TEMPORARY HOUSES

The total number of temporary houses allocated to local authorities was 124,455 and the programme was completed in December, 1948. In addition, 515 temporary houses were allocated to Government Departments. This programme was completed in January, 1949.

REQUISITIONED PROPERTIES

A total of 33,163 flats and houses of 12 rooms or less was released from occupation by the Services and Government Departments over the period 1st May, 1945, to 30th September, 1952. Some of the dwellings on release were taken over by the local authorities.

The total number of requisitioned dwellings held by local authorities for residential purposes was 81,873 at the end of September; of these 55,525 were situated in the London Region.

Between 1st April, 1945, and 30th June, 1952, there was a net increase in unoccupied houses requisitioned by local authorities for residential purposes of 15,034 and a net decrease of 1,089 in July–September, 1952.

SERVICE CAMPS—TEMPORARY ACCOMMODATION

In addition to accommodation already referred to, there were at 30th September, 1952, 36,290 families occupying accommodation in 1,537 camps redundant to the needs of the Services or Government Departments, which had been offered to local authorities for housing purposes and were considered suitable for those purposes. In the main these camps had been taken over by local authorities as part of their pool of housing accommodation or were being managed by them on behalf of the Ministry of Housing and Local Government.

Those family units of accommodation included in the number quoted above that are shown in the Summary on page 4, are at least up to the standard of the temporary accommodation already included in the Summary.

Accommodation for a further 169 families was occupied in 30 camps which are still required for Government purposes, or are unsuitable for housing, or are still subject to decision as to their future use.

Accommodation in camps remaining under the control of Service Departments has been provided for 225 families.

July–September, 1952 ...	2,205	—	747	—
Total to end September, 1952	52,315	2,508	31,766	1,005

The total numbers of houses let to agricultural workers and coal miners relate to the periods from 1st April, 1945, and 1st April, 1947, respectively.

HOUSING LABOUR FORCE

The following are estimates of the number of male operatives aged 16 and over employed on the construction of new permanent houses and the preparation of housing sites in England and Wales at the dates stated.

31st March, 1952	30th June, 1952	30th September, 1952
211,500	231,200	238,800

The figure for 30th September, 1952, is provisional and liable to alteration.

These figures do not include the number of building and civil engineering workers directly employed by local authorities. The number of such workers in England and Wales was 20,247 in September, 1952.

The number of operatives engaged on repair and maintenance to existing houses (including conversions, adaptations, extensions, etc.) was estimated to be 170,500 in May, 1952, the latest date for which figures are available.

Tables 7 and 8

Table 7 shows the numbers of sites at different stages from the initial stage of approval for housing to the stage when the site is available for construction of houses. Table 8 shows the number of houses at progressive stages towards completion.

In general a proposal to use a site for housing requires consideration from the point of view of regional and town planning, local transport facilities and so on. The site has then to be acquired, a layout agreed, and roads, sewers and other services provided. The actual construction of the houses themselves is the final process in the chain of production, which also, of course, comprises the fabrication of building materials and components ready for use.

The initial stages in the erection of houses such as the preparation of house plans, bills of quantities and the events leading to the acceptance of a tender are, in many cases, undertaken concurrently with the work of developing the sites.

Notes:—Source—Board of Trade.

