March 28/87

Dear Mr Pritchard

Very many thanks for your
kind reply & order. I should have written
by return but I was stunned yesterday
by the news of the sudden death of my
dear friend Lady Strangford on her
way to Egypt where the Port Said
Hospital. The last few lines to me
(in reference to my allusion to her
work in my Address) lie by me
now unanswered — not a fortnight
old is the note & she lies in her coffin
at Naples today. She died of cerebral
apoplexy caused by sea sickness. Yours
Miss Pritchard
