

Miss Lowell Levin Mayles  
9/31/73

Newnham College  
Cambridge.

Oct 31.

Dear Miss Gardiner,

We sent you a few days  
ago a circular p. o. ~~on~~ the  
asking for evidence on  
the subject of women's  
degrees. As we have not  
heard from you we suppose  
that you have no personal  
experience of definite facts

bearing on the subject.  
We should however be  
glad if you could let us  
know whether you have  
found that the fact  
that women leave the  
University without  
proceeding to a degree  
produces among the general  
public an impression  
that the course of study  
they have pursued is  
inferior to that of men.

Also ~~have you~~ is it your  
opinion that the education  
of girls is in any way  
injuriously affected by  
parents or teachers tending  
to recommend a University  
which contains a less  
high standard than  
that of Cambridge but  
which grants a degree?  
We should be glad to  
receive your views on any  
other points connected  
with the subject.

Perhaps some of your colleagues  
who ~~are~~ signed the memorial  
would also send us their  
opinions.

Believe me yours truly

P. J. Fawcett.

We should be much obliged  
if you would reply at once  
as we have to send in  
our reply to the syndicate  
by next Wednesday.