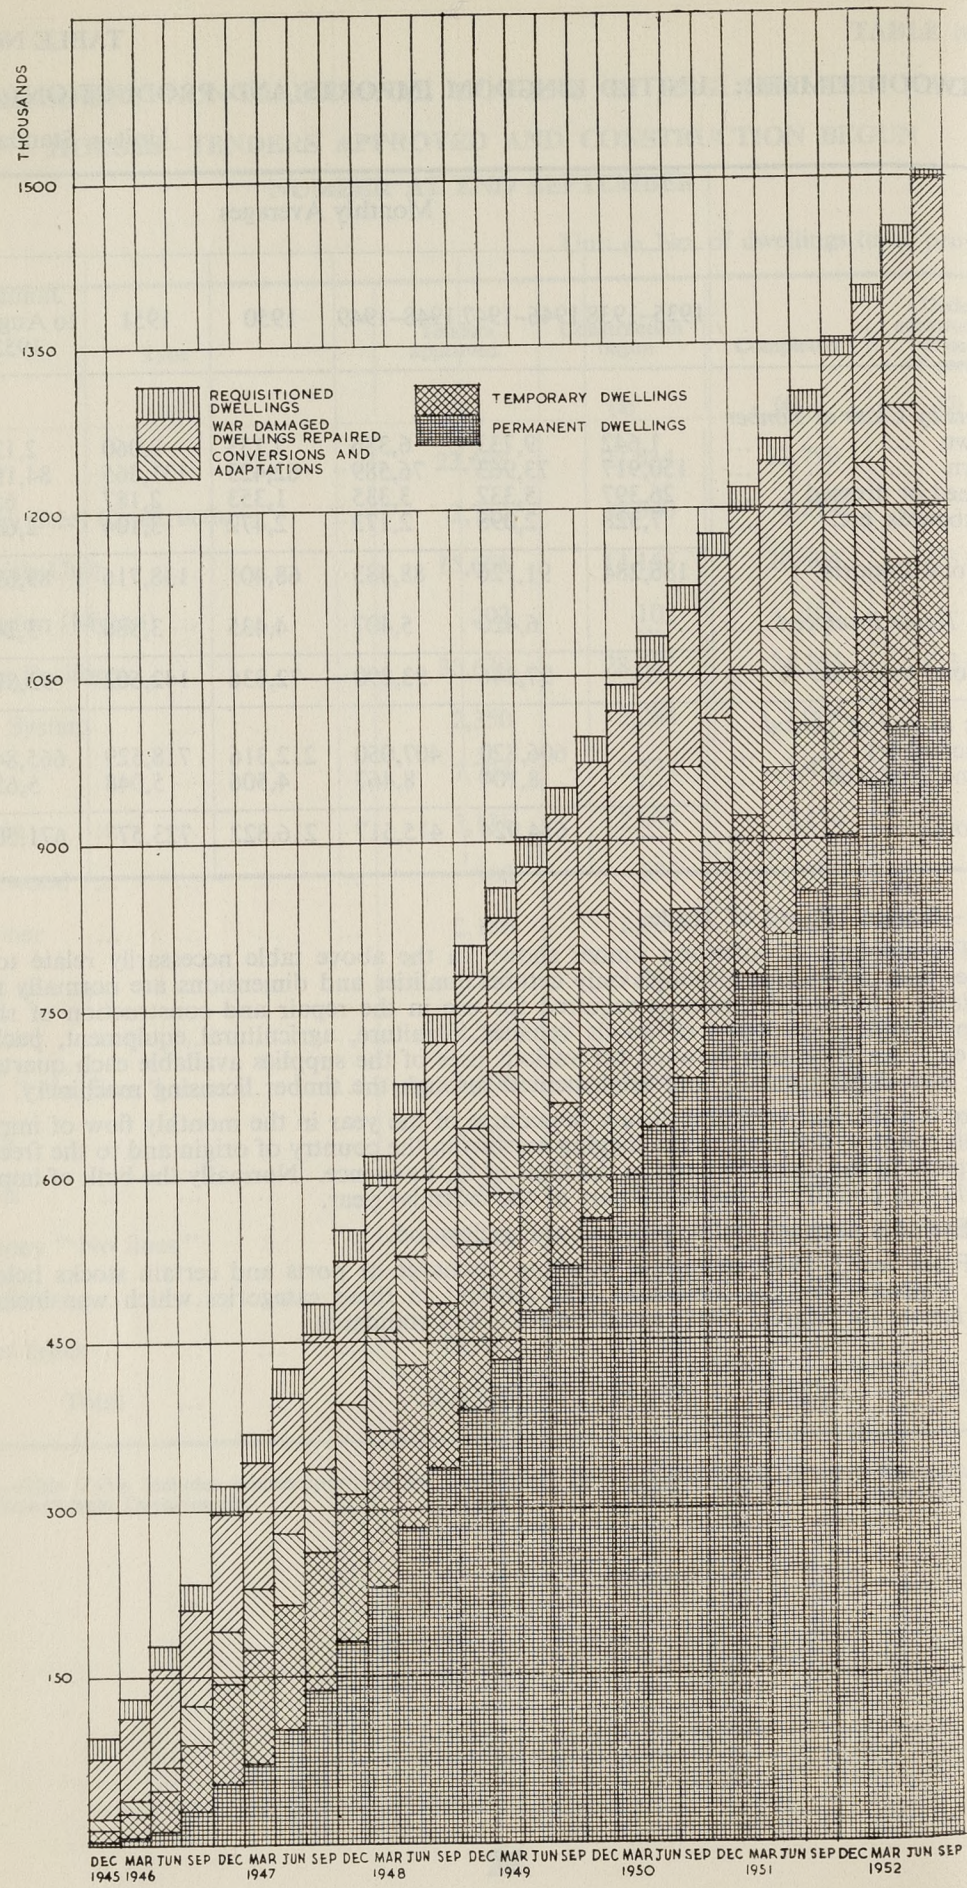

(a) The amounts of softwood timber shown in the above table necessarily relate to all qualities and dimensions although only certain qualities and dimensions are normally used in building. Softwood timber is required for use in the repair and construction of ships, the repair and construction of goods vehicles, furniture, agricultural equipment, packing cases, etc. An allocation between the various uses of the supplies available each quarter is agreed inter-departmentally and implemented through the timber licensing machinery.

