INCORPORATED HOSTELS.

AIMS.

The Incorporated Hostels are for the care of girls and women suffering from venereal diseases in an infective stage.

The patients are drawn chiefly from the Royal Free Hospital V.D. Clinic, and are selected by the Medical Officer to the Clinic; but cases from any part of London or the country may be received. (See conditions for admission.)

Most of the patients admitted to the Hostels are treated as out-patients at the Royal Free Hospital.

The aims of the Committee are:

- 1. Care and medical treatment of women suffering from venereal disease.
 - (a) Non-pregnant cases. Admitted to Regent's Park Hostel.
 - (b) Pregnant cases. Admitted to Highbury Quadrant Hostel.
 - (c) Mothers and babies. Admitted to Highbury Quadrant and Barlow Hostels.
- 2. After-care of these patients when discharged from the Hostels, and medical supervision of the children.

The work is supplementary to that of the Hospital outpatients' clinic. The special daily treatment given at the Hostels, together with rest and good food, help to make hospital treatment more effective, and to shorten the course of the disease.

The greater number of those admitted are wage-earners: such as waitresses, domestic servants, factory workers, or clerks, who are, for the time being, unfitted to earn their living. They would not willingly enter a large institution, nor are they so ill as to need a bed in hospital. Conditions often make it impossible for the girl to stay at home, though the parents willingly contribute towards her expenses at a hostel. Whatever the circumstances, these girls all need help to start them on the road to recovery.

The Hostels are conducted on undenominational lines, but during their stay, every effort is made to help patients to moral, as well as to physical recovery, and to train them in the care of their children.

After-care is an integral part of the scheme, and great importance is attached to keeping in touch with patients over a considerable period of time. The keeping of records of the health and physical development of the children for some years forms an addition to the medical work carried on whilst they are inmates of the Hostel.

HIGHBURY QUADRANT HOSTELS		•••	19 Beds.
22, Highbury Quadrant, N.5.			12 Cots.
Barlow Hostel			14 Beds.
20, Highbury Quadrant, N.5.			14 Cots.

CONDITIONS FOR ADMISSION.

Cases are admitted by the Medical Officer of the Royal Free Hospital (Venereal Diseases) Marlborough Clinic, who attends at the Hospital (Out-patients) daily from 10 a.m. to 7.30 p.m., and on Saturdays from 10 a.m. to 4 p.m.

Only young women suffering from venereal disease in an infectious stage are eligible for admission.

Applications for the admission of suitable cases are cordially invited from doctors and social workers.

All requests should be made to the Medical Officer of the Marlborough Clinic, or to the Almoner, Royal Free Hospital. A medical certificate and full social history should be forwarded in the first instance, if the patient cannot attend the Clinic.

The object of the Hostels is to provide treatment and aftercare for girls who really desire a fresh start.

No patient is refused for lack of means, but patients are asked to contribute towards their maintenance, if able to do so.

Further information regarding the hostels may be obtained from the Almoner, Royal Free Hospital, Gray's Inn Road, W.C.1, or from the Hon. Sec. 4, Pelham Crescent, S.W.7.

ANNUAL REPORT, 1932.

Present economic conditions seem to affect the hostels in three directions. First, of course, as with other philanthropic enterprises, in finance. Secondly, the fear of losing their work has made the patients less ready to enter a home, and thirdly, good employment is harder to find for them, when they are well enough to leave.

These conditions have been noticeable in both hostels. In addition each has had its particular problems this year. At Regent's Park Hostel, the financial stringency has been intensified by the cessation of contributions from Sunday cinemas. For a period of about eighteen months, until the new Act came into force in December, 1932, the contribution of £3 a week from Hackney Cinema stopped altogether. This has entailed a loss of about £225 to the funds, and is one of the causes of the deficit of £246 shown on this year's accounts. Again, Regent's Park Hostel has had to pass through a period of transition until a suitable successor to Sister Bolton (who resigned in February) could be found.

Though problems and difficulties loom rather large on the Committee's horizon this year, they feel there is one salient compensation, which may be summed up in the word "co-operation."

Throughout the country there seems at this moment to be more good-will, and more co-ordination amongst societies of all denominations engaged on social work, than ever before. The Committee are especially grateful to the Secretary of the Archbishops' Advisory Board for Moral Welfare, to the Head of Josephine Butler House, Liverpool, and to St. Brigid's House, Highbury, for their help in introducing candidates for vacancies on the staff, and in other directions.

