Local Housing Statistics

England and Wales

1. **Local Housing Statistics** has been prepared by the Ministry of Housing and Local Government and the Welsh Office to provide figures for individual local authority areas in a quarterly publication. It supersedes the former Appendix to the Housing Return for England and Wales.

The tables relating to the provision of new permanent housing and to slum clearance appear regularly in each issue. They show annual cumulative figures, those relating to slum clearance being published one quarter later than those relating to housing progress.

Supplementary tables vary in each issue and relate to subjects not available for regular publication. Tables in this issue show local authority and new town schemes with dwellings under construction at 31st August 1968.

Supplementary tables published in previous issues are listed on Page iv.

2. **Definitions.** Detailed definitions of the terms used are to be found in the quarterly publication *Housing Statistics, Great Britain*. It may be noted that:

“Dwellings” include all new permanent houses and flats.

“Houses” in relation to slum clearance action has the meaning attributed to it for the purposes of Part II and Part III of the Housing Act 1957 (see 7 below).

“Local authorities” include local housing authorities and new town authorities.

“Other public authorities” include Government Departments and housing associations.

“Regions” are the economic planning regions adopted in 1965. These only differ from the Standard Statistical Regions by including Poole Borough in the South West rather than the South East.

“Counties”. Primarily the areas for which Lieutenants are appointed. Greater London as a whole is dealt with as a county. Stockport is dealt with as wholly in Chester. The part of Derbyshire in the North West region is shown as “Derbyshire, (High Peak District)”.

3. **Local authority areas.** Local housing authorities may provide housing either within or outside their own areas. The figures shown in Table 5 against the name of the authority include dwellings situated outside its area, for which particulars of completions are given separately in Table 6. Table 7 shows the distribution within and outside Greater London of dwellings completed by the Greater London Council, or by housing associations assisted by the Greater London Council. Authorities shown in Tables 6 and 7 are indicated in Table 5 by the following symbols:

§ An authority which completed dwellings in the area of another authority during the period.

|| An authority in whose area another authority completed dwellings during the period.

Other public sector and private sector dwellings are shown against the name of the authority in whose area they are situated.

4. **New towns.** Against the name of each new town are shown the dwellings built for the development corporation or for the Commission for the New Towns. These are all situated within the new town area and are not included in the figures for any other local authority. Private sector building within the new town area is included against the name of the authority or authorities in whose area the new town is situated, but is also shown separately in italics against the name of the new town and included in the new town total.

5. **Boundary changes.** Where the boundaries of local authority areas have been altered during the period shown, dwellings are shown in Table 5 against the local authority in whose area they are now situated.

6. **Adjustments to earlier returns** may occasionally result in a negative figure for an individual authority, when, for example, dwellings reported as started are subsequently withdrawn or there is a transfer from one sector to another.

7. **Unfit houses.** The figures in Table 5 show the number of houses in clearance orders and compulsory purchase orders confirmed under Part III of the Housing Act 1957, and houses demolished in clearance areas whether or not unfit. Houses demolished or closed elsewhere are those dealt with under Part II of the Act. The latter figures are adjusted to exclude houses reported as demolished which had previously been reported as closed. The London Borough distribution of houses demolished by The Greater London Council is shown in Table 8.

8. **Population.** The figures are the latest available estimates of the home population prepared by the Registrar General.

9. **Index.** An alphabetical list of all local authorities and new towns in England and Wales is published separately. In addition to page references this shows the type of each authority and the region and regional sub-division in which it is situated. A map of the regional sub-divisions is included.

In Local Housing Statistics and in the Index certain boroughs are listed for convenience by a name in common use which differs from their correct title. They are:—

| | |
|-----------------------|---|
| Dartmouth | properly Clifton Dartmouth Hardness |
| Durham | properly Durham and Framwelgate |
| Launceston | properly Dunheved, otherwise Launceston |
| Salisbury (New Sarum) | properly New Sarum |

Supplementary tables

Local authority and new town schemes

1. The figures cover all local authority and new town house-building schemes in which dwellings were under construction at 31st August 1968. A scheme for this purpose is a contract for which a separate tender or direct labour estimate has been approved. It is not necessarily the same as a housing site, since large sites are sometimes developed by a series of separate contracts over a period of time, while

a single contract may cover more than one small site. The figures are not therefore strictly comparable with figures for private sector sites published in issue No. 6.

2. The figures include amendments to those previously published in Housing Statistics No. II, Table IV.

31st August 1968

Table 9