There is a marked variation during the course of the year in the monthly flow of imports into this country, due both to the logging seasons in the country of origin and to the freezing of the ports in the Baltic Sea and in the Gulf of St. Lawrence. Normally the bulk of imports arrive in this country in the latter part of the calendar year.

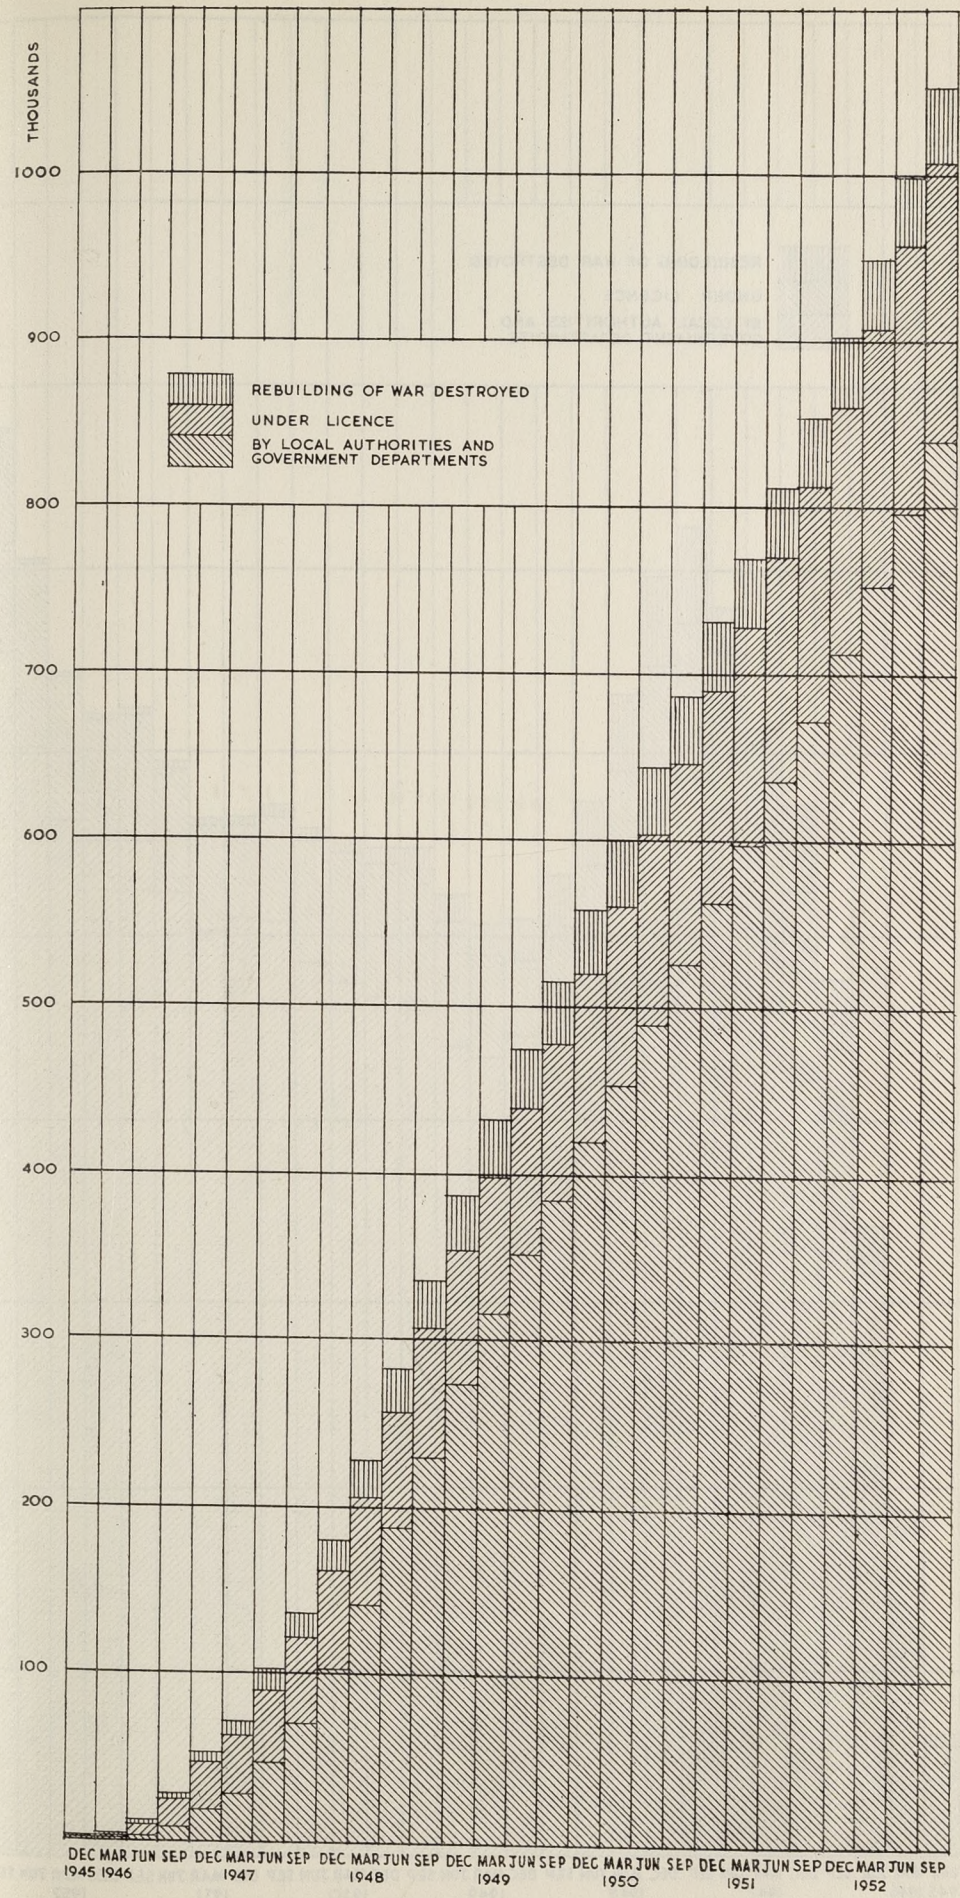

(b) Excludes sleepers, poles, pitwood and pulpwood.

(c) From April, 1949, quantities awaiting discharge at ports and certain stocks held by British Railways are not included. The amount in these categories which was included in the figures for March, 1949, was 33.6 thousand standards.

NOTES

1. An alphabetical index of Regions and Counties is shown on page 78.
2. The estimated population shown in Column (8) relates to 30th June, 1951, and includes members of the Armed Forces.
3. The figures given in this Appendix relate to the period from 1st April, 1945, and have been based on Progress Reports received from Local Authorities and New Towns Development Corporations up to 30th September, 1952, inclusive. The progress of Development Corporations is recorded under the counties in which they are situated.
4. The term "under construction" in Columns (4) and (11) means that the contractor has actually begun work on the construction of the dwellings.
5. Houses shown as being under construction or completed are included in the number of houses on tenders approved or on licences and approvals issued; otherwise, figures in each column are not included in any other column.
6. The data shown for each Metropolitan Borough excludes housing provision made by the London County Council.
7. The total number of dwellings on licences and approvals issued (Column (10)) relates both to new dwellings and to rebuilt war destroyed dwellings. Approvals for the erection of new dwellings include those built under the Housing (Financial Provisions) Act, 1938, Section 3, and houses on which the work was done without valuable consideration that were approved before 1st February, 1947.

The total number of dwellings shown in Column (10) takes into account licences and approvals reported as having lapsed.
8. The numbers of houses on licences issued or approved under Section 94 of the Housing Act, 1936 (as amended by Section 8 of the Housing (Financial Provisions) Act, 1938), under construction and completed by Housing Associations are included in Columns (3), (4) and (5) respectively. The numbers of such houses included in Columns (3), (4) and (5) are shown at the foot of each page for each Local Authority concerned.

USE OF EXISTING PREMISES

Apart from new building, additional family units of accommodation have also been provided by local authorities and by private builders under licence by the conversion or repair of existing premises.