Co-operation amongst those concerned with the patients at the hostels is also essential. It is difficult for any one from the outside to realise how much the success in dealing with the individuals both medically and morally, depends upon wise handling by doctors, almoners, staff, after-care workers, and all who come in contact with them. The work in each department needs to be carried out with utmost tact and endless patience, in order to make help acceptable to those who are at war against social rules.

Inspection by London County Council.

The grant made by the London County Council entails a yearly inspection, as well as the keeping of careful records. The Chief Medical Officer's visit, which took place early in the year, resulted in helpful suggestions, and it was understood that his report on the management, equipment and staffing of the hostels, was satisfactory.

After-care outside the Hostels.

Miss Cadmore, After-care worker, is in touch with patients from both hostels. Her personal report for the year is given below:—

During the three years in which it has been my privilege to work for the Incorporated Hostels I have tried, in co-operation with the Hospital, the Hostels, and other workers, to help just over 300 girls. Since January, 1932, I have paid 428 visits, written 450 letters, and have received 184 visits from girls, or from individuals interested in them.

Of those who have left the Hostels this year, thirty-six have been placed in domestic service, and five in shops. For the latter suitable living-in hostels have been found. These figures do not cover the total number of posts or hostels found, as many girls need placing repeatedly before they settle down.

Four cases have been sent to Training Homes, because they were not fitted to place in work of any kind, and constructive help in their own homes could not be hoped for.

The numbers given above do not include all who leave the Hostels. Some return to their former employment, others are provided for by their parents, and those who are sent to us by individual workers usually return to the care of the person who knows them.

The majority of young women placed seem to do well, particularly the domestic servants, for whom we have many applications. A certain Registry Office gives us considerable help in finding posts, saying that our girls always "look clean, happy and well cared-for"; a tribute, I think, to the Hostel Staffs, considering what most of the girls look like on admission.

One of the problems of after-care is the difficulty of finding opportunities for healthy recreation for these young women. Frequently, clubs are not open at the particular time when a girl is free, and if she has been indoors all the week she wants to be in the open air when she gets a chance. This too often leads to picking up young men on the streets and the formation of undesirable friendships.

Employment in shops and offices has lately been hard to find, and has entailed also discovering hostels for living-in.

We have placed six girls in hostels during the year and only one has remained in the original house to which she was introduced. Their objections to hostels seem to be, that they have to be in by ten o'clock, may not smoke or dance, have to attend prayers, and cannot get permits to go to dances. Though our girls do require a certain amount of supervision, I feel there is some reason in their objections. A girl who is expected to be responsible for herself and pay her own way will naturally find these regulations rather irksome.

Another after-care problem is that of finding good foster-mothers for the babies. There are only two points on which the Infant Life Protection Visitor, under the Public Health authorities, must satisfy herself:

- 1. Is the room where the child is to live the right size for the number of people living in it?
- 2. Is there any reason, such as would hold good in a Court of Law, why the woman should not have charge of the child?

If these conditions are fulfilled a foster-mother may be registered. There are many foster-mothers who can pass this test whom we do not consider suitable for our babies.

Nursery Homes have been found for two babies this year. The mothers pay ten shillings a week and are free to visit them when they like.

The greater part of my work lies amongst those who are really weak, or almost unemployable, and I see very little of the serene, well-conducted young woman. I am, therefore, not assessing "successes" and "failures" this year. For within a few months a seeming "failure" may turn into a success. Further, I should like to register the conviction that to carry through after-care successfully one must encourage the attitude, both in oneself and in others that no girl is "hopeless."

REGENT'S PARK HOSTEL. January 1st to December 31st, 1932

On January 1st, 1932, there were twelve patients in the Hostel. During the year forty-two have been admitted, and there were nine in residence on December 31st, 1932.

The total number of patient days is 4,341, and the average length of stay is eighty-two days.

Staff.

It was recorded in last year's report that Sister Bolton, who had been in charge of Regent's Park for $4\frac{1}{2}$ years, was resigning in February, 1932. It was difficult to replace her, but after an interregnum, Miss Mitchell, lately in charge of Rosemundy Home, Cornwall, was happily installed as Matron, and is now keenly devoted to the interests of the Hostel. Nurse Kempley carried on the traditions of the home during the transition period with patience and efficiency, and the Committee are most grateful to all members of the Staff for their loyal co-operation.

