing purposes and were considered suitable for those purposes. In the main these camps had been taken over by Local Authorities as part of their pool of housing accommodation or were being managed by them on behalf of the Ministry of Health.

Those family units of accommodation included in the number quoted above that are shown in the Summary on page 3, are at least up to the standard of the temporary accommodation already included in the Summary.

Accommodation for a further 1,292 families was occupied in 186 camps which are still required for Government purposes, or are unsuitable for housing, or are still subject to decision as to their future use.

HOUSES LET TO COAL MINERS AND AGRICULTURAL WORKERS

The numbers of new permanent houses let to coal miners and agricultural workers during the month of August, 1947, were 444 and 240 respectively. The total number let to coal miners since 1st April, 1947, is 2,747. Information in respect of earlier months is not available. The total number let to agricultural workers since 1st April, 1945, is 2,347.

PROGRESS OF INDIVIDUAL HOUSING AUTHORITIES

Of the total of 1,469 Authorities there were at the 31st August, 1947, 6 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had as yet no sites of which possession had been obtained. Of these Authorities 4 were urban areas (mainly small urban districts) and 2 rural districts; the population in these areas represents 0.053 per cent. of the total population of England and Wales. There were 7 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had not obtained authority to go to tender on a specific scheme. The population in the area of these Authorities represents 0.035 per cent. of the total population of England and Wales.

See Appendix A, Table 7.

HOUSING LABOUR FORCE

Returns of the number of operatives aged 16 and over employed on the construction of new houses are now based on a new system of collecting the data recently instituted by the Ministry of Works. The estimate of 220,400 so employed in England and Wales at the end of August may still be incomplete and, therefore, subject to adjustment. It should be noted that this estimate relates to operatives engaged both on the construction of permanent houses and on the preparation of housing sites. In view of the change in the basis of collecting the data, and of the possible incompleteness of the new return, comparisons of the numbers engaged on new housing at the end of January and at the end of August respectively might be misleading. The number employed on war damage repairs decreased from 99,300 at the end of July, 1947, to 95,300 at the end of August.

See Appendix A, Table 12.

BUILDING MATERIALS AND COMPONENTS

Details of production of the more important building materials and components are included in Appendix A. The information relates to Great Britain as a whole; separate details in respect of England and Wales are not available. It should be noted that the production of the items listed is utilised not only for the construction of and installation in new dwellings but also for repairs and replacements and building work other than house building.

In general the production in any given month is not known until towards the end of the following month. It is not therefore always possible for the complete data relating to the month under review to be available in time for inclusion in the Return.

See Appendix A, Table 13.

APPENDIX A—NOTES

The material contained in this Return is derived from a census of the housing position at 31st December, 1945, and the reports of subsequent progress completed by the Local Authorities. Certain information is obtained from Government Departments. Where this is the case the items concerned have been annotated. At the 13th September, 1947, reports of progress had not been received from 1 Authority for the months December–August, from 2 Authorities for the months February–August, from 2 Authorities for the months April–August, from 1 Authority for the months May–August, from 1 Authority for the months June–August and from 30 Authorities for the month of August. Reports of progress in August were due to be received by the 5th September, 1947. Reports received after 13th September arrived too late to be included in the figures shown in this report relating to progress in August. By 13th September, 1947, 1,432 reports had been received.

Classification of Urban and Rural Authorities

The classification of Urban Authorities other than the L.C.C. and Metropolitan Boroughs into Large Towns and Cities, Medium Towns and Cities and Small Towns has been made in terms of population. The classification has been made as follows based on the estimated population at mid-1939 as returned by the Registrar General.

| | |
|--------------------------------|------------------------------|
| Large Towns and Cities | over 75,000 |
| Medium Towns and Cities | over 25,000 and up to 75,000 |
| Small Towns | 25,000 and under |

The Rural Authorities comprise all Rural District Councils.

