OF POLITICAL AND  
SOCIAL SCIENCE

England and Wales

1. **Local Housing Statistics** are published by the Department of the Environment and the Welsh Office to provide figures for individual local authority areas in a quarterly publication.

The tables relating to the provision of new permanent housing and, from the beginning of 1972, renovation grants, appear regularly in each issue. They show annual cumulative figures. Before 1972 annual totals for renovation grants were published in supplementary tables. Tables relating to sales will appear regularly in each issue and will show cumulative figures on a financial year basis (see note 8).

Supplementary tables on various other housing matters are included as data become available.

Supplementary tables so far published are listed on page iv.

2. **Definitions.** It may be noted that:

*Dwellings* include all permanent houses and flats.

*Housing progress* by local authorities and new towns includes dwellings intended for sale or lease and dwellings for renting.

*Local authorities* include local housing authorities and new town authorities.

*Other public sector* includes Government departments, county councils and housing associations.

*Regions* are the standard regions for statistical purposes, revised following local government reorganisation on 1 April 1974.

*Counties* are the areas specified in the London Government Act 1963 and the Local Government Act 1972; the Isles of Scilly are included with Cornwall for statistical purposes.

3. **Local authority areas.** Local housing authorities may provide housing either within or outside their own areas. The figures shown in table 4 against the name of the authority include dwellings situated outside its area, for which particulars of starts and completions are given separately in table 5. Table 6 shows the distribution within and outside Greater London of dwellings started and completed by the Greater London Council, or by housing associations assisted by the Greater London Council. Authorities shown in tables 5 and 6 are indicated in table 4 by the following footnotes:

<sup>2</sup> An authority which started or completed dwellings in the area of another authority during the period.

<sup>3</sup> An authority in whose area another authority started or completed dwellings during the period.

Other public sector and private sector dwellings are shown against the name of the authority in whose area they are situated.

4. **New Towns.** Dwellings built for development corporations or for the Commission for the New Towns are shown in table 4 against the new town. In Wales, and in England up to the 2nd quarter 1980, private sector dwellings built in a new town are shown against the local authority in whose area it is situated and separately against the name of the new town. From the 3rd quarter of 1980, private sector dwellings built in English new towns on land owned by the development corporation or the Commission for the New Towns are shown only against the new town.

5. **Housing progress tables.** Table 4a provides statistics for the first nine months of 1981. Table 4b is a summary of amendments and late received statistical returns for 1980.

6. **Adjustments to earlier returns** may occasionally result in a negative figure for an individual authority, when, for example, dwellings reported as started are subsequently withdrawn or there is a transfer from one sector to another.