Patients.

The early part of this year was not altogether an easy time for Committee and Staff, and during the transition period, the number of girls actually in residence had to be reduced for a few weeks, as the more independent spirits were creating a somewhat difficult atmosphere. This happily soon passed over, and there is now a feeling of pride in the Hostel, and a desire to make everyone welcome to it. A considerable amount of freedom is given and a modified system of self-government with election of prefects is in operation.

Almost each day of the week has its own visitor or teacher from the outside; classes in choral singing, citizenship, and topical events have been held, and Miss Crockett and Miss Munro, who have been helping at the Hostel for five and four years respectively, still continue their weekly visits. The Committee greatly appreciate their co-operation.

Medical Report.

From Dr. Margaret Rorke, Chief Medical Officer, V.D. (out-patients)
Department, Royal Free Hospital.

The types of case admitted during the past year were very much as in the past; (a) acutely infectious, (b) chronic persistent infections not yielding to out-patient treatment, (c) country cases with no local facilities for treatment.

One or two of the cases were so acutely infectious that abdominal operations were required. One very chronic case referred to us from another hospital, who resisted all types of treatment in the Hostel, was admitted to hospital for artificial Pyro-therapy. The result was very satisfactory and before discharge there were three negative reports in succession.

All possible types of treatment are used for the Hostel inmates. Good dietary, good nursing and ample fresh air are combined with intensive medical treatment. Diathermy has been used with good effect on some of the cases this year.

(signed) MARGARET RORKE.

After-care within the Hostel.

Correspondence with a patient's relatives and friends, and arrangements for her future, form a considerable part of the indoor work of the Matron, and are preliminary and additional to the work of Miss Cadmore, as "outside worker." In normal years the letters received by the Matron from Past Patients, or written by her, number about one a day, and visits to the Hostel have been almost as many.

This year, however, owing to the break in continuity occasioned by the change of Head, and the transition period of three months mentioned above, the numbers of letters and visits are naturally much smaller.

The figures for this year are as follows:

() : [[[[[[[[[[[[[[[[[[
Letters received from Old Girls	 	 117
Letters written to Old Girls	 	 95
Visits from Old Girls	 	 94
Letters received in connection with patients	 	 63
Letters written in connection with patients	 	 251
Visits from persons connected with patients	 	 221

Records of Past Patients.

Since the Hostel was first started in 1919, records have been kept of Past Patients, and the results published year by year, under their various categories.

There are now 560 Past Patients who come under the heading "No Longer Needing After-Care," and as these girls are no longer in touch with the Hostel, the classifications as given below can only be regarded as very approximate. They serve to show, however, the number who have passed through the Hostel, and give the impression, which the Committee believe to be accurate, that about sixty per cent of Hostel girls "make good."

Mrs. Antrobus' Lecture.

Early this year Mrs. Antrobus (Miss Symons) very generously gave a lecture on Needlework, in aid of the funds of the Hostel. It was held at 47, Hans Place, kindly lent by Mrs. d'Avigdor-Goldsmid, and some exceedingly interesting slides were shown to an appreciative audience. The sum realised was £33. The Committee are most grateful to Mrs. Antrobus, for her interest, to Mrs. d'Avigdor-Goldsmid for lending the house, and to the audience who supported this effort.

Treasurer's Report.

For the first time in fourteen years the Income and Expenditure accounts of Regent's Park Hostel show a serious deficit. The income has dropped from £1,490 received last year, to £1,253 this year, and the expenditure has increased from £1,480 to £1,499: the deficit is therefore £246.

The decrease in income is due to the following causes:

- (a) the loss of "Additional Benefits previously paid by Insurance Societies in respect of insured patients;
- (b) a big decrease of £90 on the amounts paid by the patients themselves;
- (c) the cessation for the whole year of contributions from the Sunday Performances of Cinemas.

Had it not been for unexpected donations from Miss Ruth Darwin, Mrs. James Beale, the generous help of Mrs. Antrobus and other friends and subscribers, the situation would have been even more serious. The Committee are extremely grateful for the support they have received, but view the coming year with much anxiety, and feel they will have to make some big effort to restore financial equilibrium, in the near future.