The total population of England and Wales as at mid-1939 is divided between the various groups of cities and towns and Rural Authorities as follows:—

| | Number of Housing Authorities | Estimated Population | Percentage of total in England and Wales |
|--|-------------------------------|----------------------|--|
| Urban Areas | | | |
| Large Towns and Cities | 81 | 14,655,000 | 35.3 |
| Medium Towns and Cities | 218 | 9,116,000 | 22.0 |
| Small Towns | 665 | 6,399,000 | 15.4 |
| L.C.C. and Metropolitan Boroughs | 30 | 4,013,000 | 9.7 |
| Rural Authorities | 475 | 7,277,000 | 17.6 |
| Total | <u>1,469</u> | <u>41,460,000</u> | <u>100.0</u> |

Regions

Certain changes in the composition of the Northern, North Midlands and North Western Regions were made as from 1st April, 1946. As from that date the "North Eastern Region" became known as "East and West Ridings". The Description and composition of the Regions are now as follows—

| | |
|-------------------------------------|---|
| <i>Northern</i> | Cumberland, Durham, Northumberland, Westmorland and the North Riding of Yorkshire. |
| <i>East and West Ridings</i> | The East and West Ridings of Yorkshire. |

| <i>Eastern</i> | Bedfordshire, Cambridgeshire (including the Isle of Ely), Essex, Hertfordshire, Huntingdonshire, Norfolk and Suffolk, except such parts of Essex and Hertfordshire as are within the London Region. |
| <i>London</i> | London (Administrative County), Middlesex and parts of Kent, Essex, Hertfordshire and Surrey. |
| <i>Southern</i> | Berkshire, Buckinghamshire, Dorset, Hampshire (including the Isle of Wight) and Oxfordshire. |
| <i>South Western</i> | Cornwall, Devon, Gloucestershire, Somerset and Wiltshire. |
| <i>Wales</i> | The whole of Wales and Monmouthshire. |

The changes in regional composition referred to above should be borne in mind in comparing the regional classifications shown in the Tables in Appendix A in this return with those shown in returns published before 30th April.

The total population of England and Wales as at mid-1939 was divided between the Regions as follows:—

| | Number of Housing Authorities | Population at Mid-1939 | Percentage of total in England and Wales |

Tables 8 and 9

Table 8 shows the numbers of sites at different stages from the initial stage of selection to the stage when the site is available for construction.

Between the selection of the site and the completion of houses ready for occupation there is a long chain of events equivalent to the "pipeline" of materials and components of mass production in the engineering industry.

In general the use of the site for housing requires consideration from the point of view of regional and town planning, local transport facilities and so on. Sites have then to be acquired, a layout agreed, and roads, sewers and other services provided generally in advance of beginning the actual erection of houses. The actual construction of the houses themselves is the final process in the chain of production, which also, of course, comprises the fabrication of building materials and components ready for use.

Table 9 shows the number of houses at different stages towards completion beginning with the preparation of house plans.

Many of the initial stages in the erection of houses such as the preparation of house plans, bills of quantities and the chain of events leading to the acceptance of a tender are, in many cases, undertaken concurrently with the work of developing the corresponding sites.

Due to the incidence of the Christmas holiday five "five week" months have been included in 1946, there being two such months in the fourth quarter of that year.

New Permanent Houses (Column 2) includes war destroyed houses rebuilt.

Information regarding accommodation provided in Service Camps and Requisitioned Properties classified by Urban and Rural Areas is not available.

A dash (—) represents "Nil".

Note.—Houses on licences issued to the end of December, 1945, cannot be sub-divided between those intended for owner occupation or for sale and those to be available for letting (Cols. 2 and 3). The classification under these two heads in Sections B and C of the Table relates only to licences issued from January, 1946, to August, 1947, inclusive.

The total number of houses on licences issued has been arrived at after allowing for licences notified as having lapsed. The information shown in Sections B and C of the Table relates to the total number of houses on licences issued as at the end of August, 1947.

Information in respect of new dwellings being built by Housing Associations now being shown in Table 4(b), was in months prior to August, 1946 included with dwellings being erected by private builders under licence. For this reason strict comparison between this Table and Table 4 in such Returns is not possible.

The numbers of such workers in England and Wales were 18,832 and 18,288 in July and August respectively.

(d) The estimates for July and August are based on the Ministry of Works census taken at the end of November, 1946.

(e) This estimate relates to men engaged on work on existing premises resulting in additional accommodation but not necessarily in the provision of new family units.

(f) The numbers shown under this head may be overstated since they may include operatives employed on the construction of permanent houses.

(g) Source—Ministry of Works (based on Census and Sample Returns).

(h) Source—Ministry of Labour. Owing to differences in classification it is not possible to relate the number of "insured workers" to the number of "operatives employed."

