Dear Madam,

I hear from the Women's University Settlement that you will kindly undertake to bring us the music for our gathering at Red Cross Hall on Sunday Jan 27th. We shall be very grateful for this help.

Our audience is entirely of grown-up people, principally men & boys. They are a somewhat undisciplined set, but curiously responsive to really good music. Still we like to get it with some variety, & go about it, so as not

to demand too much sustained attention. — I send you one or two programmes that you may see the sort of thing we have, but really we are grateful for any music wh will make the afternoon bright & interesting. We do not confine ourselves to Sacred Music but the people do care for it.

We open the doors at 3½ that the people may come in to fire & bright hall, but we seldom begin the music till 4 o'clock. It goes on till 5½ or a little after, with a short break in the middle.

Enclose a sketch map & w^d

send more if you wish.

If you will be so good as to let me have a programme by Monday the ^{21st} ~~14th~~ — I will get it cyclostyled..

Yours, with sincere thanks,

Yours very truly