The Committee desire to thank the following for their gifts to the Hostel:

Flowers and Plants.—Mrs. James Beale, Miss H. M. Beale, Old Girls.

Clothing.—Dr. D. C. Hare, Miss K. C. Hare, Miss d'Avigdor, Miss McEwan, Miss Maynard, Hostel Staff, Shoreham Girl Guides.

Books.—Mrs. Stephenson.

Zoo Tickets.—Miss Royden, the Lady Emmott.

Screen Covers.—Dr. Rorke.

Christmas Gifts.—Dr. Broman, Dr. Rorke, Miss d'Avigdor, Miss Royden, Dr. Hare, the Staff.

Copies of "Punch."—Miss Mayers.

All gifts in kind are greatly appreciated. The Matron appeals especially for clothing, including shoes and stockings, for the girls, who are often without means for several months.

HIGHBURY HOSTELS.

January 1st to December 31st, 1932.

Number of Patients.

On January 1st, 1932, there were twenty-three patients and seventeen babies in residence at Highbury Hostels. During the year thirty-eight patients have been admitted. On December 31st there were twenty-eight patients and fifteen babies in residence.

The total number of "patient days" is 9,217, and of "baby patient days," 6,621. These figures show a slight decrease on last year, due to a slack period last autumn, which seemed to affect the majority of Hostels in London.

Policy.

It may be useful to recapitulate the policy and organisation of Highbury Hostels. In No. 22, Highbury Quadrant, patients receive pre-natal treatment for venereal disease, which, if begun early enough, should ensure an absolutely non-infected baby. They go to hospital for their confinements, but return when their infants are ten or twelve days old for further treatment. Breastfeeding is encouraged in every way, artificial feeding is rarely used, and the mothers are trained to look after, care for, and take a pride in their infants. Visitors constantly express surprise at the healthy and vigorous appearance of the babies; indeed cases of congenital syphilitic disease have been exceedingly rare, owing to the intensive pre-natal treatment.

The Barlow Hostel (No. 20, Highbury Quadrant), is used as a continuation Hostel, and the mothers transfer to this house when their children are about four months old. By that time, the young women are fit enough to take regular duties as house, kitchen, or laundry-maids, and are paid for their work, repaying the Hostel 10s. weekly out of their wages.

When at last the child has been weaned, daily work outside the Hostel is found for the mothers, and their babies are cared for, during the day, by the Staff. At this stage, the mothers contribute two-thirds of their earnings (whatever they may be) towards their own and the child's maintenance. They have their regular times off duty, and more freedom is allowed than in No. 22.

Not all those who leave No. 22 go into the Barlow Hostel. Some have parents to whom they return, while a few find the

continuance of Hostel life irksome, and prefer to go away. Those, however, who avail themselves of the opportunities offered, become very proud of their healthy children and realise the benefit of the good conditions and skilled care they receive.

Staff.

Some re-distribution of duties has been considered desirable this year, in order to economise in administration, and link the two houses more closely together. The post of Warden of the Barlow Hostel has been dispensed with. The second Sister now lives in No. 20, Highbury Quadrant, devoting herself especially to the interests and welfare of the Barlow Hostel inmates, in addition to taking Sister Noakes' place when she is off duty. The changes have been smoothly and effectively carried out.

That the whole staff work together for the well-being of the girls, under the direction of Sister Noakes, goes almost without saying. The Committee desire to make especial mention of the fact that it is due to their thought and care for economy that the expenses show a reduction this year, under no less than twenty different headings.

Premises.

Repairs and re-decorations have been strictly limited to absolute necessities. Serious trouble was discovered in the floor of the verandah, where the babies sleep out under cover, and considerable expense was incurred in making it safe. Mr. Christopher Maynard, of Messrs. Hayward and Maynard, Architects, has kindly offered his services as honorary architect to the Hostels, and his advice has already proved valuable on more than one occasion.

The gardens of the two houses are in full use the whole year round, but were an especial boon during the hot summer.

Medical Report.

From Dr. Anne Campbell, Medical Officer, Highbury Hostel.

In this year we have had an average of ten babies in residence in each Hostel. In No. 22, Highbury Quadrant, the babies have been very healthy, apart from mild colds. Most of them are breast-fed, or partly breast-fed, and the mothers attend the Hospital for treatment. There were two still-births this year, one due to a malformation in the child, and one for which there was no cause found, except that the mother had been a very acute case of syphilis on admission to the Hostel.