Notes:—

(a) The total supplies of softwood timber shown in the above table necessarily relate to all qualities and dimensions although only certain qualities and dimensions are normally used in building. Softwood timber is required for use in the repair and construction of ships, the repair and construction of railway passenger and goods vehicles, furniture, agricultural equipment, packing cases, etc. An allocation between the various uses of the supplies available each quarter is agreed inter-departmentally and implemented through the timber licensing machinery.

There is a marked variation during the course of the year in the monthly flow of imports into this country, due both to the logging seasons in the country of origin and to the freezing of the ports in the Baltic Sea and in the Gulf of St. Lawrence. Normally the bulk of imports arrive in this country in the latter part of the calendar year.

(d) The stock at the end of December, 1945, was 559,000 and 4,130 standards for imported and home produced timber respectively. There is normally a marked seasonal change in the stocks of imported timber correlated with the flow of imports.

Housing Return for England and

Appendix A (Cmd. 7215) 9d. (by post 10d.)

† Progress Reports for August, 1947, not received.

See note 2.

NOTES

1. An alphabetical index of Regions and Counties is shown on page 78.
2. The data shown in this Appendix has been based on Appendix B to the Housing Return for England and Wales for the 31st January, 1946, and includes additions and alterations notified in monthly Progress Reports up to and including August, 1947, received from Local Authorities. In cases where entries in the Progress Reports were incomplete or inconsistent the information contained in this Appendix has been compiled in the light of evidence contained in the Census Return and in the Progress Reports as a whole. The tabular statement shows the position as at the 31st August. In certain instances Progress Reports have not been received in time for inclusion. Those local authorities in respect of whom Progress Reports for August, 1947, have not been received are marked with †. The data in respect of permanent housing shown for such authorities relates to the position as at the 31st July, 1947.
3. The term "under construction" in Columns (4), (6), (15) and (17), means that the contractor has actually begun work on the construction of the dwellings. In some instances work has begun on all dwellings in a particular contract; in a few cases it would appear that all the dwellings in a particular scheme have been shown as "under construction" on the Progress Report although work has not necessarily started on all of them.
4. In certain instances the Ministry of Works are undertaking the erection of groups of experimental permanent non-traditional houses on sites provided by housing authorities. These houses have been included in the data shown for the authorities concerned.
5. Where Tenders (or Estimates in the case of Direct Labour) for site development (Roads and Sewers) have been approved by the Ministry of Health but where work on the site has not begun, the sites have not been shown as under development (Col. (2)).
6. In the few instances where sites developed before the war by private enterprise are being taken over by the local authority but possession has not yet been obtained, the relevant figures have been entered in Column (2).
7. Permanent Houses. The figures in all columns except Columns (4) and (5) are not included in any other column. "Houses under construction" (Column (4)) and "Houses completed" (Column (5)) are included in "Houses on Tenders Approved" quoted in Column (3).
8. It should be noted that the greater part of the housing provision for the County of London is made by the London County Council. It is not, therefore, possible to relate the data shown in this Appendix for each Metropolitan Borough to the housing needs of the population of the Borough.
The bulk of the preliminary work in connection with the provision of permanent houses made by certain housing associations in the County of London area is undertaken by the Metropolitan Boroughs. The information is included in Columns (14), (15) and (16).
Certain data on temporary houses in respect of the London County Council and the Metropolitan Boroughs have been consolidated.
9. The number of temporary houses allocated to housing authorities is under constant review. Where the allocation is less than the number of sites available subsequent allocations may be made.
10. The total number of dwellings on licences issued (Column 14) includes licences issued both in regard to new dwellings and to the rebuilding of war destroyed dwellings. An analysis of the respective numbers falling into these two categories is shown in Tables 4a, 4b and 5a of Appendix A to the Housing Return.
The total number of licences shown in Column 14 also takes into account information received from local authorities in respect of any licences that may have lapsed. The data received in respect of licences may not in all cases be complete and may, therefore, be subject to correction.
11. The numbers of houses on licences issued or approved under Section 94 of the Housing Act, 1936, under construction and completed by Housing Associations are included in Columns (3), (4) and (5) respectively. In Returns prior to that for 31st July, 1947, this information was included in Columns (14), (15) and (16). The numbers of such houses included in Columns (3), (4) and (5) are shown at the foot of each page for each Local Authority concerned.