Information relating to accommodation provided by private builders under licence became available for the first time in April, 1946. That in respect of the repair of unoccupied severely war-damaged dwellings may be incomplete for a few local authorities and the figures quoted are subject to adjustment. The position at the end of December, 1952, was as follows:—

TEMPORARY HOUSES

The total number of temporary houses allocated to local authorities was 124,455 and the programme was completed in December, 1948. In addition, 515 temporary houses were allocated to Government Departments. This programme was completed in January, 1949.

REQUISITIONED PROPERTIES

A total of 33,222 flats and houses of 12 rooms or less was released from occupation by the Services and Government Departments over the period 1st May, 1945, to 31st December, 1952. Some of the dwellings on release were taken over by the local authorities.

The total number of requisitioned dwellings held by local authorities for residential purposes was 80,404 at the end of December; of these 54,916 were situated in the London Region.

Between 1st April, 1945, and 30th September, 1952, there was a net increase in unoccupied houses requisitioned by local authorities for residential purposes of 13,945 and a net decrease of 1,469 in October–December, 1952.

SERVICE CAMPS—TEMPORARY ACCOMMODATION

In addition to accommodation already referred to, there were at 31st December, 1952, 36,009 families occupying accommodation in 1,552 camps redundant to the needs of the Services or Government Departments, which had been offered to local authorities for housing purposes and were considered suitable for those purposes. In the main these camps had been taken over by local authorities as part of their pool of housing accommodation or were being managed by them on behalf of the Ministry of Housing and Local Government.

Those family units of accommodation included in the number quoted above that are shown in the Summary on page 4, are at least up to the standard of the temporary accommodation already included in the Summary.

Accommodation for a further 157 families was occupied in 30 camps which are still required for Government purposes, or are unsuitable for housing, or are still subject to decision as to their future use.

Accommodation in camps remaining under the control of Service Departments has been provided for 225 families.

HOUSES LET TO COAL MINERS AND AGRICULTURAL WORKERS

The number of new permanent and temporary houses built by local authorities that have been let to miners and agricultural workers up to the end of December, 1952, was as follows:—

	<i>Coal Miners</i>		<i>Agricultural Workers</i>	
	<i>Permanent Houses</i>	<i>Temporary Houses</i>	<i>Permanent Houses</i>	<i>Temporary Houses</i>
October–December, 1952	2,225	—	772	—
Total to end December, 1952	54,540	2,508	32,538	1,005

The total numbers of houses let to agricultural workers and coal miners relate to the periods from 1st April, 1945, and 1st April, 1947, respectively.

HOUSING LABOUR FORCE

The following are estimates of the number of male operatives aged 16 and over employed on the construction of new permanent houses and the preparation of housing sites in England and Wales at the dates stated.

<i>30th June, 1952</i>	<i>30th September, 1952</i>	<i>31st December 1952</i>
231,200	251,300	244,900

The figure for 31st December, 1952, is provisional and liable to alteration.

These figures do not include the number of building and civil engineering workers directly employed by local authorities. The number of such workers in England and Wales was 20,027 in December, 1952.

The number of operatives engaged on repair and maintenance to existing houses (including conversions, adaptations, extensions, etc.) was estimated to be 170,500 in May, 1952, the latest date for which figures are available.

APPENDIX A—NOTES

The material contained in this Return is derived from a census of the housing position at 31st December, 1945, and the reports of subsequent progress completed by local authorities and other bodies.

Classification of Urban and Rural Authorities

The classification of Urban Authorities other than the L.C.C. and Metropolitan Boroughs into Large Towns and Cities, Medium Towns and Cities and Small Towns has been made in terms of population. The classification has been made as follows based on the estimated population at mid-1951 as returned by the Registrar General.

Large Towns and Cities	over 75,000

The Rural Authorities comprise all Rural District Councils.

The population of England and Wales as at mid-1951 is divided between the various groups of cities and towns and Rural Authorities as follows:—

	Number of Housing Authorities	Estimated Population	Percentage of total in England and Wales
Urban Areas			
Large Towns and Cities	89	15,488,540	35.3

Tables 7 and 8

Table 7 shows the numbers of sites at different stages from the initial stage of approval for housing to the stage when the site is available for construction of houses. Table 8 shows the number of houses at progressive stages towards completion.

In general a proposal to use a site for housing requires consideration from the point of view of regional and town planning, local transport facilities and so on. The site has then to be acquired, a layout agreed, and roads, sewers and other services provided. The actual construction of the houses themselves is the final process in the chain of production, which also, of course, comprises the fabrication of building materials and components ready for use.

The initial stages in the erection of houses such as the preparation of house plans, bills of quantities and the events leading to the acceptance of a tender are, in many cases, undertaken concurrently with the work of developing the sites.