One child developed pneumonia and died, but this child had a congenital defect of the heart, which may have accounted for its inability to stand up to the illness.

In the influenza season we had a few mild cases amongst the girls, but otherwise their health has been good.

In the Barlow Hostel the number of babies has been maintained. The girls appreciate the hostel greatly, and are intensely interested in the growth and development of their respective babies, and there is a good deal of friendly rivalry over them; always a healthy sign.

In the summer of 1932 three children were attacked by an obscure form of gastric-enteritis. They were sent to hospital, where two died; the third recovered and is now a healthy little girl. A third child died in Vincent Square Hospital of wasting. This was the child of a syphilitic mother who had had a good deal of treatment before her confinement and after, and the child had never been very strong.

At the various parties held for "Old Girls" this year there was always a good attendance, and it was interesting to see how the babies had grown and developed since they left the Hostel, and to find that some of our babies are now of school age.

The staffs of both Hostels have worked loyally and well.

After-care.

The appreciation of Past Patients for what has been done for them at the Hostels is clearly shown by the number of visits they pay to the Hostel, after they have left. This year has created a record, there being one old girl visitor for practically every day of the year. The number of letters written to Old Girls, and by them, has consequently dropped a little. At the "Babies' Parties" held three times a year, the children are examined by Dr. Campbell, and the records of their progress carefully noted. The visitor who happens in on one of these occasions is always delightfully astonished at the healthy and well-cared-for appearance of both past and present children; and there is no doubt that the methods of correct feeding and hygiene learnt by the girls whilst they are resident at the Hostel, benefits the children throughout their early years.

The following are the figures for visits and correspondence for the last three years:—

	1930.	1931.	1932.
Visits from Old Girls	 261	293	361
Letters from Old Girls	 255	225	107
Letters from Employers, friends, &c.	 233	201	250
Letters to Employers, &c	 238	315	319

Ranger Company.

The Ranger Company of Girl Guides in connection with the Hostel is still being carried on, and is attended by several "Old Girls," who come from a considerable distance to the meetings, and are very proud of having their own company.

Finance. Treasurer's Report.

The accounts show an improvement on last year, when there was an excess of expenditure over income of £157. This year we have decreased expenditure by £155 and increased income by £67, thus ending with a credit balance of £65.

This result is a great encouragement to all connected with the Hostels and their management, though it can hardly be hoped that expenditure will be so low another year, nor that we shall be so fortunate with donations.

We wish especially to thank our subscribers for their undeviating support.

The total cost of each patient and her baby per week, including all expenses is £2 7s. 6d. compared with £2 8s. 0d. during 1931, and the average cost of food for each adult is $8s. 9\frac{1}{2}d$.

The Extension Fund Overdraft at the Bank still stands at about £1,100, but does not show in the accounts by reason of the receipt of a portion of the L.C.C. Grant in December, which is lent from Current to Capital Account, and temporarily wipes out almost the whole overdraft.

The Committee are most grateful to the following kind friends for their gifts to the Hostels.

Bulbs.—Dr. Anne Campbell.

Clothing.—Mrs. and Miss Abraham, the Hon. Mrs. Barlow, Miss Chapman, Miss d'Avigdor, Mr. and Miss Noakes, Mrs. and the Misses Pook, Queen Mary's Needlework Guild, 1st Sands Girl Guides.

Furniture and Pram.—Mrs. Groom, Mrs. Sidney Higgs, Mrs. Leff, Mrs. Watson.

Books and Lecture Tickets.—Dr. E. H. Lepper, British Red Cross Society.

Sweets.—Miss Limburg, Mrs. Lewis, Miss Lewis.

To the Members of the Incorporated Hostels associated with The Royal Free Hospital.

We have audited the above Balance Sheet and have obtained all the information and explanation we have required. The amount to the credit of the Income and Expenditure Account includes the balance on that account as at the date of the Incorporation of the Company, viz:—27th day of February, 1926. Subject to the forgoing remark, the said Balance Sheet is, in our opinion, properly drawn up so as to show a correct view of the state of affairs of the Company, according to the best of our information and the explanations given us, and as shown by the books of the Company. of the Company.

Dated this 16th day of March, 1933.

HARDY, HISLOP & CO., Chartered Accountants, Auditors. 119, Moorgate, London, E.C.2.
