Dearest (arth).

I have just returned from seeing Mother at Auntie Lily's - She is bright & much better. She wanted to come home tonight but I have not her bit of what tomorrow when poor Jetches here about 10. am. We shall all be delighted to see her back.

I enclose a letter for you some to was rec'd this morning. She had her sentence reduced (but not reported) to 14 days. But after protesting her innocence all along. She hangs struck & was released on Friday under the Cat & mouse Act. Uncle Mark & I were at the House of Pity last night 5.30 to 9. to get questions asked as to her wrongful conviction. (to be asked today) one for tomorrow "If this act ever intended to apply to such a case?" I think if we fight it it will be a splendid case to show up this ~~shameful~~ shameful act.

Otherwise anyone objectionable to police may be run in on false charge & put away without justice. we have all been writing all round. a letter from Mother protesting her innocence was in the sketch today. I have been as Capt to Home office. making a Hell of a row & Uncle Mark has been a pain to House of Commons!

Mother's license which she tore up at Prison expires on Thursday next. I doubt if they will touch her but the goal is in her mind. But don't worry she has been splendid. Asks the doctor if he had freely fed. "Yes" she replies. "Thank you for I have the power to turn my back on you!" Have you called on Mr Jerppi 7 Bahlmann Str. Charlit. Tele. Amt. Steinplatz 13753? Mr Frucht was very pleased with your message. Mr Bishop is very anxious for you to begin with him (the accountant) in Oct so that you may attend a full session at the Home School of Economics. & TTH want your attentions so I think about 3 months Berlin will be enough but I hope I settled nothing yet so say nothing we are all delighted with the serious happy way you take to your work.

I have known Dutchman father for about 20 years & saw him to know what he thought of his boys training with Falst before I came over for you to go here. If possible call on Mrs Berners Kochler (Sens or Jura) Wassertor Str. 46-47 Berlin S. 22 Tele. Amt Monty Mptz 9719. He recommends to look. & old customer of TTH + agent for Empress. machs. May well give my hand up to him & the Jerppi