Notes.—Source—Board of Trade.

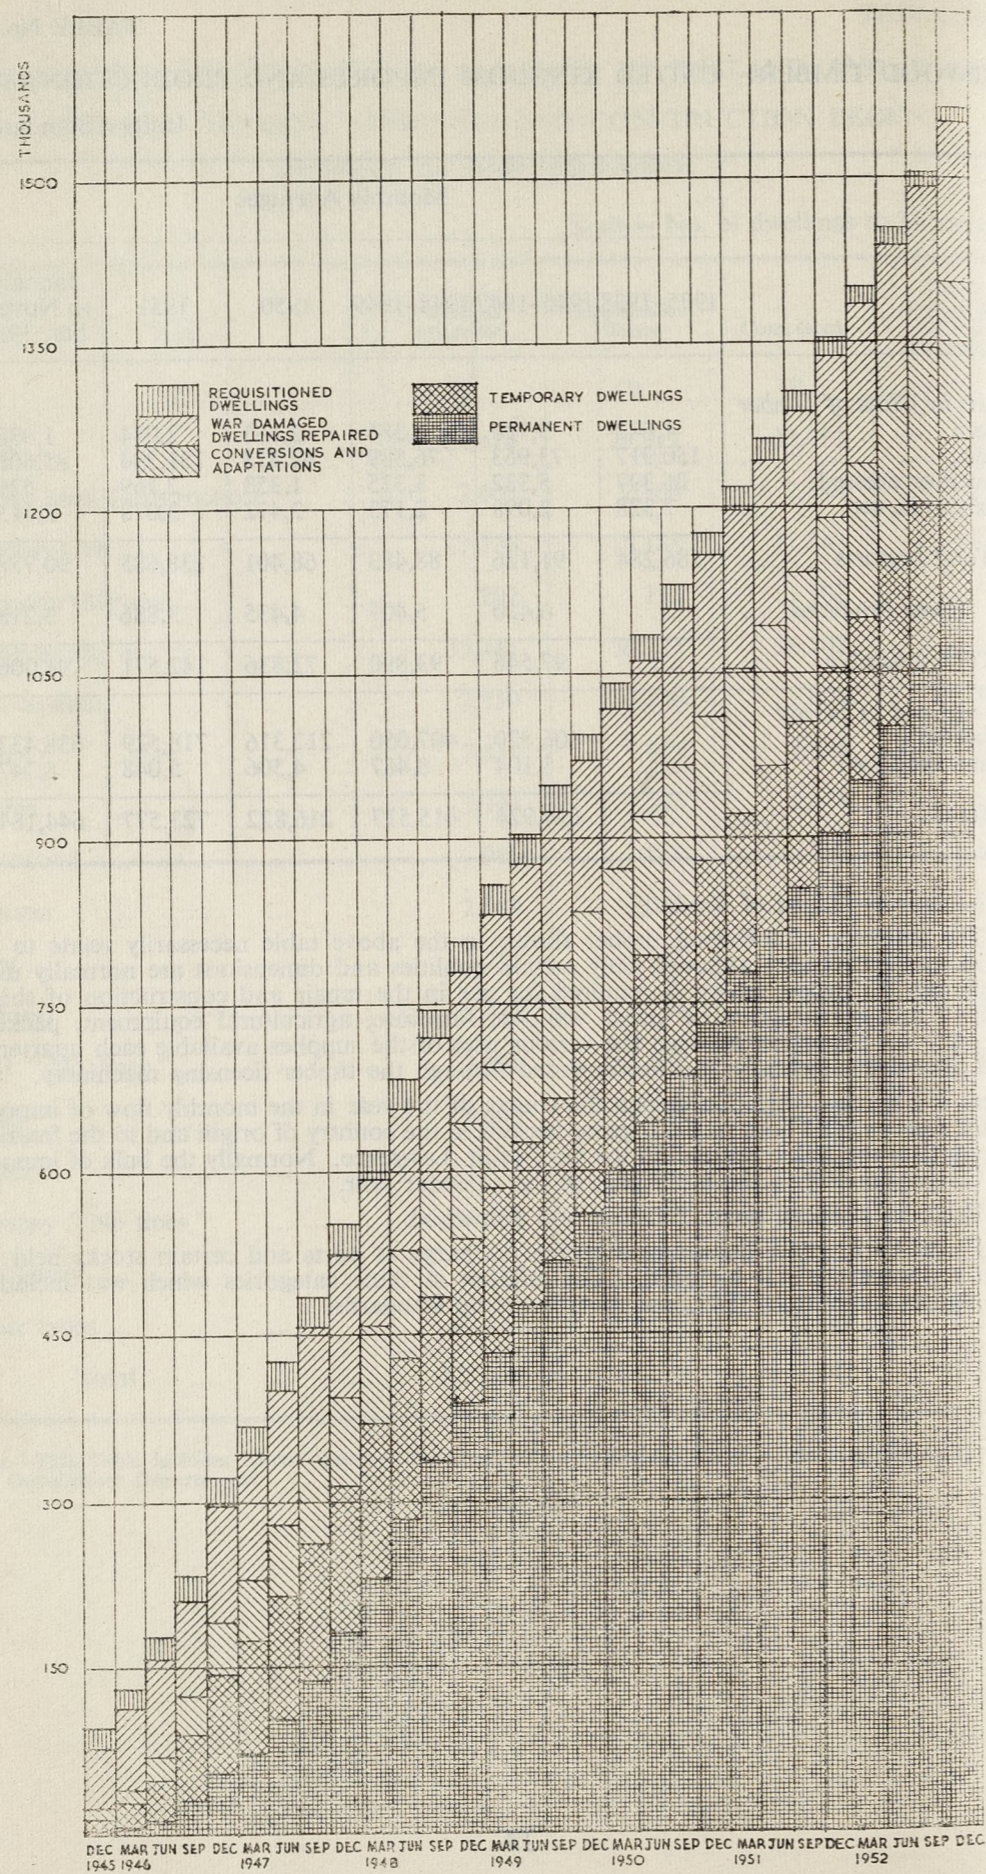

(a) The amounts of softwood timber shown in the above table necessarily relate to all qualities and dimensions although only certain qualities and dimensions are normally used in building. Softwood timber is required for use in the repair and construction of ships, the repair and construction of goods vehicles, furniture, agricultural equipment, packing cases, etc. An allocation between the various uses of the supplies available each quarter is agreed inter-departmentally and implemented through the timber licensing machinery.

There is a marked variation during the course of the year in the monthly flow of imports into this country, due both to the logging seasons in the country of origin and to the freezing of the ports in the Baltic Sea and in the Gulf of St. Lawrence. Normally the bulk of imports arrive in this country in the latter part of the calendar year.

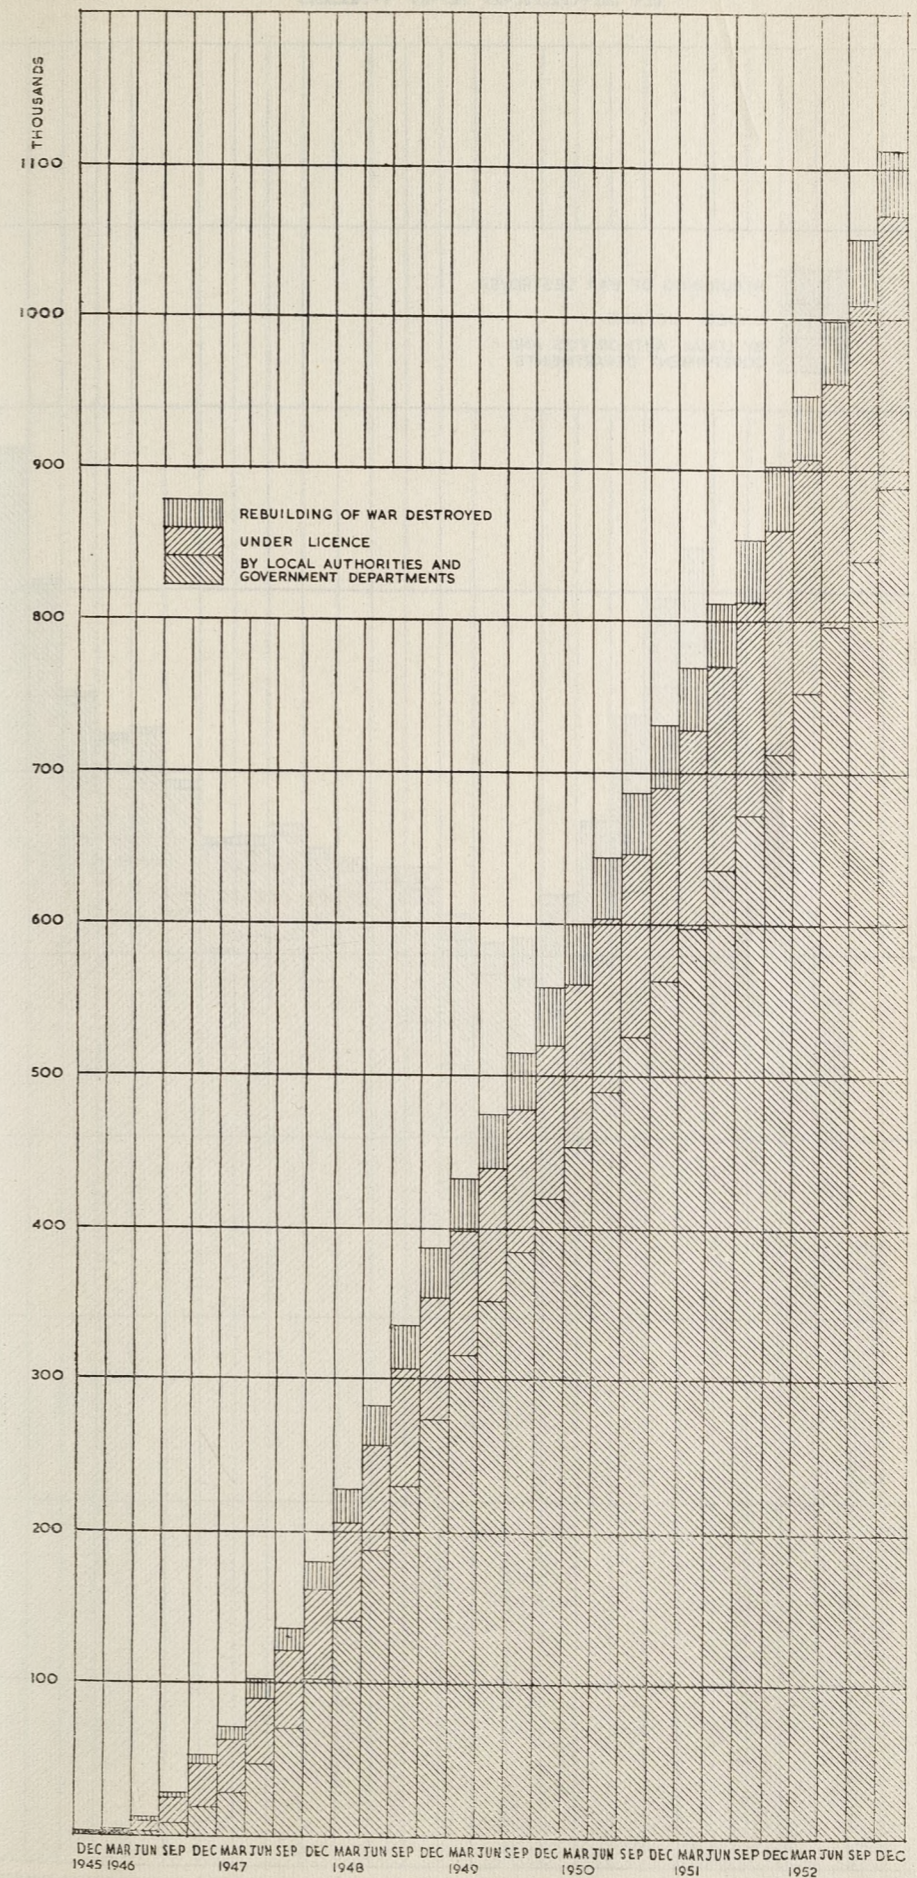

(b) Excludes sleepers, poles, pitwood and pulpwood.

(c) From April, 1949, quantities awaiting discharge at ports and certain stocks held by British Railways are not included. The amount in these categories which was included in the figures for March, 1949, was 33.6 thousand standards.

2. The estimated population shown in Column (8) relates to 30th June, 1951, and includes members of the Armed Forces.
3. The figures given in this Appendix relate to the period from 1st April, 1945, and have been based on Progress Reports received from Local Authorities and New Towns Development Corporations up to 31st December, 1952, inclusive. The progress of Development Corporations is recorded under the counties in which they are situated.
4. Houses shown as being under construction or completed are included in the number of houses on tenders approved or on licences and approvals issued; otherwise, figures in each column are not included in any other column.
5. The data shown for each Metropolitan Borough excludes housing provision made by the London County Council.

The total number of dwellings shown in Column (10) takes into account licences and approvals reported as having lapsed.
8. The number of houses on licences issued at the request of New Towns Corporations for erection for private owners in the New Towns are included in Column (10) against the name of the Local Authority or Authorities in whose area the New Town is situated.
